ORDER OF THE BOARD (by J. Anderson):

PCB 83-175 was filed November 21, 1983 requesting extension of the variance granted from 35 Ill. Adm. Code 215.204(b) in PCB 81-189, concerning VOC emissions from coating materials used in the beverage can manufacturing process in National Can's Rockford plant. An Agency Recommendation was filed January 9, 1984; a waiver of hearing was filed January 24, 1984; the Board ordered this matter to hearing on February 9, 1984. No hearing has been held.

Docket PCB 84-108 was opened upon the filing on July 27, 1984 of a document captioned "Amended Petition for Variance", bearing Docket Number PCB 83-175. This matter was authorized for hearing August 2, 1984. A Recommendation was filed October 2, 1984. No hearing has yet been held.

Upon examination of these petitions, it would appear that PCB 83-175 and PCB 84-108 are one and the same variance request, the July 27 amended petition having been erroneously treated as an altogether new action. The Board therefore dismisses PCB 83-175, but on its own motion incorporates the record in now-defunct PCB 83-175 into that in PCB 84-108.

Hearing in this matter will be scheduled within 15 and held within 45 days of the date of this Order.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 8<sup>th</sup> day of November, 1984 by a vote of 6-0.

Dorothy M. Gunn  
Dorothy M. Gunn, Clerk
