Revocation of Tax Certification.

OPINION AND ORDER OF THE BOARD (by J. D. Dumelle):

This matter comes before the Board upon a Proposal to Revoke Tax Certification adopted by the Board on December 6, 1983. Hearing was held on December 20, 1983, at which only the People of the State of Illinois (People) presented evidence.

Recently enacted Public Act (P.A.) 83-0883, which became effective on September 9, 1983, amends the definition of "Pollution Control Facility" as contained in Section 21a-2 of the Illinois Revenue Act of 1939 (Ill. Rev. Stat. Ch. 120, par. 502a-2) in the following manner:

"For purposes of assessments made after January 1, 1983, "pollution control facilities" shall not include, however, a) any system, method, construction, device or appliance appurtenant thereto, designed, constructed, installed or operated for the primary purpose of (i) eliminating, containing, preventing or reducing radioactive contaminants or energy, or (ii) treating wastewater produced by the nuclear generation of electric power; b) any large diameter pipes or piping systems used to remove and disperse heat from water involved in the nuclear generation of electric power; or c) any equipment, construction, device or appliance appurtenant thereto, operated by any person other than a unit of government, whether within or outside of the territorial boundaries of a unit of local government, for sewage disposal or treatment.

The Pollution Control Board shall revoke any prior certification in conflict with this amendatory act of 1983 before January 1, 1984."

Pursuant to this statutory directive, the Board reviewed Pollution Control Facility Certifications and Applications for Certification which were referred to the Board by the Illinois Environmental Protection Agency for decertification under this language. On the basis of this information and the information presented at hearing, the Board finds that the facility which is the subject of this certification falls within subparagraph (c) of paragraph 502a-2 of the Illinois Revenue Act of 1939, as amended.

OPPORTUNITY FOR HEARING

The Board provided an opportunity for a hearing to present contrary facts on this matter on December 20, 1983 at 9:00 a.m. at the Pollution Control Board Offices. Such hearings were scheduled if the Board received a request for hearing and a short statement of the facts to be presented at hearing no later than 12:00 noon on December 19, 1983. No such hearing was requested in this matter, and the only evidence presented was on behalf of the People and was in support of the revocation. The subject certification will, therefore, be revoked.

This Opinion and Order constitutes the Board's findings of fact and conclusions of law in this matter.
