ORDER OF THE BOARD (by J.D. Dumelle):

This matter comes before the Board by the Agency's June 14, 1990 Motion for Reconsideration of the Board's May 10, 1990 Final Order. The Agency presents two issues in their motion: 1) that the word "solids" was omitted from the definition of "Transfer Efficiency" in the Final Order, whereas it was in place at Second Notice; and 2) that the Board should not have added alternative test method language in that it may not be federally approvable.

In regards to the definition of "Transfer Efficiency", the word "solids" was mistakenly omitted from the Final Order and therefore this portion of the Agency's motion is granted. The Board regrets the error and appreciates the diligence of the Agency in spotting the omission. The Board intends to correct this error and will do so by taking it to First Notice in an appropriate docket in the shortest time practicable.

Insofar as alternative test methods are concerned, the Board has considered this issue at length throughout the course of the proceeding and stands by its determination. (See Board Final Order, R89-16(A), pg. 41. See also, R88-30(A) pg. 5, March 22, 1990.) Accordingly, this aspect of the Agency's motion is denied.

For the reasons contained herein, the Agency's Motion for Reconsideration is granted in part and denied in part.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, do hereby certify that the above Order was adopted on the 3rd day of July, 1990 by a vote of 7-0.

  
Dorothy M. Gunn, Clerk
