 )  
CHICAGO STEEL CONTAINER )  
CORPORATION, )  
 )  
Respondent. )

ORDER OF THE BOARD (by R.C. Flemal):

This matter comes before the Board upon an April 14, 1986, complaint filed by the Illinois Environmental Protection Agency ("Agency"). The complaint alleges that Chicago Steel Container Corporation ("CSCC") violated numerous sections of the Act and Board air pollution regulations due to Respondent's failure to obtain construction and operating permits for the painting booths, lining booths, main paint and lining baking oven, and drying ovens found at its 1846 South Kilbourn Avenue, Chicago, facility.

Hearing was conducted in this case on September 4, 1986, and continued on the record until September 18, 1986, at which time it was recommenced. At the hearing held on the latter date, the parties indicated that this matter had been settled, and presented a Stipulation of Facts and Proposed Settlement for Board approval. At that time, the document had not been signed by representatives of either party, although both parties acknowledged an intention to do so.

More than seven months have elapsed since the September 18, 1986 hearing, but the Board has yet to receive a signed copy of the Stipulation of Facts and Proposed Settlement. The Board will assume this matter is not settled, and proceed to set it for hearing, if such an agreement, signed, is not received by the Board by June 1, 1987.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 30th day of April, 1987, by a vote of 6-0.
