BOARD ADOPTS RULES (R90-9) REGULATING USED AND WASTE TIRES

On April 25, 1991 the Board adopted (7-0) rules concerning the transportation, storage, processing and disposal of used and waste tires. The rules are designed to eliminate the human health and adverse environmental effects caused by unmanaged tire storage sites and processing practices, in particular the threat of mosquito infestation and tire fires. The rules require specified management practices for tire storage sites and also require financial assurance of the proper disposal of used and waste tires. Transporters are required to have a permit and are prohibited from delivering loads to unmanaged tire sites. The regulations become enforceable on January 1, 1992. A second docket (Docket B) will consider further refinements to the rule, the pesticide management plan, an exemption for retreaders and recyclers, and the repeal of existing Part 849.

Persons who wish to obtain copies of the rule may conduct the Clerk of the Board at 312/814-3620. The rule is expected to be published in the Illinois Register in June.

FOR YOUR INFORMATION

The conference "Working Together to Manage Waste" will be held May 7th and 8th at the Bismarck Hotel. This conference is the twenty-second in a series of conferences on waste management. Further information on speakers, sponsors and accommodations can be found in the back of this issue. Also included in this issue is a conference registration form. Eileen Johnston, co-ordinator, can be contacted at (312) 814-3470 or (708) 251-4386.
