VEHICLES (I/M Rules) )

PROPOSAL FOR PUBLIC COMMENT.

DISSENTING OPINION (by J. Theodore Meyer):

I voted Nay in this proceeding because I believe the requirement of visual inspection for anti-tampering of the Pollution Control devices is reasonable. I do not believe the legislative history of this Act indicates that the General Assembly had a precise test to be performed on the cars. I believe the legislative history indicated flexibility in designing the test procedures and who was to conduct the test.
