IN THE MATTER OF:)
)
PETITION OF GIFFORD-HILL)
AMERICAN LOCK JOINT INC. FOR) R84-45
SITE SPECIFIC RELIEF FROM)
35 ILL. ADM. CODE 807.305)

PROPOSED RULE. FIRST NOTICE.

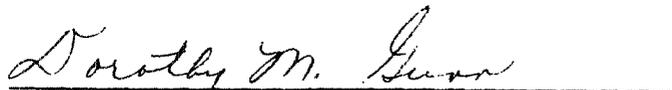

DISSENTING OPINION (by J. Theodore Meyer):

My reason for casting the Nay vote in the above entitled regulation is that I believe requiring the petitioner to place six inches of suitable cover once a week is a waste of time and money. This cover will serve no useful purpose in the traditional sense of providing vector control, preventional odors, and prevention of blowing paper and plastics. A weak argument is presented by the majority in which they state that the six inches of cover material will help to prevent subsidings. Subsidings problems can be addressed during the application and stabilization of the final cover.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Dissenting Opinion was submitted on the 28th day of October, 1985.
