Gregory,

Your certified letter arrived today. Our building's postal worker and I have a great relationship and talk regularly about mail related topics.

He was notified of the contents of the letter. The intentions of the letter. And rejected its delivery on the basis of mail fraud.

Please refrain from having your staff engage in additional fraudulent and or dishonest behavior involving the mail system.

Please take responsibility for failures as is the purpose of the certifications signed by workers before entering a NPDES permitted site.

Also, please review the attached example and refrain from filing frivolous motions which could result in greater damage to your client(s). And waste the time of the board you appear to lack respect for.

Kind Regards,

Paul Pratapas
