 ILLINOIS ENVIRONMENTAL )  
 PROTECTION AGENCY, )  
 )  
 Respondent. )

ORDER OF THE BOARD (by J.D. Dumelle):

This matter comes before the board on a December 10, 1987 Petition for Variance filed by Transcraft Corporation (Transcraft). The petition is deficient in the following respects:

- 1) reference is made to an "accompanying letter from Ameron-Enmar Division". However, no accompanying letter was attached.
- 2) 35 Ill. Adm. Code 104.121(f) requires:

A detailed description of the existing and proposed equipment or proposed method of control to be undertaken to achieve full compliance with the Act and regulations, including a time schedule for the implementation of all phases of the control program from initiation of design to program completion and the estimated costs involved for each phase and the total cost to achieve compliance.

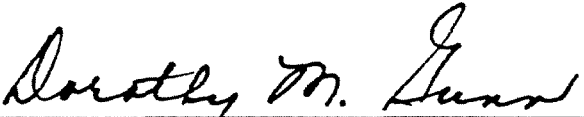

The Board requests more information on the issue of compliance so as to satisfy the requirement.

Finally, the Board notes that 35 Ill. Adm. Code 104.120 requires that the Agency be served with the petition as well as the Board and that all additional information or amendments be filed with the Agency and the Board. So as to demonstrate compliance with this section, the Board orders that Petitioner include a Proof of Service with each filing hereafter.

Unless an amended petition curing the above-noted defects is filed within 45 days of the date of this order, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 17<sup>th</sup> day of December, 1987 by a vote of 6-0.
