Hey Lyn,

I just spoke to EJ the President of Horizon Construction in Wisconsin and he is still refusing to provide access to the SWPPP book unless I provide information they have determined is required.

Can you please call him at +1 (608) 219-6451 and help me set up a time to view the book?

He seems to think he is the one who makes the rules despite the Clean Water Act regulations.

If he knew the info was to be open for public inspection he wouldn't have filled it out.
