

ILLINOIS POLLUTION CONTROL BOARD  
June 16, 1983

In the matter of: )  
)  
PROPOSED WATER QUALITY AND )  
EFFLUENT STANDARDS FOR ) R81-29  
SCHOENBERGER CREEK (PFIZER, )  
EAST ST. LOUIS) )

FINAL ORDER. ADOPTED RULE

ORDER OF THE BOARD (by D. Anderson):

On February 10, 1983 the Board proposed to adopt 35 Ill. Adm. Code 303.353 and 304.205. These appeared at 7 Ill. Reg. 2270, February 25, 1983. On April 21, 1983 the Board sent the matter to second notice with no changes in the proposed language. The staff of the Joint Committee on Administrative Rules recommended addition to Section 304.205 of a reference to Section 304.124. On June 7, 1983 the Joint Committee made no objection to the rulemaking, conditioned on addition of the reference. The Board will adopt Sections 303.353 and 304.205 with the changes recommended. The complete text follows, with the changes from the first notice Order indicated by underlining.

This Order is supported by a Final Opinion adopted on this same date.

The text of the rules is as follows:

Section 303.353 Schoenberger Creek; Unnamed Tributary  
of Cahokia Canal

- a) This rule shall apply to:
- 1) The final 1500 feet of Schoenberger Creek starting immediately south of the Baltimore and Ohio main tracks and running north to an unnamed tributary of the Cahokia Canal; and
  - 2) The unnamed tributary from its confluence with Schoenberger Creek as it runs west and northwest for a distance of 8000 feet to its confluence with the Cahokia Canal.
- b) The standard of 35 Ill. Adm. Code 302.208 for the parameter listed below does not apply to these waters. Instead, the following level shall not be exceeded:

Constituent	Storet Number	Concentration (mg/l)
Iron (total)	01045	20

Section 304.204 Schoenberger Creek: Groundwater Discharges

- a) This rule shall apply to discharges from an existing facility owned by Pfizer Corporation to Schoenberger Creek immediately south of the Baltimore and Ohio main tracks in T2N, R9W of the 3rd P.M., St. Clair County.
- b) This rule shall apply only to discharges of groundwater used as non-contact cooling water in which naturally occurring background concentrations have not been increased by industrial or other human use.
- c) Instead of the general effluent standards set forth in Section 304.124 for the listed parameters, these discharges shall not exceed the following limitations:

Constituent	Storet Number	Concentration (mg/l)
Iron (total)	01045	20
Total Suspended Solids	00530	37

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 16<sup>th</sup> day of June, 1983 by a vote of 4-0.
