Availability of Landfill Regulations Information Diskette

The Board regulations for the design and operation of nonhazardous waste landfills were filed and effective on September 18, 1990. Based on the interest shown by participants at the IEPA held workshops on December 6, 1990 and December 12, 1990 and calls received to date regarding these regulations, several documents have been compiled in a set of diskettes. The compilation includes the Board's Opinions and Orders in the R88-7 and the predecessor R84-17D dockets (approximately 850 pages) and the supporting background document and detailed responses to comments of the Scientific/ Technical Section (approximately 775 pages). In addition, the compilation contains executive summaries and an overview of the Board's functions and operations. The diskettes totalling over 1600 pages have been put together using Wordperfect 5.0 word processing software. The diskettes, available in either 5.25" or 3.5" size, can be purchased from the Illinois Pollution Control Board for \$100 per set. Please use the form below to speed your request. Diskettes will be sent by First Class mail.

Requests with payments of \$100 for each set of diskettes ordered made payable to "Illinois Pollution Control Board" should be sent to:
