a) Parts (Headings and Code Citations):

ORGANIZATION, PUBLIC INFORMATION, AND TYPES OF PROCEEDINGS (2 Ill. Adm. Code 2175)

1) Rulemaking: No docket number presently assigned.

A) Description:

2 Ill. Adm. Code 2175 contains the Board's public information rules and organizational information, as required under Section 1-15 of the Administrative Procedure Act [5 ILCS 100/5-15] and Section 4 of the Freedom of Information Act [5 ILCS 140/4]. Among the information contained in Part 2175 is a listing of the Board's offices, including their addresses and telephone numbers. In recent months, the Board closed its office in Jerseyville and opened an office in Jacksonville. The Board must amend Part 2175 to reflect the changes of address and telephone number. In addition, further review of Part 2175 could indicate more amendments to this Part.

B) Statutory authority:

Implementing and authorized by Section 1-15 of the Administrative Procedure Act [5 ILCS 100/5-15] and Section 4 of the Freedom of Information Act [5 ILCS 140/4].

C) Scheduled meeting/hearing dates:

Public hearings are not required to amend 2 Ill. Adm. Code 2175. However, the Board would conduct such hearings if the level of public interest indicates that public hearings are desirable.

D) Date agency anticipates First Notice:

The Board anticipates First Notice publication of the proposed rules in the *Illinois Register* in the Spring of 2001.

E) Effect on small business, small municipalities, or not-for-profit corporation:

There may be an effect on any small business, small municipality, or not-for-profit corporation that appears before the Board in any type of proceeding or which seeks to contact the Board for any reason, including to inspect and copy Board records. Proceedings before the Board include enforcement actions, rulemaking proceedings, variance proceedings, adjusted standard proceedings, site-specific rulemaking proceedings, permit appeals, pollution control facility siting appeals, and any other actions provided by law. At present, it appears that any amendments would have an insignificant impact on affected entities.

b) Part (Heading and Code Citation):

PERMITS AND GENERAL PROVISIONS (35 Ill. Adm. Code 201)

1) Rulemaking: No docket number presently reserved.

A) Description:

The Illinois Environmental Protection Agency (IEPA) is currently preparing a rulemaking proposal for filing before the Board relating to the permitting of emission units that change locations at least once a year. This rulemaking would address the procedures for the transfer of Federally Enforceable State Operating Permits (FESOPs) to new owners following a change of ownership of a permitted source. The proposed rule would address the permitting of emission units that may emit pollutants at multiple sites.

B) Statutory authority:

Implementing and authorized by Sections 10 and 27 of the Environmental Protection Act [415 ILCS 5/10 & 27].

C) Scheduled meeting/hearing dates:

The IEPA has stated that it anticipates filing a rulemaking proposal with the Board in the Spring of 2001. No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct public hearings in accordance with the requirements established by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28].

D) Date agency anticipates First Notice:

An IEPA submittal of a proposal to the Board would commence this proceeding, and the IEPA has stated that it expects to file a proposal in the Spring of 2001. After the filing of a proposal by the IEPA, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*.

DEFINITIONS AND GENERAL PROVISIONS (35 Ill. Adm. Code 211)

ORGANIC MATERIAL EMISSION STANDARDS AND LIMITATIONS FOR THE CHICAGO AREA (35 Ill. Adm. Code 218)

ORGANIC MATERIAL EMISSION STANDARDS AND LIMITATIONS FOR THE METRO EAST AREA (35 Ill. Adm. Code 219)

1) Rulemaking: No docket presently reserved.

A) Description:

The IEPA is currently developing amendments for proposal to the Board to accomplish several goals in a single cleanup rulemaking. This includes the following amendments to the Illinois ozone rules: (1) the rulemaking may amend existing air pollution control rules for lithographic printing operations to clean up the existing language to make Parts 218 and 219 consistent with revisions to 35 Ill. Adm. Code Part 211 (Definitions) and with recent revisions to these rules; (2) the rulemaking may include amendments to existing rules for volatile organic liquid storage tanks; (3) the rulemaking may include a rule to amend existing rules for perchlorethylene dry cleaners, since perchloroethylene was delisted as a volatile organic material by the United States Environmental Protection Agency (USEPA); (4) the rulemaking may amend existing rules for capture efficiency testing in order to make state rules consistent with USEPA's final rule on the revised capture efficiency test methods; (5) the rulemaking may correct minor or nonsubstantive errors amending rules for incorporations by reference, batch operations, and afterburner operation, air oxidation reactors and vapor collection and control systems; and (6) the rulemaking may also amend Part 211 to conform any possible conflicting provisions with the changes made to 35 Ill. Adm. Code 218 and 219.

B) Statutory authority:

Implementing and authorized by Sections 9.8, 27, 28.2, and 28.5 of the Environmental Protection Act [415 ILCS 5/9.8, 27, 28.2 & 28.5].

C) Scheduled meeting/hearing dates:

The IEPA has stated that it anticipates submitting its rulemaking proposal to the Board in the Spring or Summer of 2001. No hearings are scheduled

at this time. Once a proposal is filed, the Board will hold hearings on the schedule established in Section 27 or 28.5 of the Environmental Protection Act [415 ILCS 5/27 or 28.5] for rulemakings that are required under the federal CAA.

D) Date agency anticipates First Notice:

An IEPA submittal of a proposal to the Board would commence this proceeding, and the IEPA has stated that it expects to file a proposal in the Spring or Summer of 2001. After the filing of a proposal by the IEPA, the Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

E) Effect on small business, small municipalities, or not-for-profit corporation:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that emits volatile organic material. However, the IEPA anticipates that the amendments will have no new substantive impact on any sources, since the amendments will be a clean-up of existing requirements.

d) Part (Heading and Code Citation):

DEFINITIONS AND GENERAL PROVISIONS (35 Ill. Adm. Code 211)

1) Rulemaking: Docket number R01-19

A) Description:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal "Recommended Policy on the Control of Volatile Organic Compounds" (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JANUARY 2001 REGULATORY AGENDA

The Board has reserved docket number R01-19 to accommodate any amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period July 1, 2000, through December 31, 2000. At this time, the Board is not aware of any federal amendments to the federal definition of VOM. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-February 2001. The Board will then propose corresponding amendments to the Illinois definition of VOM using the identical-in-substance procedure or dismiss docket R01-19, as necessary and appropriate.

Section 9.1(e) mandates that the Board complete our amendments within one year of the date on which USEPA adopted its action upon which our amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, on July 1, 2000, the due date for Board adoption would be July 1, 2001.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting. The Board will then schedule and conduct at least one public hearing, as required by Section 118 of the federal Clean Air Act (42 USC § 7418) for amendment of the Illinois ozone SIP.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2001, after which time the Board will propose any amendments to the Illinois definition of VOM that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be July 1, 2001, for the

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JANUARY 2001 REGULATORY AGENDA

purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by late-March 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board would promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical compound that is the subject of a proposed exemption or proposed deletion from the USEPA list of exempted compounds.

G) Related rulemakings and other pertinent information:

Other prospective proceedings (see items (b and c) above) and other, as yet unknown, unrelated Board proceedings could potentially impact the general provisions of Parts 211.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

e) Part (Heading and Code Citation):

TOXIC AIR CONTAMINANTS (35 Ill. Adm. Code 232)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (IEPA) is currently preparing a rulemaking proposal for filing before the Board that would incorporate requirements for lead-based paint removal into the Illinois air pollution control regulations.

B) Statutory authority:

Implementing and authorized by Sections 9.5, 10 and 27 of the Environmental Protection Act [415 ILCS 5/9.5, 10 & 27].

C) Scheduled meetings/hearing dates:

The IEPA has stated that it anticipates filing a rulemaking proposal with the Board in the Summer of 2001. No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will hold hearings in accordance with the requirements established by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28].

NITROGEN OXIDES EMISSIONS (35 Ill. Adm. Code 217)

1) Rulemaking: No docket number presently assigned.

A) Description

On October 27, 1998, USEPA found Illinois' State Implementation Plan (SIP), and that of numerous other states, deficient for failing to contain provisions requiring control of emissions that contribute to non-attainment or interfere with maintenance of the ozone air quality standard in other states pursuant to Section 110(a)(2)(D) of the CAA. Under this rulemaking, Illinois was required to adopt NO_x emission controls for four categories of industrial sources. The Agency has already proposed rules to control large stationary sources of nitrogen oxides (NO_x), specifically, boilers and turbines serving electric generator units greater than 25 megawatts; boilers, and turbines with head input greater than 250 mmBtu/hr; and large cement kilns with ozone season emissions greater than one ton. The fourth category, large internal combustion engines, is the subject of this notice. The U.S. Court of Appeals for the D.C. Circuit remanded this category to USEPA for further consideration. Once USEPA promulgates a final rule for large internal combustion engines, the Agency will have to proceed promptly with the rulemaking. The Agency may also revise Sections in 35 Ill. Adm. Code 201 concerning continuous emissions monitoring.

B) Statutory Authority:

Implementing Section 10 and authorized by Sections 27 and 28.5 of the Act [415 ILCS 5/10 & 27, and 28.5].

C) Scheduled Meetings/Hearing Dates:

IEPA submittal of a proposal to the Board will commence this proceeding, and that submittal is anticipated by the Summer of 2001. No hearings are scheduled at this time. Once the proposal is filed, the Board will hold hearings on the schedule set forth in Section 28.5 of the Act for those rulemakings required under the federal CAA.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JANUARY 2001 REGULATORY AGENDA

A) Description:

Section 13.3 of the Environmental Protection Act [415 ILCS 5/13.3] mandates that the Board update the Illinois wastewater pretreatment regulations to reflect revisions made to the federal wastewater pretreatment rules made by the United States Environmental Protection Agency (USEPA).

The Board has reserved docket number R01-25 to accommodate any amendments to the federal wastewater pretreatment rules, 40 CFR 400 through 499, that the USEPA may have made in the period July 1, 2000, through December 31, 2000. At this time, the Board is aware that USEPA undertook one action that affected the text of 40 CFR 400 through 499 and its implementation. These actions, together with a brief description of each, are as follows:

65 Fed. Reg. 49666 (August 14, 2000)	USEPA established a new part containing effluent limitations and pretreatment standards for sources in the transportation equipment cleaning industry category.
---	---

The Board has not yet verified which if any of these listed federal actions will actually require amendments to the Illinois wastewater pretreatment regulations. The Board has not yet determined whether this listing of federal actions is an exhaustive listing of all federal actions that affect the text of 40 CFR 400 through 499. The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-February 2001. The Board will propose corresponding amendments to the wastewater pretreatment regulations using the identical-in-substance procedure.

Section 9.1(e) of the Act mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is August 14, 2000, the due date for Board adoption of all amendments in the period would be August 14, 2001.

C) Scheduled meeting/hearing dates:

None are scheduled at this time. If the Board determines to propose amendments, the Board will vote to do so at an open meeting. No public hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2001, after which time the Board will propose any amendments to the Illinois wastewater treatment rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be August 14, 2001, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-May 2001. The Board opened this rulemaking docket R98-11 on September 4, 1997, to identify and reconcile any inconsistencies between the LMFA-related regulations of Part 506 and the pre-existing agricultural-related pollution regulations of Parts 501 through 504.

Since the opening of docket R98-11, however, Public Acts 90-565 and 91-110, effective July 13, 1999, again amended the LMFA. The Board opened docket R98-26 to amend the LMFA-related rules to conform with the subsequent statutory amendments. The Board entered an order on January 22, 1998 staying the R98-11 rulemaking proceeding until the conforming amendments of docket R98-26 are completed. It is unlikely that the Board will proceed with this docket since P.A. 91-110 delegated a majority of the regulations to the Department of Agriculture. However, the Board will wait to act on this docket until reviewing the Department's final rules and the corresponding proposal to 35 Ill. Adm. Code 506.

PRIMARY DRINKING WATER STANDARDS (35 Ill. Adm. Code 611)

1) Rulemaking: Docket number R01-20

A) Description:

Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] mandates that the Board update the Illinois SDWA regulations to reflect the USEPA amendments to the federal Safe Drinking Water Act (SDWA) primary drinking water regulations.

The Board has reserved docket number R01-20 to accommodate any amendments to the SDWA primary drinking water regulations, 40 CFR 141 through 143, that the United States Environmental Protection Agency (USEPA) may make in the period July 1, 2000, through December 31, 2000. At this time, the Board is aware that USEPA undertook one action that affected the text of 40 CFR 141 through 143. This action, together with a brief description, is as follows:

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JANUARY 2001 REGULATORY AGENDA

65 Fed. Reg. 76708 (December 7, 2000)	USEPA adopted national primary drinking water regulations (NPDWRs) for radionuclides. Included were maximum contaminant levels (MCLs) and monitoring, reporting, and public notification requirements for community water systems. USEPA instituted new monitoring requirements for uranium, an unregulated contaminant; combined radium (Ra ²²⁶ + RA ²²⁸); and gross alpha particle, beta particle, and photon radioactivity. The MCLs for combined radium and gross alpha particle, beta particle, and photon radioactivity remained unchanged from those in the interim NPDWRs for those contaminants. (The Board will need to make corresponding amendments.)
--	--

The Board has not determined the nature of any amendments that might be required by the above federal action. The Board must determine what amendments, if any, will be necessary in response to the federal amendments. Further, the Board has not yet determined whether this listed federal action is the only federal action that affect the text of 40 CFR 141 through 143. The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-February 2001. The Board will then propose corresponding amendments to the Illinois SDWA regulations using the identical-in-substance procedure or dismiss docket R01-20, as necessary and appropriate.

Section 17.5 mandates that the Board complete its amendments within one year of the date on which the United States Environmental Protection Agency (USEPA) adopted its action upon which the amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, on December 7, 2000, the due date for Board adoption would be December 7, 2001.

GROUNDWATER QUALITY (35 Ill. Adm. Code 620)

1) Rulemaking: R01-14

A) Description:

The Illinois Environmental Protection Agency (IEPA) has filed a rulemaking proposal before the Board that would amend Section 620.505 of the groundwater quality regulations (35 Ill. Adm. Code 620.505) in response to an interpretation of that Section by the appellate court in People v. Stonehedge (94-CH-46, May 22, 1997). Compliance monitoring points are broken into different categories in Section 620.505. Samples taken from potable water wells other than community water supply wells are acceptable under certain circumstances. The amendments would seek to expand those circumstances to instances in which the IEPA has sufficient hydrogeologic, geologic, construction, and other information to determine the reliability of data generated by analyses of samples from those wells. The amendment would provide increased protection of the groundwater by allowing sampling of greater sampling points.

Implementing and authorized by Section 8 of the Illinois Groundwater Protection Act, 415 ILCS 55/8 and Section 27 of the Illinois Environmental Protection Act [415 ILCS 5/27].

C) Scheduled meeting/hearing dates:

The Board will conduct public hearings on the proposal pursuant to Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/ 27 & 28].

D) Date agency anticipates First Notice:

The Board anticipates holding hearings and moving to First Notice with this proposal in the Spring or Summer of 2001.

E) Affect on small businesses, small municipalities or not for profit corporations:

Small Businesses, small municipalities or not for profit corporations would be affected by the amendments to the extent they engage in any activity that requires demonstration of compliance with the groundwater quality standards.

DISTRIBUTION SYSTEM STANDARDS (35 Ill. Adm. Code Subpart F)

1) Rulemaking: No docket presently reserved.

A) Description:

The Illinois Environmental Protection Agency (IEPA) is preparing a rulemaking proposal for filing before the Pollution Control Board (Board) to amend 35 Ill. Adm. Code Subpart F (Subtitle F) to incorporate distribution system standards including minimum water main pressure, and minimum levels of chlorine and fluoride, and other chemicals. In addition, the Illinois EPA plans to incorporate the requirements for water main and water service line separation from storm sewers, sanitary sewers, and sewer service lines.

(UIC) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UIC regulations.

The Board has reserved docket number R01-21 to accommodate any amendments to the federal UIC regulations, 40 CFR 144 through 148, during the period July 1, 2000, through December 31, 2000. At this time, the Board is aware that USEPA undertook one action that affected the text of 40 CFR 144 through 148. This action, together with a brief description, is as follows:

65 Fed. Reg. 67068 (November 8, 2000)	USEPA adopted hazardous waste listings and land disposal restrictions (LDRs) for chlorinated aliphatics production wastes. Included were amendments to the federal RCRA Subtitle C hazardous waste rules and the federal UIC rules.
--	---

The Board has not determined the nature of any amendments that might be required by the above federal action. The Board must determine what amendments, if any, will be necessary in response to the federal amendments. Further, the Board has not yet determined whether this listed federal action is the only federal action that affect the text of 40 CFR 144 through 148. The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-February 2001. The Board will then propose corresponding amendments to the Illinois UIC regulations using the identical-in-substance procedure or dismiss docket R01-21, as necessary and appropriate.

Section 13(c) mandates that the Board complete our amendments within one year of the date on which USEPA adopted its action upon which our amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is November 8, 2000, the due date for Board adoption of all amendments in the period would be November 8, 2001.

B) Statutory authority:

C) Scheduled meeting/hearing dates:

None scheduled at this time. When the Board determines to propose amendments, the Board will vote to do so at an open meeting. No public hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2001, after which time the Board will propose any amendments to the Illinois UIC rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be **November 8, 2001**, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early-August 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

E) Effect on small business, small municipalities, or not-for-profit corporations:

1) Rulemaking: Docket number R01-23

A) Description:

Section 22.4(a) of the Environmental Protection Act [415 ILCS 5/22.4(a)] mandates that the Board update the Illinois Resource Conservation and Recovery Act (RCRA) Subtitle C regulations to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle C regulations.

The Board has reserved docket number R01-23 to accommodate any amendments to the federal RCRA Subtitle C program, 40 CFR 260 through 270, 273, and 279, that USEPA made in the period July 1, 2000, through December 31, 2000. At this time, the Board is aware of the following federal actions that occurred in this time-frame:

65 Fed. Reg. 42292 (July 10, 2000)	USEPA adopted technical corrections to its September 30, 1999 (64 Fed. Reg. 52828) National Emission Standards for Hazardous Air Pollutants (NESHAPs) applicable to hazardous waste combustors and its June 19, 1998 (63 Fed. Reg. 33783) hazardous waste combustor rule. Included were corrections to the hazardous waste regulations segments of the rule.
65 Fed. Reg. 67068 (November 8, 2000)	USEPA adopted hazardous waste listings and land disposal restrictions (LDRs) for chlorinated aliphatics production wastes. Included were amendments to the federal RCRA Subtitle C hazardous waste rules and the federal UIC rules.

The Board has not yet verified which if any of these listed federal actions will actually require amendments to the Illinois RCRA Subtitle C hazardous waste regulations. The Board has not yet determined whether this listing of federal actions is an exhaustive listing of all federal actions that affect the text of 40 CFR 260 through 270, 273, and 279. The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-February 2001. The Board will propose

JANUARY 2001 REGULATORY AGENDA

A) Description:

Section 22.4(d) of the Environmental Protection Act [415 ILCS 5/22.4(d)] mandates that the Board update the Illinois underground storage tank (UST) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UST regulations. The mandate specifically excludes federal amendments relating to the design, construction, installation, general operation, release detection, release reporting, release investigation, release confirmation, out-of-service systems, and closure or financial responsibilities for USTs.

The Board has reserved docket number R01-24 to accommodate any amendments to the 40 CFR 281 through 283 that USEPA may make in the period July 1, 2000, through December 31, 2000. At this time, the Board is not aware of any federal amendments. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-February 2001. The Board will then propose corresponding amendments to the Illinois UST regulations using the identical-in-substance procedure or dismiss docket R01-24, as necessary and appropriate.

Section 22.4(d) mandates that the Board complete our amendments within one year of the date on which USEPA adopted its action upon which our amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, on July 1, 2000, the due date for Board adoption would be July 1, 2001.

A) Description:

Since Part 740 was adopted on June 5, 1997, the Illinois Environmental Protection Agency's ("Illinois EPA") implementation of the rules has given rise to the need for some additions, corrections, and clarifications to the existing rules. The primary purpose of the amendments will be to correct mistakes and omissions, clarify ambiguities, and insure consistency across the regulations for the Site Remediation Program, Leaking Underground Storage Tank ("LUST") Program (35 Ill. D) Date Agency anticipates First Notice:

The Board anticipates holding hearings and moving to First Notice with this rulemaking in the Spring or Summer of 2001

E) Effect on small businesses, small municipalities or not-for-profit corporations:

Generally, small businesses, small municipalities and not-for-profit corporations will not be affected by the proposal unless they perform

environmental remediation under the Site Remediation Program. In most cases, participation in the Site Remediation Program is voluntary, the exception being participation under Board or court orders arising out of enforcement actions. For those who do choose to participate, the proposed amendments are not expected to make substantial changes to the existing program.

One group of small businesses that will be affected is laboratories performing analyses of soil and water samples. The amendments will propose the phase-in of a requirement that laboratories performing analyses for sites in the Site Remediation Program must be accredited under 35 Ill. Adm. Code 186.

- 1) Rulemaking: Presently reserved docket number R01-22

A) Description:

Section 22.40(a) of the Environmental Protection Act [415 ILCS 5/22.40(a)] mandates that the Board update the Illinois Resource Conservation and Recovery Act (RCRA) Subtitle D municipal solid waste landfill (MSWLF) regulations to reflect the United States Environmental Protection Agency (USEPA) amendments to the federal RCRA Subtitle D MSWLF rules.

The Board has reserved docket number R01-22 to accommodate any amendments to the RCRA Subtitle D regulations, 40 CFR 258, that USEPA may make in the period July 1, 2000, through December 31, 2000. At this time, the Board is not aware of any amendments to the federal RCRA Subtitle D MSWLF regulations. The Board will verify the

existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-February 2001. The Board will then propose corresponding amendments to the Illinois RCRA Subtitle D MSWLF rules using the identical-in-substance procedure or dismiss docket R01-22, as necessary and appropriate.

Section 22.40(a) mandates that the Board complete its amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. In docket R01-22, if the earliest federal amendments in the applicable period is assumed to have occurred on July 1, 2000, the nominal due date would be July 1, 2001.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 22.40(a) and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 22.40(a) & 27].

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct public hearings in accordance with requirements established by Sections 27 and 28 of the Act [415 ILCS 5/27 & 28].

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-February 2001, after which time the Board will propose any amendments to the Illinois RCRA Subtitle D MSWLF rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be July 1, 2001, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by late-March 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

Section 22.40(a) of the Environmental Protection Act [415 ILCS 5/22.40(a)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

dd) Part(s) (Heading and Code Citation): General Provisions (35 Ill. Adm. Code Part 900); Sound Emission Standards and Limitations for Property Line-Noise-Sources (35 Ill. Adm. Code Part 901).

1) Rulemaking: No docket presently reserved.

A) Description:

35 Ill. Adm. Code Part 900 contains the general provisions to the Board's noise regulations. Section 900.103 sets forth the procedures to be used for measuring sound. Under that Section the procedures used must be in substantial conformity with certain standards of the American National Standards Institute ("ANSI"). The ANSI standards referenced in Section 900.103, however, are now outdated. The proposed amendments will update the references to current ANSI standards.

35 Ill. Adm. Code Part 901 contains the standards for allowable sound levels from property line noise sources. 35 Ill. Adm. Code 901.104 contains limits for impulsive sound and requires sound to be measured with "fast dynamic characteristic" and is therefore inconsistent with 35 Ill. Adm. Code 900.103(b), which requires sound to be measured as "leq". Section 901.104 will be amended to comply with the requirements of Section 900.103(b).

B) Statutory authority:

Implementing Section 25 and authorized by Section 27 of the Environmental Protection Act (415 ILCS 5/25 and 5/27).

C) Scheduled meeting/hearing dates:

No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct hearings as required by Sections 27 and 28 of the Act (415 ILCS 5/27, 5/28), possibly in Spring or Summer of 2001.

D) Date Agency anticipates First Notice, if known:

A Spring or Summer 2001 IEPA submittal of the proposal to the Board is expected, after which the Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

The rulemaking may affect any small business, small municipality or not-for-profit corporation subject to the Board's noise regulations.

G) Related rulemakings and other pertinent information:

The IEPA plans to repeal 35 Ill. Adm. Code Parts 951 and 952. Those Parts set forth measurement procedures adopted pursuant to 35 Ill. Adm. Code 900.103, and are therefore based upon outdated ANSI standards.

ACTIVITY STANDARDS (35 Ill. Adm. Code 1421)
DESIGN AND OPERATION OF FACILITIES (35 Ill. Adm. Code 1422)

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JANUARY 2001 REGULATORY AGENDA

1) Rulemaking: No docket presently reserved.

A) Description:

35 Ill. Adm. Code Subtitle M, Parts 1420, 1421, and 1422, are the rules for Potentially Infectious Medical Waste (PIMW). Through administration of these rules, the IEPA has identified a need for the disposal outside of the municipal waste stream of household medical waste, including sharps, generated from home health care. One approach under consideration is to exempt from the transfer station permit requirement doctors' offices, hospitals and pharmacies that accept household-generated medical wastes for transfer to disposal facilities. The permit requirement may be replaced with a requirement for registration with the IEPA. Certain other provisions are in need of clarification. However, it is not clear at this time whether each of the three Parts will need to be amended.

B) Statutory Authority:

Sections 27 and 56.2(f) of the Act [415 ILCS 5/27, 56.2(f)].

C) Scheduled Meeting/Hearing Dates:

The IEPA presently anticipates that it will file a rulemaking proposal in Spring or Summer 2001. No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct public hearings in accordance with the requirements established by Sections 27 and 28 of the Act. [415 ILCS 5/27, 28].

D) Date Agency Anticipates First Notice:

An IEPA submittal of a proposal to the Board will commence this proceeding and is expected to be filed in Spring or Summer 2001, after which time the Board will cause a Notice of Proposed Rules to appear in the *Illinois Register*.

E) Effect on Small Business, Small Municipalities, or Not-for-Profit Corporations:

This rule may affect any small business, small municipality, or not-for-

profit corporations that disposes PIMW. The IEPA anticipates that the changes contemplated would not have a significant effect. Exempting medical providers from the transfer station permit requirement if they accept household-generated waste for transfer to disposal facilities would assist such providers in performing a community service by reducing the associated regulatory burden. The clarifications being considered would not substantively change the existing requirements.
