 Respondent.)

ORDER OF THE BOARD (by R. C. Flemal):

On November 1, 1990 Respondent filed a Report of Abatement Procedures with the Board. Though the report indicates further abatement devices have been installed, the report shows continued exceedances of the Board's nighttime noise regulations. Respondent offered explanations of some higher ambient noise readings, attributing these to crickets and automobile traffic. However, the rooftop fans and furnaces continue to register exceedances. Also, as Complainant points out in its November 28, 1990 reply, the report does not indicate whether all rooftop equipment was activated during the testing.

Unless compliance is demonstrated by January 30, 1991, the Board may impose penalties as indicated in the Act.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 20th day of December, 1990, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
