) ILLINOIS ENVIRONMENTAL PROTECTION AGENCY,)
)
) Respondent.)

ORDER OF THE BOARD (by I. Goodman):

On June 10, 1982 the Board modified its April 29, 1982 Order in this matter. Petitioner had requested that the Board order which required installation of monitoring wells at the site prior to the defluorination facility being activated be deleted. In its June 1, 1982 motion Petitioner had represented that the defluorination unit began operation in February 1980 after negotiations with the Agency that same month. The Illinois Environmental Protection Agency's (Agency) response concurred with Petitioners' motion, but it included an assurance that March 11, 1981 grab sample taken from the cooling pond established which materials were present in the cooling pond prior to start-up of the defluorination unit. This would be improbable if the defluorination unit had been operating since February, 1980.

After reviewing the concurring and dissenting opinions in this matter, Petitioner realized that the 1980 dates were in error and informed the Board by letter on June 22, 1982 that the defluorination unit was operating in February 1981 rather than 1980. The Board acknowledges the correction. The language of the April 29, 1982 Opinion remains unchanged except as modified on June 10, 1982.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 1st day of July, 1982 by a vote of 5-0.

Christan L. Moffett
Christan L. Moffett, Clerk
Illinois Pollution Control Board
