ILLINOIS POLLUTION CONTROL BOARD June 5, 1986

VILLAGE (OF PAWNEE)	
	Petitioner,)	
	v.)	PCB 86-73
ILLINOIS AGENCY,	ENVIRONMENTAL PROTECTION)))	
	Respondent.)	

ORDER OF THE BOARD (by J. Marlin):

On May 22, 1986, the Village of Pawnee ("Village") filed a petition for variance requesting relief "from the rules, regulations and requirements relating to normal operation of its treatment plant" during upcoming construction at its sewage treatment plant (Petition at 2).

The petition, however, fails to address the requirements of 35 Ill. Adm. Code 104.121, 104.122 and 104.124, including the following:

- identify the regulations of the Board from which relief is sought [biochemical oxygen demand and total suspended solids effluent standards for a plant with a three stage lagoon exemption are at 35 Ill. Adm. Code 304.120(a)];
- 2) identify any alternative methods studied to obtain compliance and the relative costs;
- 3) identify the cost of the project as proposed;
- 4) assess the environmental impact of the proposed project on the environment;
- 5) state whether the Board may grant the requested relief pursuant to federal law (Clean Water Act, 33 U.S.C. 1251 et seq.)
- 6) submit an affidavit attesting to the truth of the matters asserted in the petition when waiving the hearing requirement.

Unless the Village files an amended petition curing the above defects within 45 days of the date of this Order, the petition will be subject to dismissal.

IT IS SO ORDERED.
