ORDER OF THE BOARD (by B. Forcade):

On August 20, 1985, the Illinois State Chamber of Commerce ("ISCC") filed a "Motion to Reconsider Decision", presumably today's decision to proceed to Final Notice in the above-captioned matter. The motion is denied.

The basis for this motion is "new information" on the costs of compliance in attainment areas for synthetic organic chemical and polymer manufacturing (SOCPM) plants. These cost figures were presented to the Board during First Notice in Public Comment 59. Additionally, the ISCC motion asserts that fewer facilities are located in attainment counties than were originally anticipated. Therefore, fewer would be regulated under the SOCPM rules. While this may "reduce benefits", it also reduces overall costs of compliance. The Board notes that facts showing individualized hardship may be useful in a proceeding for variance or site-specific relief from the rules in question.

IT IS SO ORDERED

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 21<sup>st</sup> day of August, 1985, by a vote of 7-0.
