Respondent. )

ORDER OF THE BOARD (by B. Forcade):

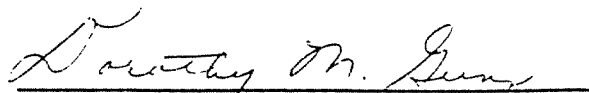

On July 24, 1987, the Lake County Public Works Department, Wildwood Subdivision Water Supply System filed a Petition for Variance, seeking relief from regulations on restricted status and standards for permit issuance as those regulations pertain to limitations on combined Radium-226 and 228. That petition is deficient in that:

- 1) It fails to provide the sampling and analysis data required by paragraph 3 of the August 14, 1986, variance Order in PCB 86-75, particularly the sampling and pumping rates required by subparagraph (b); and
- 2) It fails to address whether it is feasible to remove Well No. 2 from service and whether this would reduce contamination levels in the distribution system.

Unless an amended petition is filed within 45 days of the date of this Order, curing the above-noted defect, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 6<sup>th</sup> day of August, 1987, by a vote of 6-0.

  
Dorothy M. Gunn, Clerk  
Illinois Pollution Control Board
