

ILLINOIS POLLUTION CONTROL BOARD
October 24, 1985

IN THE MATTER OF)
)
APPLICATION FOR LAKE MICHIGAN) PCB 85-158
PERMIT NO. 180 LM FOR)
ALEX STAMATAKIS)

ORDER OF THE BOARD (by J. Marlin):

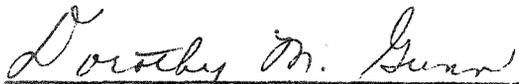

The Board received the permit application for Mr. Alex Stamatakis in this matter from the Illinois Department of Transportation (IDOT) on October 21, 1985. The documents filed in this proceeding do not contain certain information which the Board feels it requires before it can dispose of this matter. Accordingly, the Board orders the following questions be answered:

1. What type of barge is to be sunk?
2. Does the barge have a bilge or internal spaces which may contain oil, grease, cargo remnants or other foreign matter? If so, how have these spaces been cleaned?
3. Has all material which could contribute to water pollution been removed from the cargo spaces of the barge?
4. The application only states that the barge will be sunk. How will it be secured to prevent its being moved or broken up by wave action?
5. Will deterioration of the barge itself over time pose a pollution threat to the Lake?

The Clerk is directed to send copies of this order to IDOT, the applicant, and the Illinois Environmental Protection Agency. The Board will place this matter on its agenda for further consideration after receiving the requested information.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 24th day of October, 1985 by a vote of 7-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
