Respondent.)	

INTERIM ORDER OF THE BOARD (by W. J. Nega):

The Board finds that the Stipulation and Proposal for Settlement filed on April 25, 1984 is generally acceptable.

However, some of the dates for compliance which are mentioned in the proposed settlement agreement have already elapsed.

The Board would appreciate additional information as to the current status of the preliminary sewer system work and the interim compliance measures.

For example, on page fourteen of the Stipulation, the Respondent has indicated that all sources of unauthorized inflow into the sewer system (including, but not limited to, downspouts, footing tiles, gravity pumps, sump pumps, storm inlets, inverts, and leaking manhole sides) shall be located by March, 1984. Has this now been accomplished? Similarly, has the sewer system map already been completed? How many manholes which are subject to flooding have been raised or sealed so far? Have routine observations of the sewer lines (manholes) which experience surcharging begun yet?

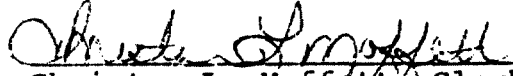

In reference to the proposed interim compliance measures for the Galva NE plant and the Galva SW plant which are detailed on pages sixteen through twenty of the Stipulation, the Board believes that information on the current situation should be provided (i.e., what has been accomplished so far, what still needs to be done, etc.).

Accordingly, the parties are ordered to submit more information as to the current status of the preliminary sewer system work and the interim compliance measures within 45 days of the date of this Interim Order.

IT IS SO ORDERED.

Joan G. Anderson abstained.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Interim Order was adopted on the 31st day of May, 1984 by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
