|          |           |

- 4) <u>Statutory Authority</u>: Implementing Sections 7.2, 13, and 13.3 and authorized by Section 27 of the Environmental Protection Act [415 ILCS 5/7.2, 13, 13.3, and 27].
- 5) <u>A Complete Description of the Subjects and Issues Involved</u>: In 2016, the Board began reviewing its rules to identify obsolete, repetitive, confusing, or otherwise unnecessary language. These proposed amendments to Part 307 are intended to be non-substantive clarifications.
- 6) <u>Published studies or reports, and sources of underlying data, used to compose this</u> <u>rulemaking</u>: No
- 7) <u>Will this proposed rulemaking replace an emergency rule currently in effect</u>? No
- 8) Does this rulemaking contain an automatic repeal date? No
- 9) <u>Does this proposed rulemaking contain incorporations by reference</u>? No
- 10) <u>Are there any proposed rulemakings to this Part pending</u>? No
- 11) <u>Statement of Statewide Policy Objectives</u>: This proposed amendment does not create or enlarge a State mandate as defined in Section 3(b) of the State Mandates Act. 100 ILCS 805/3].
- 12) <u>Time, Place, and Manner in which interested persons may comment on this proposed</u> <u>rulemaking</u>: The Board will accept written public comments on this proposal for a period of at least 45 days after the date of publication in the Illinois Register. Public comments should refer to Docket R18-23 and be filed electronically through the Clerk's

#### POLLUTION CONTROL BOARD

#### NOTICE OF PROPOSED AMENDMENTS

Office On-Line (COOL) on the Board's website at pcb.illinois.gov. Public comments may be addressed to:

Clerk's Office Illinois Pollution Control Board 100 W. Randolph St., Suite 11-500 Chicago, IL 60601

Interested persons may download copies of the Board's opinions and orders in R18-23 from the Board's Web site at pcb.illinois.gov and may also request copies by calling the Clerk's office at 312-814-3620.

- 13) Initial Regulatory Flexibility Analysis:
  - A) <u>Types of small businesses, small municipalities and not for profit corporations</u> <u>affected</u>: None
  - B) <u>Reporting, bookkeeping or other procedures required for compliance</u>: None
  - C) <u>Types of Professional skills necessary for compliance</u>: None
- 14) <u>Small Business Impact Analysis</u>: The Board expects that this rulemaking will not have an adverse impact on small business.
- 15) <u>Regulatory Agenda on which this rulemaking was summarized</u>: January 2022

### SUBPART A: GENERAL PROVISIONS

# 653654 Section 307.1001 Preamble

655
656 a) This Part places certain restrictions on the types, concentrations, and quantities of contaminants that can be discharged into sewer systems in the State.
658
659 1) Subpart B includes standards for the discharge of contaminants to sewer systems. These apply to dischargers to publicly owned treatment works

| 661        |                 |                    | (POTWs) and to dischargers to other types of treatment works, as              |
|------------|-----------------|--------------------|---|
| 662        |                 |                    | specified in each Section.  |
| 663        |                 |                    |   |
| 664        |                 | 2)                 | Subparts F through CT include standards for the discharge of                  |
| 665        |                 |                    | contaminants from certain industrial source categories into POTWs.            |
| 666        |                 |                    |   |
| 667        | b)              |                    | Adm. Code 310 specifies requirements for pretreatment programs for            |
| 668        |                 | POTW               | Vs.   |
| 669        |                 |                    |   |
| 670        | c)              | This P             | art incorporates federal regulations by reference.                            |
| 671        |                 |                    |   |
| 672        |                 | 1)                 | The incorporations include no later amendments or editions.                   |
| 673        |                 | -                  |   |
| 674        |                 | 2)                 | Except where the contrary is clearly indicated, the Board intends to set      |
| 675        |                 |                    | forth all procedural requirements in full in this Part and 35 Ill. Adm. Code  |
| 676        |                 |                    | 310, and to utilize only the definitions, requirements, or standards from the |
| 677        |                 |                    | incorporated material.  |
| 678        |                 | 2)                 |   |

| 2686 |    |       |   |
| 2687 |    | A)    | The control authority must establish discharge limitations for lead     |
| 2688 |    |       | and zinc for waste streams not listed in 35 Ill. Adm. Code              |
| 2689 |    |       | 307.2490 and not otherwise determined to be "metal-bearing waste        |
| 2690 |    |       | streams" if it determines that the wastewater metals contamination      |
| 2691 |    |       | is due to background levels that are not reasonably avoidable, from     |
| 2692 |    |       | such sources as intake water, corrosion of materials of                 |
| 2693 |    |       | construction, or contamination of raw materials.                        |
| 2694 |    |       |   |
| 2695 |    | B)    | The control authority must base its determination made pursuant to      |
| 2696 |    | ,     | subsection $(b)(8)(A)$ on a review of relevant plant operating          |
| 2697 |    |       | conditions, process chemistry, engineering, and sampling and            |
| 2698 |    |       | analytical information.   |
| 2699 |    |       | 5   |
| 2700 |    | C)    | The control authority must set forth its determination made             |
| 2701 |    | ,     | pursuant to subsection $(b)(8)(A)$ in a written analysis of the sources |
| 2702 |    |       | and levels of the metals, based on the information at its disposal.     |
| 2703 |    |       | ····· · · · · · · · · · · · · · · · ·                                   |
| 2704 |    | D)    | The control authority may establish limitations for lead and zinc       |
| 2705 |    | _)    | for non-metal-bearing waste streams for the purposes of subsection      |
| 2706 |    |       | (b)(8)(A) between the following levels:                                 |
| 2707 |    |       |   |
| 2708 |    |       | i) The lowest level that the control authority determines,              |
| 2709 |    |       | based on best professional judgment, can be reliably                    |
| 2710 |    |       | measured; and   |
| 2711 |    |       |   |
| 2712 |    |       | ii) The concentration of such metals present in the waste               |
| 2713 |    |       | streams, but not to exceed the applicable limitations                   |
| 2714 |    |       | contained in 35 Ill. Adm. Code 307.2401 through                         |
| 2715 |    |       | 307.2407.   |
| 2716 |    |       | <i>50</i> , <b>2</b> , <b>0</b> , <b>1</b>                              |
| 2717 |    |       | iii) For zinc, the applicable limitations that the discharge must       |
| 2718 |    |       | not exceed are those appearing in the tables in 35 Ill. Adm.            |
| 2719 |    |       | Code 307.2401 through 307.2407, not the alternative                     |
| 2720 |    |       | limitations for rayon fiber manufacture by the viscose                  |
| 2721 |    |       | process, as set forth in footnote 2 to the table in 40 CFR              |
| 2722 |    |       | 414.25, incorporated by reference at 35 Ill. Adm. Code                  |
| 2723 |    |       | 307.2401(c)(1), or the alternative limitations for acrylic              |
| 2724 |    |       | fiber manufacture by the zinc chloride/solvent process, as              |
|      |    |       | moet manufacture by the Zine emonited solvent process, as               |

| 4016 | Section 307.2 | 2513 Potassium Sulfate Production  |
| 4017 |               |  |
| 4018 | a)            | Applicability. This Section applies to discharges resulting from the production of |
| 4019 | ,             | potassium sulfate.   |
| 4020 |               | •  |
| 4021 | b)            | Specialized definitions. None.   |
| 4022 | ,             | •  |
| 4023 | c)            | Existing sources. These sources must comply with the general and specific          |
| 4024 |               | pretreatment requirements of Subpart B.  |
| 4025 |               |  |
| 4026 | d)            | New sources  |
| 4027 | ,             |  |
| 4028 |               | 1) The Board incorporates by reference 40 CFR 415.136 (2003). This                 |
| 4029 |               | incorporation includes no later amendments or editions.                            |
| 4030 |               |  |
| 4031 |               | 2) No person subject to the pretreatment standards incorporated by reference       |
| 4032 |               | in subsection $(d)(1)$ may cause, threaten, or allow the discharge of any          |
| 4033 |               | contaminant to a POTW in violation of such standards.                              |
| 4034 |               |  |
| 4035 |               | 3) "New source" means any building, structure, facility, or installation the       |
| 4036 |               | construction of which commenced after July 24, 1980.                               |
| 4037 |               |  |
| 4038 | (Sourc        | ce: Amended at 46 Ill. Reg, effective)   |
| 4039 |               |  |
| 4040 | Section 307.2 | 2514 Sodium Bicarbonate Production   |
| 4041 |               |  |
| 4042 | a)            | Applicability. This Section applies to discharges resulting from the production of |
| 4043 |               | sodium bicarbonate.  |
| 4044 |               |  |

| 4047       c) Existing sources. These sources must comply with the general and specific pretreatment requirements of Subpart B.         4049       4049         4050       d) New sources         4051       1) The Board incorporates by reference 40 CFR 415.146 (2003). This incorporation includes no later amendments or editions.         4054       2) No person subject to the pretreatment standards incorporated by reference in subsection (d)(1) may cause, threaten, or allow the discharge of any contaminant to a POTW in violation of such standards.         4058       3) "New source" means any building, structure, facility, or installation the construction of which commenced after July 24, 1980.         4061       (Source: Amended at 46 III. Reg, effective)         4063       Section 307.2516 Sodium Chloride Production         4064       Applicability. This Section applies to discharges resulting from the production of sodium chloride by the solution brine-mining process or by the solar evaporation process.         4069       5         4070       b) Specialized definitions. The Board incorporates by reference 40 CFR 415.161 (2003). This incorporation includes no later amendments or editions.         4071       c) Existing sources. These sources must comply with the general and specific pretreatment requirements of Subpart B.         4073       c) Existing sources. These sources must comply with the general and specific pretreatment requirements of Subpart B.         4076       d) New sources       10  | 4045<br>4046 | b)            | Specia  | alized definitions. This Section applies to discharges resulting from the smelting of ferroalloys in covered electric furnaces or other smelting operations, not elsewhere included in this Subpart, with wet air pollution control devices. This subcategory includes those electric furnaces of such construction or configuration (known as covered, closed, sealed, semi-covered, or semi-closed furnaces) that the furnace off-gases are cleaned after collection in a wet air pollution control device such as a scrubber, "wet" baghouse, etc. This subcategory also includes those non-electric furnace smelting, perromagnase refining, etc., where these are controlled for air pollution by wet air pollution control devices. This subcategory does not include noncontact cooling water or those furnaces that utilize dry dust collection techniques, such as dry baghouses.</li> <li>31 b) Specialized definitions. The Board incorporates by reference 40 CFR 424.21 (2003). This incorporation includes no later amendments or editions.</li> <li>32 c) Existing sources. These sources must comply with the general and specific pretreatment requirements of Subpart B.</li> </ul>   |      |                      | incorporation includes no later amendments or editions.                          |

| 9969 SUBPART BH: METAL FINISHING   |
| 9970   |
| 9971 Section 307.4300 General Provisions   |
| 9972   |
| a) Applicability. Except as provided in subsection (a)(3) or (a)(4), this Subpart BH   |
| 9974 applies to discharges resulting from plants that perform on any basis material any  |
| 9975 of the six metal finishing operations listed in subsection (a)(1). If any of those six  |
| 9976 operations are present, then this Subpart BH applies also to discharges from the  |
| 9977 forty process operations specified in subsection (a)(2).  |
| 9978   |
| 9979 1) Six metal finishing operations. Electroplating, electrolessplating,  |
| 9980 anodizing, coating (chromating, phosphating, and coloring), chemical  |
| 9981 etching and milling, and printed circuit board manufacture.   |

| 9982           |    |       |  |
|----------------|----|-------|--|
| 9983           | 2) | Forty | additional process operations. Cleaning, machining, grinding,        |
| 9984           | ,  | polis | hing, tumbling, burnishing, impact deformation, pressure             |
| 9985           |    | -     | mation, shearing, heat treating, thermal cutting, welding, brazing,  |
| 9986           |    |       | ring, flame spraying, sand blasting, other abrasive jet machining,   |
| 9987           |    |       | ric discharge machining, electrochemical machining, electron beam    |
| 9988           |    |       | ining, laser beam machining, plasma arc machining, ultrasonic        |
| 9989           |    |       | ining, sintering, laminating, hot dip coating, sputtering, vapor     |
| 9990           |    |       | ig, thermal infusion, salt bath descaling, solvent degreasing, paint |
| 9991           |    | -     | bing, painting, electrostatic painting, electropainting, vacuum      |
| 9992           |    |       | lizing, assembly, calibration, testing, and mechanical plating.      |
| 9993           |    |       |  |
| 9994           | 3) | Exclu | sions. This Subpart BH does not apply if there are pretreatment      |
| 9995           | /  |       | ards that are effective and applicable for the following industrial  |
| 9996           |    |       | ories:   |
| 9997           |    | C     |  |
| 9998           |    | A)    | Nonferrous metal smelting and refining (Subpart V);                  |
| 9999           |    | ,     |  |
| 10000          |    | B)    | Coil coating (Subpart CN);   |

| 11173<br>11174<br>11175  | 3)                | "New source" means any building, structure, facility, or installation the construction of which commenced after November 10, 1982.   |
| 11176<br>11177   | (Source: A        | Amended at 46 Ill. Reg, effective)   |
| 11178<br>11179   |                   | SUBPART CL: PLASTICS MOLDING AND FORMING   |
| 11180<br>11181   | Section 307.7300  | General Provisions   |
| 11182<br>11183   | a) Ap             | plicability  |
| 11184<br>11185<br>11186<br>11187<br>11188<br>11188<br>11189                            | 1)                | This Subpart CL applies to any plastics molding and forming process that<br>introduces or may introduce process wastewater pollutants into a POTW.<br>Plastics molding and forming processes include processes that blend,<br>mold, form, or otherwise process plastic materials into intermediate or<br>final plastic products. They include commonly recognized processes such   |
| 11190<br>11191   |                   | as extrusion, molding, coating and laminating, thermoforming, calendering, casting, foaming, cleaning, and finishing.  |
| 11192<br>11193<br>11194<br>11195<br>11196<br>11197<br>11198<br>11199<br>11200<br>11201 | 2)                | Plastics molding and forming processes (e.g., extrusion and pelletizing) used by plastics resin manufacturers to process crude intermediate plastic material for shipment off-site are excluded from this regulation and regulated under the organic chemicals, plastics, and synthetic fibers category. Plastics molding and forming processes used by plastic resin manufacturers to process crude intermediate plastic materials, which are further processed on-site into intermediate or final plastics products in molding and forming processes, are controlled by this Subpart CL. |
| 11201<br>11202<br>11203<br>11204<br>11205<br>11206                                     | 3)                | Processes that coat a plastic material onto a substrate may fall within the definition of electroplating and metal finished as defined in Subpart N or AH. These coating processes are excluded from the electroplating and metal finishing point source categories and are subject to this Subpart CL.  |
| 11207<br>11208<br>11209<br>11210<br>11211<br>11212<br>11213                            | 4)                | Coating of plastic material onto a formed metal substrate is also covered<br>by this Subpart and is not covered by the specific metal forming guidelines<br>such as aluminum forming, copper forming and nonferrous metals forming<br>(Subparts BP, BQ, and BT). This Subpart CL applies only to the coating<br>process; the metal forming operations are subject to the specific metal<br>forming regulation.   |

| 11214<br>11215<br>11216<br>11217<br>11218<br>11219<br>11220<br>11221 |               | 5)                           | Research and development laboratories that produce plastic products using<br>a plastics molding and forming process are subject to this Subpart CL if<br>the plastics molding and forming process discharges process water. The<br>mass of plastic product produced in the plastics molding and forming<br>process is not considered when determining the applicability of this<br>Subpart CL to plastics molding and forming processes at research and<br>development laboratories. |
|--|---------------|------------------------------|--|
| 11222<br>11223<br>11224  |               | 6)                           | Chemical and thermal reticulation processes for polyurethane foam are not<br>subject to this Subpart CL. Water used in those processes is not<br>considered to be process water as defined in this regulation. Processes   |
| 11225<br>11226<br>11227  |               |                              | used to further mold or form the reticulated foam are subject, however, to this regulation if they discharge process water.  |
| 11228<br>11229<br>11230<br>11231<br>11232<br>11233                   |               | 7)                           | Processes used to regenerate cellulose and to produce a product (e.g.,<br>rayon) from the regenerated cellulose are not subject to the limitations and<br>standards in this Subpart. Processes that mold or form cellulose<br>derivatives (e.g., cellulose acetate) are subject to this Subpart CL if they<br>discharge process water.   |
| 11233<br>11234<br>11235<br>11236                                     | b)            |                              | al definitions. The Board incorporates by reference 40 CFR 463.2 (2003). corporation includes no later amendments or editions.   |

| 11738 |              |        |   |
| 11739 | Section 307. | 7700 G | eneral Provisions   |
| 11740 |              |        |   |
| 11741 | a)           | Appli  | cability  |
|       |              |        |   |

| 11740 |       |        |   |
|-------|-------|--------|---|
| 11742 |       |        |   |
| 11743 |       | 1)     | Aluminum forming includes commonly recognized forming operations  |
| 11744 |       |        | such as rolling, drawing, extruding and forging, and related operations   |
| 11745 |       |        | such as heat treatment, casting, and surface treatments. Surface treatment  |
| 11746 |       |        | of aluminum is any chemical or electrochemical treatment applied to the   |
| 11747 |       |        | surface of aluminum. Such surface treatment is considered to be a part of   |
| 11748 |       |        | aluminum forming whenever it is performed as an integral part of  |
| 11749 |       |        | aluminum forming. For the purposes of this Subpart CP, surface treatment  |
| 11750 |       |        | of aluminum is considered to be an integral part of aluminum forming  |
| 11751 |       |        | whenever it is performed at the same plant site at which aluminum is  |
| 11752 |       |        | formed and such operations are not considered for regulation under the  |
| 11753 |       |        | electroplating and metal finishing provisions of Subparts N and AH.   |
| 11754 |       |        | Casting aluminum when performed as an integral part of aluminum   |
| 11755 |       |        | forming and located on-site at an aluminum forming plant is considered an   |
| 11756 |       |        | aluminum forming operation and is covered under this Subpart CP. When   |
| 11757 |       |        | aluminum forming is performed on the same site as primary aluminum  |
| 11758 |       |        | reduction the casting must be regulated by Subpart CT (nonferrous metals)   |
| 11759 |       |        | if there is no cooling of the aluminum prior to casting. If the aluminum is   |
| 11760 |       |        | cooled prior to casting then the casting must be regulated by this Subpart  |
| 11761 |       |        | CP.   |
| 11762 |       |        | Cr.   |
| 11763 |       | 2)     | This Submart CD applies to any aluminum famping facility avaant for   |
| 11764 |       | 2)     | This Subpart CP applies to any aluminum forming facility, except for<br>relate identified under subsection $(a)(2)$ , which introduces on may |
|       |       |        | plants identified under subsection $(a)(3)$ , which introduces or may   |
| 11765 |       |        | introduce pollutants into a POTW.   |
| 11766 |       | 2)     |   |
| 11767 |       | 3)     | This Subpart CP applies to indirect discharging aluminum forming plants   |
| 11768 |       |        | that extrude less than three million pounds of product per year and draw,   |
| 11769 |       |        | with emulsions or soaps, less than one million pounds per year.   |

| 12182<br>12183<br>12184<br>12185                            |                  |          | metal alloy for the purpose of this Subpart CT. Beryllium alloys are any alloy in which beryllium is present at 0.1 percent or greater. This Subpart CT applies to the following:   |
| 12183<br>12186<br>12187<br>12188<br>12188                   |                  |          | A) Forming operations, including rolling (both hot and cold),<br>extruding forging, drawing, swaging, cladding, and tube reducing,<br>and   |
| 12190<br>12191<br>12192<br>12193<br>12194                   |                  |          | B) Ancillary operations performed as an integral part of the forming<br>of these metals, including casting for subsequent forming, heat<br>treatment, surface treatment, alkaline cleaning, solvent degreasing,<br>product testing, surface coating, sawing, grinding, tumbling,<br>burnishing, and wet air pollution control.  |
| 12195<br>12196<br>12197<br>12198<br>12199                   |                  | 2)       | This Subpart CT also applies to introduction of pollutants into a POTW from mechanical metal powder production operations, forming of parts from metal powders, and associated ancillary operations of the following:   |
| 12200<br>12201  |                  |          | A) Iron, copper and aluminum and their alloys; and  |
| 12201<br>12202<br>12203<br>12204<br>12205<br>12206<br>12207 |                  |          | B) The nonferrous metal and their alloys described in subsection<br>(a)(1). This Subpart CT does not regulate the production of metal<br>powders by chemical means such as precipitation. The production<br>of metal powder as the final step in refining metal is regulated<br>under nonferrous metals manufacturing, Subpart V.   |
| 12208<br>12209<br>12210<br>12211<br>12212<br>12213<br>12214 |                  | 3)       | Surface treatment includes any chemical or electrochemical treatment<br>applied to the surface of the metal. For the purposes of this Subpart CT,<br>surface treatment of metals is considered to be an integral part of the<br>forming of metals whenever it is performed at the same plant site at which<br>the metals are formed. Such surface treatment operations are not regulated<br>under the electroplating or metal finishing regulations, Subpart N or AH. |
| 12214<br>12215<br>12216<br>12217<br>12218<br>12219          |                  | 4)       | Casting is covered by this Subpart CT when it is performed as an integral part of the metal forming process and takes place at the same plant site at which metals are formed. Such casting is not regulated under the provisions of metal molding and casting (Subpart CM).  |
| 12219<br>12220<br>12221<br>12222<br>12223                   |                  | 5)       | This Subpart CT does not apply to the forming of the metals cadmium, chromium, gallium, germanium, indium, lithium, manganese, neodymium, or praseodymium.  |

| 651        |            | SUBPART A: GENERAL PROVISIONS  |
| 652        |            | SODIARIA. GENERALIROVISIONS  |
|            | ion 307.   | 1001 Preamble  |
| 654        |            |  |
| 655        | a)         | This Part places certain restrictions on the types, concentrations, and quantities of  |
| 656        | ,          | contaminants that can be discharged into sewer systems in the State.   |
| 657        |            |  |
| 658        |            | 1) Subpart B includes standards for the discharge of contaminants to sewer   |
| 659        |            | systems. These apply to dischargers to publicly owned treatment works  |
| 660        |            | (POTWs) and to dischargers to other types of treatment works, as   |
| 661        |            | specified in each Section.   |
| 662        |            |  |
| 663        |            | 2) Subparts F through CT include standards for the discharge of  |
| 664        |            | contaminants from certain industrial source categories into POTWs.   |
| 665        |            |  |
| 666        | b)         | 35 Ill. Adm. Code 310 specifies requirements for pretreatment programs for   |
| 667        |            | POTWs.   |
| 668        | ``         |  |
| 669<br>(70 | c)         | This Part incorporates federal regulations by reference.   |
| 670<br>671 |            | 1) The incompositions include as later enough an entry of eliticas   |
| 671<br>672 |            | 1) The incorporations include no later amendments or editions.   |
| 673        |            | 2) Except where the contrary is clearly indicated, the Board intends to set  |
| 674        |            | forth all procedural requirements in full in this Part and 35 Ill. Adm. Code   |
| 675        |            | 310, and to utilize only the definitions, requirements, or standards from  |
| 676        |            | the incorporated material.   |
| 677        |            |  |
| 678        |            | 3) Except where the contrary is clearly indicated, references to other federal   |
| 679        |            | regulations within incorporated material are to be construed as referencing  |
| 680        |            | Board regulations derived from the referenced material, rather than the  |
| 681        |            | other federal regulation.  |
| 682        |            |  |
| 683        | (Sour      | rce: Amended at 46 Ill. Reg, effective)  |

702

703 SUBPART B: GENERAL AND SPECIFIC PRETREATMENT REQUIREMENTS 704

# 705Section 307.1101 General and Specific Requirements

706

708

710 711

712

713

714

716

707No person may introduce the following types of pollutants into a POTW:

- 709 a) General requirements.
  - 1) Pollutants that pass through the POTW; or
  - 2) Pollutants that interfere with the operation or performance of the POTW.
- 715 b) Specific requirements.
- 7171)Pollutants that create a fire or explosion hazard within the POTW,718including, but not limited to, waste streams with a closed cup flashpoint719of less than  $60^{\circ}$  C  $^{\circ}$  (140° F  $^{\circ}$ F) using the test methods specified in 35 Ill.720Adm. Code 721.121;
- 721

### POLLUTION CONTROL BOARD

| 722        | 2)       | Pollutants that would cause safety hazards to the personnel operating the  |
|------------|----------|--|
| 723        |          | treatment works;   |
| 724<br>725 | 2)       | Delbutents that will asses comparing domage to the DOTW.                   |
| 725<br>726 | 3)       | Pollutants that will cause corrosive damage to the POTW;                   |
| 720        | 4)       | Pollutants that would be injurious in any other way to sewers, treatment   |
| 727        | 4)       | works, or structures;  |
| 729        |          | works, or structures,  |
| 730        | 5)       | Discharges with a pH less than 5.0, unless the POTW is specifically        |
| 731        | 5)       | designed to accommodate such discharges;                                   |
| 732        |          | designed to decommodule such discharges,                                   |
| 733        | 6)       | Solid or viscous pollutants in amounts that will cause obstruction to the  |
| 734        | •)       | flow in the POTW resulting in interference;                                |
| 735        |          |  |
| 736        | 7)       | Any pollutant, including oxygen-demanding pollutants, at a flow rate or    |
| 737        | ,        | concentration that will cause interference with the POTW;                  |
| 738        |          |  |
| 739        | 8)       | Heat in amounts that will inhibit biological activity in the POTW and      |
| 740        | ,        | interfere with the POTW;   |
| 741        |          |  |
| 742        | 9)       | Heat in amounts that result in temperatures in the influent to the POTW    |
| 743        |          | treatment plant in excess of 40 °C (104 °F) unless the Agency approves     |
| 744        |          | alternate temperature limits in pretreatment plan;                         |
| 745        |          |  |
| 746        | 10)      | Pollutants that would cause the effluent from the treatment works to       |
| 747        |          | violate applicable effluent standards;                                     |
| 748        |          |  |
| 749        | 11)      | Petroleum oil, non-biodegradable cutting oil, or products of mineral oil   |
| 750        |          | origin in amounts that will cause interference or pass through;            |
| 751        |          | - " , , , , , , , , , , , , , , , , , ,                                    |
| 752        | 12)      | Pollutants that result in the presence of toxic gases, vapors, or fumes    |
| 753        |          | within the POTW in a quantity that may cause acute worker health and       |
| 754        |          | safety problems; or  |
| 755        | 12)      |  |
| 756<br>757 | 13)      | Any trucked or hauled pollutants, except at discharge points designated by |
| 757<br>758 |          | the POTW.  |
| 758<br>750 |          | TE: Derived from 40 CED 402.2 and 402.5 (2005)                             |

|  |    | NC     | TICE OF PROPOSED AMENDMENTS  |
| 2656<br>2657<br>2658<br>2659                         |    | A)     | Discharges of cyanide in "cyanide-bearing waste streams," listed<br>in 35 Ill. Adm. Code 307.2490, are not subject to the cyanide<br>limitations of this Subpart O if both of the following occur:   |
| 2660<br>2661<br>2662<br>2663<br>2664                 |    |        | i) The Control Authority determines that the cyanide<br>limitations are not achievable due to elevated levels of<br>non-amenable cyanide (i.e., cyanide that is not oxidized by<br>chlorine treatment) that result from the unavoidable<br>complexing of cyanide at the process source of the                                      |
| 2665<br>2666   |    |        | cyanide-bearing waste stream, and  |
| 2667<br>2668<br>2669<br>2670                         |    |        | ii) The control authority establishes an alternative total cyanide or amenable cyanide limitation that reflects the best available technology economically achievable.   |
| 2671<br>2672<br>2673<br>2674<br>2675                 |    | B)     | The control authority must base its determination made pursuant to subsection $(b)(7)(A)$ on a review of the relevant engineering, production, and sampling and analytical information at its disposal, including measurements of both total and amenable cyanide in the waste stream.   |
| 2676<br>2677<br>2678<br>2679<br>2680<br>2681         |    | C)     | The control authority must set forth its determination made<br>pursuant to subsection $(b)(7)(A)$ in a written analysis of the extent<br>of complexing in the waste stream and its impact on cyanide<br>treatability, based on the information at its disposal.  |
| 2681<br>2682<br>2683<br>2684<br>2685<br>2686<br>2687 |    | D)     | Alternative cyanide discharge limitation determinations made<br>pursuant to this subsection (b)(7) are subject to the limitations of<br>35 Ill. Adm. Code 307.1103. Provided, however, Section<br>307.1103 may not be used to allow a discharge of total cyanide in<br>excess of that otherwise allowed by this subsection (b)(7). |
| 2688<br>2689   | 8) | Allowa | inces for non-metal-bearing waste streams  |
| 2690<br>2691<br>2692<br>2693                         |    | A)     | The control authority must establish discharge limitations for lead<br>and zinc for waste streams not listed in 35 Ill. Adm. Code<br>307.2490 and not otherwise determined to be <u>""</u> metal-bearing<br>waste streams <u>"</u> if it determines that the wastewater metals   |

|    | contamination is due to background levels that are not reasonably<br>avoidable, from such sources as intake water, corrosion of<br>materials of construction, or contamination of raw materials.   |
|----|--|
| B) | The control authority must base its determination made pursuant to subsection $(b)(8)(A)$ on a review of relevant plant operating conditions, process chemistry, engineering, and sampling and analytical information.   |
| C) | The control authority must set forth its determination made pursuant to subsection $(b)(8)(A)$ in a written analysis of the sources and levels of the metals, based on the information at its disposal.  |
| D) | The control authority may establish limitations for lead and zinc for non-metal-bearing waste streams for the purposes of subsection $(b)(8)(A)$ between the following levels:   |
|    | i) The lowest level that the control authority determines,<br>based on best professional judgment, can be reliably<br>measured; and  |
|    | <ul> <li>The concentration of such metals present in the waste<br/>streams, but not to exceed the applicable limitations<br/>contained in 35 Ill. Adm. Code 307.2401 through<br/>307.2407.</li> </ul>  |
|    | iii) For zinc, the applicable limitations that the discharge must<br>not exceed are those appearing in the tables in 35 Ill. Adm.<br>Code 307.2401 through 307.2407, not the alternative<br>limitations for rayon fiber manufacture by the viscose<br>process, as set forth in footnote 2 to the table in 40 CFR<br>414.25, incorporated by reference at 35 Ill. Adm. Code<br>307.2401(c)(1), or the alternative limitations for acrylic<br>fiber manufacture by the zinc chloride/solvent process, as<br>set forth in footnote 2 to the table in 40 CFR 414.35, each<br>incorporated by reference at 35 Ill. Adm. Code<br>307.2402(c)(1). |

#### POLLUTION CONTROL BOARD

- 6228 d) New sources 6229 6230 The Board incorporates by reference 40 CFR 420.136, as added at 67 Fed. 1) Reg. 64216 (October 17, 2002). This incorporation includes no later 6231 6232 amendments or editions. 6233 6234 No person subject to the pretreatment standards incorporated by reference 2) in subsection (d)(1) may cause, threaten, or allow the discharge of any 6235 contaminant to a POTW in violation of such standards. 6236 6237 "New source" means any building, structure, facility, or installation the 6238 3) 6239 construction of which commenced after November 18, 2002. 6240 6241 e) Compliance date. An existing source must comply with the requirements of this 6242 Section no later than October 17, 2005. A new source must comply with the 6243 requirements of this Section on the date it begins discharging. 6244 6245 BOARD NOTE: Subsections (d)(3) and (e) derive from the preamble at 67 Fed. Reg. 64216 (October 17, 2002). 6246 6247 6248 (Source: Amended at 46 Ill. Reg. , effective \_\_\_\_\_ ) 6249 6250 SUBPART V: NONFERROUS METALS MANUFACTURING 6251 6252Section 307.3100 General Provisions 6253 6254 Applicability. This Subpart V applies to any facility producing primary metals a) from ore concentrates or recovering secondary metals from recycle wastes that 6255 6256 introduces or may introduce pollutants into a POTW. This Subpart V applies only to alloying or casting of hot metal directly from the nonferrous metals 6257 manufacturing process without cooling. Remelting followed by alloying or 6258 6259 cooling is included in the aluminum forming, nonferrous metals forming, or metal molding and casting categories. 6260 6261 This subsection corresponds to 40 CFR 421.2, marked "reserved" by USEPA. 6262 b) 6263 This statement maintains structural consistency with the corresponding federal 6264 regulations.

| 7287 |    |       | subsection (c)(1)(D);   |
| 7288 |    | :::>  | Defens December 21, 2025 from VID limitedians 1   |
| 7289 |    | iii)  | Before December 31, 2025, from VIP limitations under $C(1)(1)(1)(1)$ to the second black to see ECU |
| 7290 |    |       | subsection $(c)(1)(A)$ to those applicable to an EGU  |

#### POLLUTION CONTROL BOARD

#### NOTICE OF PROPOSED AMENDMENTS

7291 initiating cessation of coal combustion under subsection 7292 (c)(1)(D);7293 7294 Before December 31, 2025, from limitations applicable to iv) 7295 an EGU initiating cessation of coal combustion under 7296 subsection (c)(1)(B) to VIP limitations under subsection 7297 (c)(1)(A);7298 7299 v) Before December 31, 2025, from limitations applicable to a LUEGU under subsection (c)(1)(D) to generally applicable 7300 limitations for discharges of FGD wastewater and BA 7301 7302 transport water under 40 CFR 423.16; 7303 7304 vi) Before December 31, 2025, from limitations applicable to a 7305 LUEGU under subsection (c)(1)(D) to VIP limitations 7306 under subsection (c)(1)(A); and 7307 7308 Before December 31, 2025, from limitations applicable to a vii) LUEGU under subsection (c)(1)(D) to those applicable to 7309 7310 an EGU initiating cessation of coal combustion under 7311 subsection (c)(1)(B). 7312 7313 BOARD NOTE: This subsection (c)(1)(F) derives from 40 CFR 423.13(o) and 423.19(i). USEPA calls VIP "Voluntary Incentives 7314 7315 Program,<sup>2</sup>" and the Board evokes enough of that name as is 7316 evocative but stops short of using the same name. USEPA stated that its Voluntary Incentives Program applies only to direct 7317 discharges and is not finalized as to indirect discharges. 85 Fed. 7318 7319 Reg. 64650, 64708 n. 166 (Oct. 13, 2020). USEPA<sup>2</sup>'s rules, 7320 however, expressly contemplate applying its elements to indirect discharges. See 40 CFR 423.19(i)(1). 7321 7322 7323 G) Conditions for Transfer Between Applicable Discharge 7324 Limitations. Conditions apply to transfer between applicable discharge limitations: 7325 7326 7327 i) An EGU must comply with all currently applicable 7328 requirements before filing notice under 40 CFR 423.19(i)

7329

7330 7331

# POLLUTION CONTROL BOARD NOTICE OF PROPOSED AMENDMENTS seeking transfer to other applicable discharge limitations, as provided in 40 CFR 423.13(o)(2); and ii) An EGU seeking a transfer described in subsections

- 7332 7333 (c)(1)(F)(iii) through (c)(1)(F)(vii) must comply with more stringent limitations that already apply, instead of the less 7334 stringent limitations sought. 7335 7336 7337 BOARD NOTE: This subsection (c)(1)(G) derives from 40 CFR 7338 423.13(o)(2) and (o)(3). 7339 7340 H) An EGU that would otherwise qualify as an LUEGU or as ceasing combustion of coal before December 31, 2028 will continue to 7341 qualify if the conditions in 40 CFR 423.18 are true and after the 7342 7343 owner or operator fulfills the certification requirements in 40 CFR 7344 423.19(a), (b), and (g). 7345 7346 BOARD NOTE: This subsection (c)(1)(H) derives from 40 CFR 423.16(e)(1) and (e)(2), 423.18, and 423.19(g). The requirements 7347 of 40 CFR 423.18 directly apply to conditions in NPDES permits. 7348 7349 The certification requirement of 40 CFR 423.19(g) allows the discharge standards for the LUEGU or EGU ceasing coal 7350 7351 combustion subcategory continue to continue to apply to indirect dischargers under the same circumstances and conditions. 7352 7353 7354 2) No person subject to the pretreatment standards incorporated by reference 7355 in subsection (c)(1) may cause, threaten, or allow the discharge of any contaminant to a POTW in violation of those standards. 7356 7357 7358 d) New Sources 7359 7360 The Board incorporates by reference 40 CFR 423.17 and appendix A to 40 1) CFR 423 (2020). This incorporation includes no later amendments or 7361 7362 editions.
- 736373642)No person subject to the pretreatment standards incorporated by reference7365in subsection (d)(1) may cause, threaten, or allow the discharge of any7366contaminant to a POTW in violation of those standards.

#### POLLUTION CONTROL BOARD

#### NOTICE OF PROPOSED AMENDMENTS

7405 7406 (Source: Amended at 46 Ill. Reg. \_\_\_\_\_, effective ) 7407 7408Section 307.3402 Covered Electric Furnaces and Other Smelting Operations with Wet Air 7409Pollution Control Devices 7410 7411 Applicability. This Section applies to discharges resulting from the smelting of a) ferroalloys in covered electric furnaces or other smelting operations, not 7412 elsewhere included in this Subpart, with wet air pollution control devices. This 7413 subcategory includes those electric furnaces of such construction or configuration 7414 7415 (known as covered, closed, sealed, semi-covered, or semi-closed furnaces) that 7416 the furnace off-gases are not burned prior to collection and cleaning, and which 7417 off-gases are cleaned after collection in a wet air pollution control device such as a scrubber, "wet" baghouse, etc. This subcategory also includes those 7418 7419 non-electric furnace smelting operations, such as exothermic (i.e., aluminothermic 7420 or silicothermic) smelting, ferromanganese refining, etc., where these are controlled for air pollution by wet air pollution control devices. This subcategory 7421 does not include noncontact cooling water or those furnaces that utilize dry dust 7422 collection techniques, such as dry baghouses. 7423 7424 7425 Specialized definitions. The Board incorporates by reference 40 CFR 424.21 **b**) (2003). This incorporation includes no later amendments or editions. 7426 7427 7428 c) Existing sources. These sources must comply with the general and specific 7429 pretreatment requirements of Subpart B. 7430 7431 d) New sources 7432 7433 1) The Board incorporates by reference 40 CFR 424.26 (2003). This 7434 incorporation includes no later amendments or editions. 7435 7436 2) No person subject to the pretreatment standards incorporated by reference in subsection (d)(1) may cause, threaten, or allow the discharge of any 7437 7438 contaminant to a POTW in violation of such standards. 7439 "New source" means any building, structure, facility, or installation the 7440 3) construction of which commenced after October 18, 1973. 7441 7442

#### POLLUTION CONTROL BOARD

| 9951<br>9952<br>9953 | a)       | Applicability. This Section applies to discharges resulting from the manufacture of meat meal, dried animal by-product residues (tankage), animal oils, grease, and tallow, perhaps including hide curing, by a renderer. |  |  |
|----------------------|----------|---|--|--|
| 9954                 |          |   |  |  |
| 9955                 | b)       | Specialized definitions. The Board incorporates by reference 40 CFR 432.101   |  |  |
| 9956                 |          | (2003). This incorporation includes no later amendments or editions.  |  |  |
| 9957                 |          |   |  |  |
| 9958                 | c)       | Existing sources. These sources must comply with the general and specific   |  |  |
| 9959                 |          | pretreatment requirements of Subpart B.   |  |  |
| 9960                 |          |   |  |  |
| 9961                 | d)       | New sources   |  |  |
| 9962                 | ,        |   |  |  |
| 9963                 |          | 1) The Board incorporates by reference 40 CFR 432.106 (2003). This  |  |  |
| 9964                 |          | incorporation includes no later amendments or editions.   |  |  |
| 9965                 |          | 1   |  |  |
| 9966                 |          | 2) No person subject to the pretreatment standards incorporated by reference  |  |  |
| 9967                 |          | in subsection $(d)(1)$ may cause, threaten, or allow the discharge of any   |  |  |
| 9968                 |          | contaminant to a POTW in violation of such standards.   |  |  |
| 9969                 |          |   |  |  |
| 9970                 |          | 3) "New source" means any building, structure, facility, or installation the  |  |  |
| 9971                 |          | construction of which commenced after August 28, 1974.  |  |  |
| 9972                 |          |   |  |  |
| 9973                 | (Sourc   | ce: Amended at 46 Ill. Reg, effective)  |  |  |
| 9974                 | <b>`</b> |   |  |  |
| 9975                 |          | SUBPART BH: METAL FINISHING   |  |  |
| 9976                 |          |   |  |  |
| 9977Sectio           | n 307.4  | 1300 General Provisions   |  |  |
| 9978                 |          |   |  |  |
| 9979                 | a)       | Applicability. Except as provided in subsection $(a)(3)$ or $(a)(4)$ , this Subpart BH  |  |  |
| 9980                 |          | applies to discharges resulting from plants that perform on any basis material any  |  |  |
| 9981                 |          | of the six metal finishing operations listed in subsection $(a)(1)$ . If any of those   |  |  |
| 9982                 |          | six operations are present, then this Subpart BH applies also to discharges from  |  |  |
| 9983                 |          | the forty process operations specified in subsection $(a)(2)$ .   |  |  |
| 9984                 |          |   |  |  |
| 9985                 |          | 1) Six metal finishing operations. Electroplating, electrolessplating,  |  |  |
| 9986                 |          | anodizing, coating (chromating, phosphating, and coloring), chemical  |  |  |
| 9987                 |          | etching and milling, and printed circuit board manufacture.   |  |  |
| 9988                 |          |   |  |  |

| 9989  | 2) |        | additional process operations. Cleaning, machining, grinding,        |
|-------|----|--------|--|
| 9990  |    | -      | hing, tumbling, burnishing, impact deformation, pressure             |
| 9991  |    |        | mation, shearing, heat treating, thermal cutting, welding, brazing,  |
| 9992  |    |        | ring, flame spraying, sand blasting, other abrasive jet machining,   |
| 9993  |    |        | ric discharge machining, electrochemical machining, electron beam    |
| 9994  |    | mach   | ining, laser beam machining, plasma arc machining, ultrasonic        |
| 9995  |    | mach   | ining, sintering, laminating, hot dip coating, sputtering, vapor     |
| 9996  |    | platir | ng, thermal infusion, salt bath descaling, solvent degreasing, paint |
| 9997  |    | stripp | bing, painting, electrostatic painting, electropainting, vacuum      |
| 9998  |    | metal  | lizing, assembly, calibration, testing, and mechanical plating.      |
| 9999  |    |        |  |
| 10000 | 3) | Exclu  | usions. This Subpart BH does not apply if there are pretreatment     |
| 10001 |    | stand  | ards that are effective and applicable for the following industrial  |
| 10002 |    | categ  | ories:   |
| 10003 |    |        |  |
| 10004 |    | A)     | Nonferrous metal smelting and refining (Subpart V);                  |
| 10005 |    |        |  |
| 10006 |    | B)     | Coil coating (Subpart CN);   |
| 10007 |    |        |  |

|   |    | POLLUTION CONTROL BOARD   |
|---|----|---|
|   |    | NOTICE OF PROPOSED AMENDMENTS   |
| 11205<br>11206<br>11207   |    | further processed on-site into intermediate or final plastics products in molding and forming processes, are controlled by this Subpart CL.   |
| 11207<br>11208<br>11209<br>11210<br>11211<br>11212                            |    | 3) Processes that coat a plastic material onto a substrate may fall within the definition of electroplating and metal finished as defined in Subpart N or AH. These coating processes are excluded from the electroplating and metal finishing point source categories and are subject to this Subpart CL.  |
| 11213<br>11214<br>11215<br>11216<br>11217<br>11218                            |    | 4) Coating of plastic material onto a formed metal substrate is also covered<br>by this Subpart and is not covered by the specific metal forming guidelines<br>such as aluminum forming, copper forming and nonferrous metals forming<br>(Subparts BP, BQ, and BT). This Subpart CL applies only to the coating<br>process; the metal forming operations are subject to the specific metal<br>forming regulation.   |
| 11219<br>11220<br>11221<br>11222<br>11223<br>11224<br>11225<br>11226<br>11227 |    | 5) Research and development laboratories that produce plastic products using<br>a plastics molding and forming process are subject to this Subpart CL if<br>the plastics molding and forming process discharges process water. The<br>mass of plastic product produced in the plastics molding and forming<br>process is not considered when determining the applicability of this<br>Subpart CL to plastics molding and forming processes at research and<br>development laboratories. |
| 11228<br>11229<br>11230<br>11231<br>11232                                     |    | 6) Chemical and thermal reticulation processes for polyurethane foam are not subject to this Subpart CL. Water used in those processes is not considered to be process water as defined in this regulation. Processes used to further mold or form the reticulated foam are subject, however, to this regulation if they discharge process water.   |
| 11233<br>11234<br>11235<br>11236<br>11237<br>11238                            |    | 7) Processes used to regenerate cellulose and to produce a product (e.g.,<br>rayon) from the regenerated cellulose are not subject to the limitations and<br>standards in this Subpart. Processes that mold or form cellulose<br>derivatives (e.g., cellulose acetate) are subject to this Subpart CL if they<br>discharge process water.   |
| 11239<br>11240<br>11241<br>11242  | b) | General definitions. The Board incorporates by reference 40 CFR 463.2 (2003). This incorporation includes no later amendments or editions.  |

| 12178      | a)       | Applic  | cability  |
| 12179      |          |         |   |
| 12180      |          | 1)      | This Subpart CT applies to the introduction of pollutants into a POTW       |
| 12181      |          |         | from the forming of nonferrous metals (including nonferrous metal           |
| 12182      |          |         | alloys), except beryllium, copper and aluminum, and their alloys.           |
| 12183      |          |         | Aluminum alloys are defined as any alloy in which aluminum is the major     |
| 12184      |          |         | constituent in percent by weight. Copper alloys are defined as any alloy in |
| 12185      |          |         | which copper is the major constituent in percent by weight except when      |
| 12186      |          |         | copper is alloyed with precious metals. Any copper-precious metal alloy     |
| 12187      |          |         | containing 30 percent or greater precious metal is considered a precious    |
| 12188      |          |         | metal alloy for the purpose of this Subpart CT. Beryllium alloys are any    |
| 12189      |          |         | alloy in which beryllium is present at 0.1 percent or greater. This Subpart |
| 12190      |          |         | CT applies to the following:  |
| 12191      |          |         |   |
| 12192      |          |         | A) Forming operations, including rolling (both hot and cold),               |
|            |          |         |   |

|       |    | POLLUTION CONTROL BOARD   |
|-------|----|---|
|       |    | NOTICE OF PROPOSED AMENDMENTS   |
| 12193 |    | extruding forging, drawing, swaging, cladding, and tube reducing,           |
| 12194 |    | and   |
| 12195 |    |   |
| 12196 |    | B) Ancillary operations performed as an integral part of the forming        |
| 12197 |    | of these metals, including casting for subsequent forming, heat             |
| 12198 |    | treatment, surface treatment, alkaline cleaning, solvent degreasing,        |
| 12199 |    | product testing, surface coating, sawing, grinding, tumbling,               |
| 12200 |    | burnishing, and wet air pollution control.                                  |
| 12201 |    |   |
| 12202 | 2) | This Subpart CT also applies to introduction of pollutants into a POTW      |
| 12203 |    | from mechanical metal powder production operations, forming of parts        |
| 12204 |    | from metal powders, and associated ancillary operations of the following:   |
| 12205 |    |   |
| 12206 |    | A) Iron, copper and aluminum and their alloys; and                          |
| 12207 |    |   |
| 12208 |    | B) The nonferrous metal and their alloys described in subsection            |
| 12209 |    | (a)(1). This Subpart CT does not regulate the production of metal           |
| 12210 |    | powders by chemical means such as precipitation. The production             |
| 12211 |    | of metal powder as the final step in refining metal is regulated            |
| 12212 |    | under nonferrous metals manufacturing, Subpart V.                           |
| 12213 | •  |   |
| 12214 | 3) | Surface treatment includes any chemical or electrochemical treatment        |
| 12215 |    | applied to the surface of the metal. For the purposes of this Subpart CT,   |
| 12216 |    | surface treatment of metals is considered to be an integral part of the     |
| 12217 |    | forming of metals whenever it is performed at the same plant site at which  |
| 12218 |    | the metals are formed. Such surface treatment operations are not            |
| 12219 |    | regulated under the electroplating or metal finishing regulations, Subpart  |
| 12220 |    | N or AH.  |
| 12221 |    |   |
| 12222 | 4) | Casting is covered by this Subpart CT when it is performed as an integral   |
| 12223 |    | part of the metal forming process and takes place at the same plant site at |
| 12224 |    | which metals are formed. Such casting is not regulated under the            |
| 12225 |    | provisions of metal molding and casting (Subpart CM ).                      |
| 12226 | -  |   |
| 12227 | 5) | This Subpart CT does not apply to the forming of the metals cadmium,        |
| 12228 |    | chromium, gallium, germanium, indium, lithium, manganese, neodymium,        |
| 12229 |    | or praseodymium.  |
| 12230 |    |   |
