RULEMAKING UPDATE

BOARD ADOPTS FINAL RULE IN DOCKET R89-14(B), GROUNDWATER QUALITY STANDARDS (35 ILL. ADM. CODE 620), OPENS DOCKET C TO REPROPOSE AMENDMENTS TO PART 303

On November 7, 1991, the Board adopted as a final rule the Docket B version of the groundwater quality standards in this proceeding [7-0, Opinion and Order of the Board by R.C. Flemal, J.D. Dumelle concurring]. On October 22, the Joint Committee on Administrative Rules issued a certificate of no objection to the proposed rules. The rules are adopted under Section 8 of the Illinois Groundwater Protection Act which mandates that the Board promulgate water quality standards for groundwater. The rules include General Provisions (Subpart A, including definitions, incorporations by reference, and exclusions), Groundwater Classification (Subpart B, setting up 4 classes of groundwater including potable resource class, general resource class, special resource class, and other groundwater; groundwater management zone and reclassification), Nondegradation Provisions (Subpart C, including general prohibitions against use impairment and preventive notification and preventive response activities and procedures), Groundwater Quality Standards (Subpart D, containing numerical and narrative standards for the specific classes), Groundwater Monitoring and Analytical Procedures (Subpart E), and Health Advisories (Subpart F).

In addition, the Board opened a Docket C in order to again propose amendments to Part 303. These proposed amendments were not adopted within one year from their original publication in the Illinois Register, therefore requiring the Board to return to first notice. The effect of these amendments is to recognize within Part 303 the adoption of Part 620 and its applicability to groundwater. Part 303 contains the Board's regulations applicable to underground waters.

Questions concerning this proceeding should be directed to Michelle Dresdow at (815)753-0947. Copies of the Opinion and Orders are available from the Board Offices, at the telephone number listed in this edition. Please refer to the docket number when requesting copies.

R91-25 INQUIRY HEARINGS FOR AMENDMENTS TO NOISE REGULATIONS

On October 24, 1991 the Board approved an order to hold inquiry hearings to focus on changes to 35 Ill. Adm. Code Subtitle H: Noise. Changes in instrumentation capabilities, developments in the field, and studies on noise measurements have taken place, prompting the Board to review the noise regulations. Hearings have been scheduled for November 25 & 26 at 10:00 a.m. in the State of Illinois Center, Chicago, Illinois, Room 9-040. Interested persons should contact Diane O'Neill at (312) 814-6062.

BOARD ADOPTS RECYCLED PAPER RULE (R90-24);

RECYCLED PAPER REQUIRED AS OF JANUARY 1, 1992

On November 7, 1991, the Board adopted a rule requiring that all documents filed with the Board by attorneys or organized environmental and trade groups be submitted on recycled paper. This rule is the result of a proposal filed by Business and Professional People for the Public Interest (BPI). (Board docket R90-24.) In its final form, the rule requires that as of January 1, 1992, all documents, excluding exhibits, filed with the Board by attorneys or organized environmental and trade groups be submitted on recycled paper. "Recycled paper" means paper which contains at least 40% postconsumer material, as the phrase "postconsumer material" is defined in Section 3(f) of the Illinois Solid Waste Management Act (Ill.Rev.Stat.1989, ch. 111 1/2, par. 7053(f)). The recycled paper requirement does not apply to stationery, such as letterhead, when used for cover letters or similar purposes. Additionally, the Board encourages all participants to double-side copies of documents filed with the Board.

Attorneys and those who represent organized environmental and trade groups are reminded that this rule becomes effective on January 1, 1992. This short delay between the final adoption of the rule and the compliance date will allow for a short phase-in period, during which participants can exhaust their existing stocks of paper and obtain recycled paper. The Board has recognized that this recycled paper requirement will cause some inconvenience in the beginning, but has found that the important public policy goals of encouraging recycling and stimulating markets outweigh the inconvenience.

The adopted rule will soon be published in the Illinois Register. Copies of the final opinion and order, containing the text of the rule, are available from the Board at 312/814-3620. Questions should be directed to Elizabeth Schroer Harvey at 312/814-6921.

SECOND NOTICE ON REPEAL OF MEDICAL WASTE RULES, R91-18

As part of the new legislative mandate under P.A. 87-752, the Board proposed the repeal of its existing hazardous (infectious) medical waste rules for Second Notice on October 24, 1991. P.A. 87-752 institutes a new system for regulating potentially infectious medical wastes that requires the Board to repeal the existing regulations by January 1, 1992. Other mandates for the Board found in P.A. 87-752 are currently part of the Board's rulemaking docket in R91-19, R91-20, and R91-21. Questions should be directed to Michael McCambridge at 814-6924.
