ORDER OF THE BOARD (by J. D. Dumelle):

This matter comes before the Board upon a March 21, 1985, motion for modification filed on behalf of the Illinois Environmental Protection Agency (Agency). No response was filed.

The Agency points out that the Board's February 20, 1985, Order in this matter grants variance until June 1, 1985, yet orders in condition 3 that a thermal oxidation afterburner be installed by September 1, 1985, and that no explanation for this 3-month gap is given.

The explanation is actually rather involved, beginning with a typographical error in Precision Coatings' variance petition, and ending with the Board's failure to make an intended correction to condition 3. The date in that condition should have been June 1, 1985, which was the expiration date requested by Precision Coatings, rather than September 1, 1985, and the Board orders that condition 3 of its February 20, 1985, Order is hereby modified to reflect that correction.

IT IS SO ORDERED

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 4<sup>th</sup> day of April, 1985, by a vote of 5-0.
