v.) PCB 87-59
)
ILLINOIS ENVIRONMENTAL)
PROTECTION AGENCY,)
)
Respondent.)

ORDER OF THE BOARD (by J. Anderson):

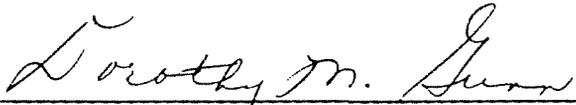

On September 12, 1986, the Central Illinois Public Service Company (CIPS) filed a petition for review of Condition 1 imposed by the Illinois Environmental Protection Agency (Agency) in the renewal of the air operating permit for its Meredosia Station Units 1 and 2. Hearing was held on June 20, 1988.

On June 28, 1988, CIPS filed a motion to remand the permit to the Agency. CIPS and the Agency stipulate that "the factual and legal issues in this matter are identical to those" in the case of Central Illinois Public Service Company v. Illinois Pollution Control Board and Illinois Environmental Protection Agency, PCB 86-47, No. 4-87-0279 (4th Dist. March 2, 1988). There, Appellate Court issued a decision which reversed the Board's decision concerning an identical condition in the permit for Meredosia Unit 3, with directions to order the Agency to delete the condition, "SO₂ emissions shall not exceed 6.0 lbs. per million btu".

The Board hereby remands to the Agency Permit I.D. No. 137805 AAA for the Meredosia Station Units 1 and 2, Boilers 1,2,3 and 4 with instructions to delete Condition 1. This remand constitutes the Board's final action in this appeal and the docket is hereby closed.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 30th day of June, 1988, by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
