a) Parts (Headings and Code Citations):

ORGANIZATION, PUBLIC INFORMATION, AND TYPES OF PROCEEDINGS (2 Ill. Adm. Code 2175)

1) Rulemaking: No docket number presently assigned.

A) Description:

2 Ill. Adm. Code 2175 contains the Board's public information rules and organizational information, as required under Section 1-15 of the Administrative Procedure Act [5 ILCS 100/5-15] and Section 4 of the Freedom of Information Act [5 ILCS 140/4]. B) Statutory authority:

Implementing and authorized by Sections 10 and 27 of the Environmental Protection Act [415 ILCS 5/10 & 27].

C) Scheduled meeting/hearing dates:

The IEPA has stated that it anticipates filing a rulemaking proposal with the Board in the Fall of 2001. No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct public hearings in accordance with the requirements established by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28].

D) Date agency anticipates First Notice:

An IEPA submittal of a proposal to the Board would commence this proceeding, and the IEPA has stated that it expects to file a proposal in the Fall of 2001. After the filing of a proposal by the IEPA, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*.

consistent with revisions to 35 Ill. Adm. Code Part 211 (Definitions) and with recent revisions to these rules; (2) the rulemaking may include amendments to existing rules for volatile organic liquid storage tanks; (3) the rulemaking may include a rule to amend existing rules for perchlorethylene dry cleaners, since perchloroethylene was delisted as a volatile organic material by the United States Environmental Protection Agency (USEPA); (4) the rulemaking may amend existing rules for capture efficiency testing in order to make state rules consistent with USEPA's final rule on the revised capture efficiency test methods; (5) the rulemaking may correct minor or nonsubstantive errors amending rules for incorporations by reference, batch operations, and afterburner operation, air oxidation reactors and vapor collection and control systems; and (6) the rulemaking may also amend Part 211 to conform any possible conflicting provisions with the changes made to 35 Ill. d) Part (Heading and Code Citation):

DEFINITIONS AND GENERAL PROVISIONS (35 Ill. Adm. Code 211)

1) Rulemaking: Docket number R02-4

A) Description:

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] mandates that the Board update the Illinois definition of volatile organic material (VOM) to reflect the additions made by the United States Environmental Protection Agency (USEPA) to the list of compounds exempt from regulation as ozone precursors. Those compounds are determined by USEPA to be exempt from regulation under the state implementation plan (SIP) for ozone in the federal "Recommended Policy on the Control of Volatile Organic Compounds" (Recommended Policy) due to their negligible photochemical reactivity. On February 3, 1992 (57 Fed. Reg. 3945), USEPA codified its definition of VOM at 40 CFR 51.100(s), which now embodies the former Recommended Policy. This codified definition now includes all the compounds and classes of compounds previously exempted in the former Recommended Policy. The Illinois definition of VOM is presently codified at 35 Ill. Adm. Code 211.7150.

The Board has reserved docket number R02-4 to accommodate any amendments to the 40 CFR 51.100(s) definition of VOM that USEPA may make in the period January 1, 2001, through June 30, 2001. At this time, the Board is not aware of any federal amendments to the federal definition of VOM. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-August 2001. The Board will then propose corresponding amendments to the Illinois definition of VOM using the identical-in-substance procedure or dismiss docket R02-4, as necessary and appropriate.

Section 9.1(e) mandates that the Board complete our amendments within one year of the date on which USEPA adopted its action upon which our amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2001 REGULATORY AGENDA

day of the update period, on January 1, 2001, the due date for Board adoption would be January 1, 2002.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 9.1(e), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 9.1(e) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting. The Board will then schedule and conduct at least one public hearing, as required by Section 118 of the federal Clean Air Act (42 USC § 7418) for amendment of the Illinois ozone SIP.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2001, after which time the Board will propose any amendments to the Illinois definition of VOM that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 1, 2002, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by late-September 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment to the Illinois definition is needed, the Board would promptly dismiss this reserved docket.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that engages in the emission of a chemical compound that is the subject of a proposed exemption or proposed deletion from the USEPA list of exempted compounds.

G) Related rulemakings and other pertinent information:

Other prospective proceedings (see item (c) above) and other, as yet unknown, unrelated Board proceedings could potentially impact the general provisions of Parts 211.

Section 9.1(e) of the Environmental Protection Act [415 ILCS 5/9.1(e)] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

NITROGEN OXIDES EMISSIONS (35 Ill. Adm. Code 217)

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2001 REGULATORY AGENDA

1) Rulemaking: No docket number presently assigned.

A) Description

On October 27, 1998, USEPA found Illinois' State Implementation Plan (SIP), and that of numerous other states, deficient for failing to contain provisions requiring control of emissions that contribute to non-attainment or interfere with maintenance of the ozone air quality standard in other states pursuant to Section 110(a)(2)(D) of the CAA. Under this rulemaking, Illinois was required to adopt NO_x emission controls for four categories of industrial sources. The Agency has already proposed rules to control large stationary sources of nitrogen oxides (NO_x), specifically, boilers and turbines serving electric generator units greater than 25 megawatts; boilers, and turbines with head input greater than 250 mmBtu/hr; and large cement kilns with ozone season emissions greater than one ton. The fourth category, large internal combustion engines, is the subject of this notice. The U.S. Court of Appeals for the D.C. Circuit remanded this category to USEPA for further consideration. Once USEPA promulgates a final rule for large internal combustion engines, the Agency will have to proceed promptly with the rulemaking. The Agency may also revise Sections in 35 Ill. Adm. Code 201 concerning continuous emissions monitoring.

B) Statutory Authority:

Implementing Section 10 and authorized by Sections 27 and 28.5 of the Act [415 ILCS 5/10 & 27, and 28.5].

C) Scheduled Meetings/Hearing Dates:

IEPA submittal of a proposal to the Board will commence this proceeding, and that submittal is anticipated by the Fall of 2001. No hearings are scheduled at this time. Once the proposal is filed, the Board will hold hearings on the schedule set forth in Section 28.5 of the Act for those rulemakings required under the federal CAA.

D) Date Agency anticipates First Notice:

IEPA submittal of a proposal to the Board will commence this proceeding, and that submittal is anticipated by the Fall of 2001, after which the Board will cause publication of a Notice of Proposed Amendments in the *Illinois Register*.

1) Rulemaking: Docket number RO1-31.

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2001 REGULATORY AGENDA

A) Description:

The Illinois Environmental Protection Agency (IEPA) has filed a rulemaking proposal before the Board that would add a new section to the water pollution control regulations regarding procedures for Provisional Variances from Water Temperature Standards (35 Ill. Adm. Code 301.109). The proposal would establish requirements for IEPA recommendations to the Board for the grant of provisional variances from a water temperature standard in a permit, regulation, or other requirement of the Board. The new section would also provide several conditions that should be contained in a provisional variance from a thermal limit. The proposal is intended to clarify the information provisional variance applicants should submit to the IEPA in support of requests for provisional variances from a thermal limit.

B) Statutory authority:

Implementing and authorized by Sections 11, 13, 27 and 35 of the Environmental Protection Act [415 ILCS 5/11, 13, 27 & 35].

C) Schedule meeting/hearing date:

The Board will conduct public hearings in accordance with the requirements established by Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28]. A hearing was held in Springfield on June 7, 2001. A second hearing will be held in Chicago on July 20, 2001.

D) Date agency anticipates First Notice:

The Board anticipates moving to First Notice with this proposal in the late Summer of 2001. When the Board decides to move to First Notice it will cause a Notice of Proposed Rules to appear in the *Illinois Register*.

E) Effect on small businesses, small municipalities or not-for-profit corporations:

This rule may affect any small business, small municipality, or not-for-profit corporation that has a thermal component to its wastewater discharge into the waters of this State.

SEWER DISCHARGE CRITERIA (35 Ill. Adm. Code 307)
PRETREATMENT PROGRAMS (35 Ill. Adm. Code 310)

1) Rulemaking: Docket number R02-3

A) Description:

Section 13.3 of the Environmental Protection Act [415 ILCS 5/13.3] mandates that the Board update the Illinois wastewater pretreatment regulations to reflect revisions made to the federal wastewater pretreatment rules made by the United States Environmental Protection Agency (USEPA).

The Board has reserved docket number R02-3 to accommodate any amendments to the federal wastewater pretreatment rules, 40 CFR 400 through 499, that the USEPA may have made in the period January 1, 2001, through June 30, 2001. At this time, the Board is aware that USEPA undertook one action that affected the text of 40 CFR 400 through 499 and its implementation. This actions, together with a brief description, is as follows:

66 Fed. Reg. 3770 (January 22, 2001)	USEPA adopted effluent limitations and new source performance standards applicable to the offshore and coastal subcategories of the oil and gas extraction point source category.
---	---

The Board has not yet verified which if any of these listed federal actions will actually require amendments to the Illinois wastewater pretreatment regulations. The Board has not yet determined whether this listing of federal actions is an exhaustive listing of all federal actions that affect the text of 40 CFR 400 through 499. The Board will verify the existence of any additional federal actions and the Board action required in response to

ILLINOIS REGISTER

POLLUTION CONTROL BOARD

JULY 2001 REGULATORY AGENDA

each set of federal amendments in coming weeks, by about mid-August 2001. The Board will propose corresponding amendments to the wastewater pretreatment regulations using the identical-in-substance procedure.

Section 9.1(e) of the Act mandates that the Board complete amendments within one year of the date on which USEPA adopted its action upon which the amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is January 22, 2001, the due date for Board adoption of all amendments in the period would be January 22, 2002.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 13, 13.3 and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 13, 13.3 & 27].

C) Scheduled meeting/hearing dates:

None are scheduled at this time. If the Board determines to propose amendments, the Board will vote to do so at an open meeting. No public hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2001, after which time the Board will propose any amendments to the Illinois wastewater treatment rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 22, 2002, the Board will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early-November 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation that pretreatment engages in the discharge of

G) Related rulemakings and other pertinent information:

No other presently-known proceeding would affect provisions of Parts 307 and 310.

Section 13.3 of the Environmental Protection Act provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) [5 ILCS 100/5-35, 5-40] shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. A) Description:

The Board opened this rulemaking docket R98-11 on September 4, 1997, to identify and reconcile any inconsistencies between the LMFA-related regulations of Part 506 and the pre-existing agricultural-related pollution regulations of Parts 501 through 504.

Since the opening of docket R98-11, however, Public Acts 90-565 and 91-110, effective July 13, 1999, again amended the LMFA. The Board opened docket R98-26 to amend the LMFA-related rules to conform with the subsequent statutory amendments. The Board entered an order on January 22, 1998 staying the R98-11 rulemaking proceeding until the conforming amendments of docket R98-26 are completed. It is unlikely that the Board will proceed with this docket since P.A. 91-110 delegated a majority of the regulations to the Department of Agriculture. However, the Board will wait to act on this docket until reviewing the Department's final rules and the corresponding proposal to 35 Ill. Adm. Code 506.

66 Fed. Reg. 2273 (January 11, 2001)	USEPA approved analytical methods for 13 List 2 unregulated contaminants that suppliers must monitor.
66 Fed. Reg. 3466 (January 16, 2001)	By a direct final rule, USEPA approved the use of updated test procedures for determination of various contaminants in water and wastewater.
66 Fed. Reg. 3770 (January 16, 2001)	USEPA adopted minor amendments to the December 16, 1998 (63 Fed. Reg. 69478 and 69390) interim enhanced surface water rule (63 Fed. Reg. 20304), but later withdrew those amendments as a result of adverse public comment on June 13, 2000 (65 Fed. Reg. 37052). USEPA again adopted the amendments after receiving additional public comments.
66 Fed. Reg. 6976 (January 22, 2001)	USEPA adopted National Primary Drinking Water Regulations for arsenic in drinking water.
66 Fed. Reg. 9903 (February 12, 2001)	USEPA corrected its action of January 16, 2001 (66 Fed. Reg. 3770) pertaining to the interim enhanced surface water rule and the Stage 1 disinfectants and disinfection byproducts rule.

66 Fed. Reg. 26795 (May 15, 2001)	USEPA withdrew its January 16, 2001 (66 Fed. Reg. 3466) direct final rule that approved the use of updated test procedures for determination of various contaminants in water and wastewater.
66 Fed. Reg. 27215 (May 16, 2001)	USEPA corrected its January 11, 2001 (66 Fed. Reg. 2273) approval of analytical methods for 13 List 2 unregulated contaminants that suppliers must monitor.

The Board has not determined the nature of any amendments that might be required by the above federal actions. The Board must determine what amendments, if any, will be necessary in response to the federal amendments. Further, the Board has not yet determined whether this listed federal action is the only federal action that affect the text of 40 CFR 141 through 143. The Board will verify the existence of any additional federal actions and the Board action required in response to each set of federal amendments in coming weeks, by about mid-August 2001. The Board will then propose corresponding amendments to the Illinois SDWA regulations using the identical-in-substance procedure or dismiss docket R02-5, as necessary and appropriate.

Section 17.5 mandates that the Board complete its amendments within one year of the date on which the United States Environmental Protection Agency (USEPA) adopted its action upon which the amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first action in the update period, that of January 11, 2001, the due date for Board adoption would be January 11, 2002.

B) Statutory authority:

Implementing and authorized by Sections 17, 17.5, and 27 of the Environmental Protection Act [415 ILCS 5/17, 17.5 & 27].

C) Scheduled meeting/hearing dates:

None are scheduled at this time. If the Board determines to propose amendments, the Board will vote to do so at an open meeting. No public hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2001, after which time the Board will propose any amendments to the Illinois SDWA drinking water rules that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 11, 2002, the Board

will vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by mid-October 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments.

E) Effect on small business, small municipalities, or not-for-profit corporations:

This rulemaking may affect any small business, small municipality, or not-for-profit corporation in Illinois that owns or operates a "public water supply," as defined by Section 3.28 of the Act, *i.e.*, it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance.

Section 17.5 of the Environmental Protection Act [415 ILCS 5/17.5] provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) shall not apply. Because this rulemaking is not subject to Section 5 of the APA, it is not subject to First Notice or to Second Notice review by the Joint Committee on Administrative Rules. Rather, the Board will cause a Notice of Proposed Amendments to appear in the *Illinois Register*, and it will accept public comments on the proposal for 45 days after the date of publication.

LABORATORY ACCREDITATION RULES (35 Ill. Adm. Code 611)

1) Rulemaking: No docket presently reserved.

A) Description:

The IEPA proposal will seek to amend the public water supplies rules found in 35 Ill. Adm. Code 611 to cross reference the IEPA's own laboratory accreditation rules found at 35 Ill. Adm. Code 186. These prospective amendments to Sections 611.359, 611.611, 611.646, and 611.648 would cross-reference the Illinois Environmental Protection Agency's (IEPA's) laboratory accreditation rules at 35 Ill. Adm. Code 186. Currently, the existing text of Part 611 references 35 Ill. Adm. Code 183, which are joint rules of the IEPA, the Illinois Department of Public Health, and the Illinois Department of Nuclear Safety. A repeal of Part 183 has been completed.

C) Scheduled meeting/hearing dates:

When the proposal is submitted before the Board, the Board will conduct public hearings on the proposal pursuant to Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28].

D) Date Agency Anticipates First Notice:

An IEPA submittal of the rulemaking proposal is anticipated by December 2001. The Board will conduct proceedings pursuant to Sections 27 and 28 of the Environmental Protection Act [415 ILCS 5/27 & 28] upon receipt of the proposal and would cause a Notice of Proposed Amendments to appear in the *Illinois Register* when it decides to propose amendments for First Notice.

E) Affect on small business, small municipalities or not-for-profit corporations:

These amendments may affect small business, small municipalities, and not-for-profit corporations that own or operate a "public water supply", as defined by Section 3.28 of the Act, i.e., it has at least fifteen service connections or regularly serves an average of at least 25 individuals daily at least 60 days out of the year, or it is assisting a public water supply to demonstrate compliance with the federally-derived National Primary Drinking Water Standards of 35 Ill. Adm. Code 611. However, it is anticipated that the proceeding will not likely have a quantifiable affect on these entities because the program for national laboratory certification is voluntary. The burden of compliance with the requirements, such as filing documentation, reporting or completion of the necessary forms, likely will not increase.

GROUNDWATER QUALITY (35 Ill. Adm. Code 620)

1) Rulemaking: R01-14

A) Description:

The Illinois Environmental Protection Agency (IEPA) has filed a rulemaking proposal before the Board that would amend Section 620.505 of the groundwater quality regulations (35 Ill. Adm. Code 620.505) in response to an interpretation of that Section by the appellate court in

People v. Stonehedge (94-CH-46, May 22, 1997). Compliance monitoring points are broken into different categories in Section 620.505. Samples taken from potable water wells other than community water supply wells are acceptable under certain circumstances. The amendments would seek to expand those circumstances to instances in which the IEPA has sufficient hydrogeologic, geologic, construction, and other information to determine the reliability of data generated by analyses of samples from those wells. The amendment would provide increased protection of the groundwater by allowing sampling of greater sampling points.

B) Statutory Authority:

Implementing and authorized by Section 8 of the Illinois Groundwater Protection Act, 415 ILCS 55/8 and Section 27 of the Illinois Environmental Protection Act [415 ILCS 5/27].

C) Scheduled meeting/hearing dates:

D) Date agency anticipates First Notice:

The Board anticipates moving to First Notice with this proposal in the Summer of 2001.

E) Affect on small businesses, small municipalities or not for profit corporations:

(UIC) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UIC regulations.

The Board has reserved docket number R02-6 to accommodate any amendments to the federal UIC regulations, 40 CFR 144 through 148, during the period January 1, 2001, through June 30, 2001. At this time, the Board is not aware of any federal actions that would affect the text of 40 CFR 144 through 148. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-August 2001. The Board will then propose corresponding amendments to the Illinois wastewater pretreatment regulations using the identical-in-substance procedure or dismiss docket R02-6, as necessary and appropriate.

Section 13(c) mandates that the Board complete our amendments within one year of the date on which USEPA adopted its action upon which our amendments are based. Assuming for the purposes of illustration that the earliest USEPA action during the update period that will require Board action is the first day of the update period, on January 1, 2001, the due date for Board adoption of all amendments in the period would be January 1, 2002.

through 270, 273, and 279, that USEPA made in the period January 1, 2001, through June 30, 2001. At this time, the Board is aware of the following federal actions that occurred in this time-frame:

66 Fed. Reg. 3466 (January 16, 2001)	By a direct final rule, USEPA approved the use of updated test procedures for determination of various contaminants in water and wastewater. USEPA amended 40 C.F.R. 136, which is incorporated by reference in 35 Ill. Adm. Code 720.111.
66 Fed. Reg. 24270 (May 14, 2001)	USEPA withdrew segments of the June 19, 1998 (63 Fed. Reg. 33821) hazardous waste combustor rule.
66 Fed. Reg. 26795 (May 15, 2001)	USEPA withdrew its January 16, 2001 (66 Fed. Reg. 3466) direct final rule that approved the use of updated test procedures for determination of various contaminants in water and wastewater.
66 Fed. Reg. 27218 (May 16, 2001)	USEPA adopted relaxed requirements for low-level radioactive waste that is mixed with hazardous waste (LLMW) and enhanced naturally occurring and accelerator-produced radioactive material (NARM).
66 Fed. Reg. 27266 (May 16, 2001)	USEPA adopted the retention of the mixture rule and derived-from rule in the hazardous waste regulations.

The Board has not yet verified which if any of these listed federal actions will actually require amendments to the Illinois RCRA Subtitle C hazardous waste regulations. The Board has not yet determined whether this listing of federal actions is an exhaustive listing of all federal actions that affect the text of 40 CFR 260 through 270, 273, and 279. UNDERGROUND STORAGE TANKS (35 Ill. Adm. Code 731)

- 1) Rulemaking: Docket number R02-2

- A) Description:

Section 22.4(d) of the Environmental Protection Act [415 ILCS 5/22.4(d)] mandates that the Board update the Illinois underground storage tank (UST) regulations to reflect amendments to the United States Environmental Protection Agency (USEPA) UST regulations. The mandate specifically excludes federal amendments relating to the design, construction, installation, general operation, release detection, release reporting, release investigation, release confirmation, out-of-service systems, and closure or financial responsibilities for USTs.

JULY 2001 REGULATORY AGENDA

The Board has reserved docket number R02-2 to accommodate any amendments to the 40 CFR 281 through 283 that USEPA may make in the period January 1, 2001, through June 30, 2001. At this time, the Board is not aware of any federal amendments. The Board will verify the existence of any federal actions and the Board action required in response to each in coming weeks, by about mid-August 2001. The Board will then propose corresponding amendments to the Illinois UST regulations using the identical-in-substance procedure or dismiss docket R02-2, as necessary and appropriate.

Section 22.4(d) mandates that the Board complete our amendments within one year of the date on which USEPA adopted its action upon which our amendments are based. Assuming for the purposes of illustration that USEPA adopted an amendment that will require Board action on the first day of the update period, on January 1, 2001, the due date for Board adoption would be January 1, 2002.

B) Statutory authority:

Implementing and authorized by Sections 7.2, 22.4(d), and 27 of the Environmental Protection Act [415 ILCS 5/7.2, 22.4(d) & 27].

C) Scheduled meeting/hearing dates:

None scheduled at this time. The Board will vote to propose any amendments at an open meeting. No hearing is required in identical-in-substance proceedings.

D) Date agency anticipates First Notice:

The Board cannot project an exact date for publication at this time. The Board expects to verify any federal actions by mid-August 2001, after which time the Board will propose any amendments to the Illinois UST regulations that are necessary in response to the federal amendments that have occurred. If the due date for Board adoption of amendments in this docket is assumed to be January 1, 2002, for the purposes of illustration, the Board would vote to propose amendments and cause a Notice of Proposed Amendments to appear in the *Illinois Register* by early-November 2001. This would be sufficiently in advance of the due date to allow the Board to accept public comments on the proposal for 45 days before acting to adopt any amendments. Alternatively, if no amendment

rise to the need for some additions, corrections, and clarifications to the existing rules. The primary purpose of the amendments will be to correct mistakes and omissions, clarify ambiguities, and insure consistency across the regulations for the Site Remediation Program, Leaking Underground Storage Tank (LUST) Program (35 Ill. Adm. Code 732), and Tiered Approach to Corrective Action Objectives (TACO) (35 Ill. Adm. Code 742).

D) Date Agency anticipates First Notice:

E) Effect on small businesses, small municipalities or not-for-profit corporations:

Generally, small businesses, small municipalities and not-for-profit corporations will not be affected by the proposal unless they perform environmental remediation under the Site Remediation Program. In most cases, participation in the Site Remediation Program is voluntary, the exception being participation under Board or court orders arising out of enforcement actions. For those who do choose to participate, the proposed amendments are not expected to make substantial changes to the existing program.

One group of small businesses that will be affected is laboratories performing analyses of soil and water samples. The amendments will propose the phase-in of a requirement that laboratories performing analyses for sites in the Site Remediation Program must be accredited under 35 Ill. Adm. Code 186.

1) Rulemaking: No docket presently reserved.

A) Description:

35 Ill. Adm. Code Part 900 contains the general provisions to the Board's noise regulations. Section 900.103 sets forth the procedures to be used for measuring sound. Under that Section the procedures used must be in substantial conformity with certain standards of the American National Standards Institute ("ANSI"). The ANSI standards referenced in Section 900.103, however, are now outdated. The proposed amendments will update the references to current ANSI standards.

35 Ill. Adm. Code Part 901 contains the standards for allowable sound levels from property line noise sources. 35 Ill. Adm. Code 901.104 contains limits for impulsive sound and requires sound to be measured with "fast dynamic characteristic" and is therefore inconsistent with 35 Ill. Adm. Code 900.103(b), which requires sound to be measured as "leq". Section 901.104 will be amended to comply with the requirements of Section 900.103(b).

- G) Related rulemakings and other pertinent information:
The IEPA plans to repeal 35 Ill. Adm. Code Parts 951 and 952. Those Parts set forth measurement procedures adopted pursuant to 35 Ill. Adm. Code 900.103, and are therefore based upon outdated ANSI standards.

jj) Part (Headings and Code Citations):

GENERAL PROVISIONS (35 Ill. Adm. Code 1420)
ACTIVITY STANDARDS (35 Ill. Adm. Code 1421)
DESIGN AND OPERATION OF FACILITIES (35 Ill. Adm. Code 1422)

- 1) Rulemaking: No docket presently reserved.

A) Description:

35 Ill. Adm. Code Subtitle M, Parts 1420, 1421, and 1422, are the rules for Potentially Infectious Medical Waste (PIMW). Through administration of these rules, the IEPA has identified a need for the disposal outside of the municipal waste stream of household medical waste, including sharps, generated from home health care. One approach under consideration is to exempt from the transfer station permit requirement doctors' offices, hospitals and pharmacies that accept household-generated medical wastes for transfer to disposal facilities. The permit requirement may be replaced with a requirement for registration with the IEPA. Certain other provisions are in need of clarification. However, it is not clear at this time whether each of the three Parts will need to be amended.

C) Scheduled Meeting/Hearing Dates:

The IEPA presently anticipates that it will file a rulemaking proposal in Summer or Fall 2001. No meetings or hearings are scheduled at this time. Once the proposal is filed, the Board will conduct public hearings in accordance with the requirements established by Sections 27 and 28 of the Act. [415 ILCS 5/27, 28].

D) Date Agency Anticipates First Notice:

An IEPA submittal of a proposal to the Board will commence this proceeding and is expected to be filed in Summer or Fall 2001, after which time the Board will cause a Notice of Proposed Rules to appear in the *Illinois Register*.

E) Effect on Small Business, Small Municipalities, or Not-for-Profit Corporations:

This rule may affect any small business, small municipality, or not-for-profit corporations that disposes PIMW. The IEPA anticipates that the changes contemplated would not have a significant effect. Exempting medical providers from the transfer station permit requirement if they accept household-generated waste for transfer to disposal facilities would assist such providers in performing a community service by reducing the associated regulatory burden. The clarifications being considered would not substantively change the existing requirements.
