

ILLINOIS POLLUTION CONTROL BOARD
July 31, 1986

IN THE MATTER OF:)
)
APPLICATION FOR LAKE MICHIGAN) PCB 86-114
PERMIT NO. 198 LM FOR)
DR. LEROY PESCH)

ORDER OF THE BOARD (by B. Forcade):

On July 28, 1986, the Illinois Department of Transportation ("IDOT") filed a request for Board concurrence on an IDOT permit. That request is deficient in the following areas:

1. The request fails to clearly identify the quantity and type of material to be placed in Lake Michigan;
 - a) The July 22, 1986, letter from Warzyn Engineering describes 9300 cubic yards of "coarse beach material";
 - b) The April 15, 1986, permit application describes 7000 cubic yards of birds-eye sand and 7200 tons of stone and sand; and
 - c) The May 16, 1986, Illinois Environmental Protection Agency 401 water quality certification only approves 2000 cubic yards of sands;

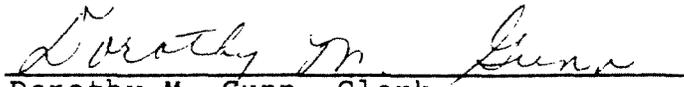

The Board is unable to determine from this information the exact quantity and identity of material involved and whether that material has been reviewed and certified by the Illinois Environmental Protection Agency, and

2. The request fails to identify the source and possible levels of contamination for the materials in question.

Unless an amended request is filed within 45 days of today's Order, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 31st day of July, 1986, by a vote of 5-0.

Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
