

ILLINOIS POLLUTION CONTROL BOARD
April 18, 1985

ELECTRIC ENERGY, INC.,)
)
 Petitioner,)
)
 v.) PCB 85-39
)
 ILLINOIS ENVIRONMENTAL)
 PROTECTION AGENCY,)
)
 Respondent.)

ORDER OF THE BOARD (by J. D. Dumelle):

This matter comes before the Board upon an April 4, 1985 petition for variance filed on behalf of Electric Energy, Inc. (EEI) requesting variance from the total suspended solids (TSS) limitations applicable to its electric generating station in Joppa. That petition is deficient in numerous respects pursuant to 35 Ill. Adm. Code 104.102. More specifically, the petition fails to include:

1. The quantity of the materials discharged [Section 104.121 (a)];
2. Data describing the extent of present non-compliance [Section 104.121 (e)];
3. Factual information supporting the environmental assessment [Section 104.121 (g)]; and
4. A discussion of compliance alternatives such as dredging or the use of flocculants and their associated costs [Section 104.121 (i)].

Unless EEI files an amended petition within 45 days of the date of this Order curing the above-noted defects, this proceeding will be subject to dismissal.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 18 day of April, 1985, by a vote of 5-0.
