ORDER OF THE BOARD (by J. Anderson):

This petition, filed by Bibb & Associates on behalf of Midwest Solvents, requests a variance from old Rule 206 (a) of Chapter 2. The petition is generally deficient in a number of respects, failing to contain most of the information required by 35 Ill. Adm. Code 104.121. The petition assumes the Board has access to Agency permit applications; the Board does not, and is therefore unsure of company's location, what type of operation it is, air quality of the region, etc. The petition contains no program for bringing the boilers into compliance within the statutory 5 year variance maximum period -- if a permanent 700 pm limit is desired, the request should have been for a site-specific rule change. The petition also fails to request hearing, or to waive it and provide an affidavit in support of the facts alleged, as required by 35 Ill. Adm. Code 104.124.

If an amended petition curing these defects is not filed within 45 days of the date of this Order, this petition will be subject to dismissal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 26th day of January, 1984 by a vote of 7-0.
