NARRATIVE INSPECTION REPORT DOCUMENT

GENERAL REMARKS

On August 29, 2023, an open dump and open burn re-inspection was conducted at 2776 E 2625th Rd., Marseilles, IL by Ms. Lauren Grumieaux and Ms. Miranda Lakan representing the LaSalle County Land Use Department, under the delegation authority of the Illinois Environmental Protection Agency.

Weather conditions on August 29, 2023, were 85°F wind WNW at 11mph

Ms. Grumieaux and I arrived at the property at 2:58 PM and began the re-inspection.

Ms. Grumieaux contacted Mr. Partridge via cell phone and let him know of our arrival. After making our way to the northern portion of the parcel, Mr. Partridge met with us on the property. First, we addressed the burn pile that was located on the neighboring property (Outback#1). Mr. Partridge stated that they had removed the items from the pile and cleaned the area. The neighboring property was clean and free of waste at the time of the inspection. Next, we viewed the miscellaneous items being stored in the area. Tanks, chicken wire, plastic pallets, trailers, a snow blower, tires, metal fencing, and other accumulated items were viewed. (Photo #1-#2) Ms. Grumieaux noticed accumulated water in one of the waste tires located in the area. She asked that the tires either be recycled or stored inside. (Photo#3)

Next, Mr. Partridge led us to the northeastern portion of the property. Once out of the vehicle, we documented the area. Piles of demolition debris were viewed throughout. An employee was cutting the frame of a demolished trailer with a torch at the time of the inspection. Looking south, I documented more tires, a television, a trailer frame, and a partly demolished trailer. (Photo#4) Looking to the east, I documented the materials in the piles. Demolition waste, furniture, electronics, mattresses, tires, windows, doors, cabinets, sinks, white goods, car parts, and other domicile waste were scattered throughout the area. (Photos #5- #9) Multiple trailers and waste had been removed from the area since the last inspection. Mr. Partridge pointed out the location where the dumpster had been. He stated that he had saved the receipts from the landfill as requested. Mr. Partridge added that, if need be, he could hire more help with the cleanup process. He then asked for a time frame of when the site would need to comply. Ms. Grumieaux stated that he had already long exceeded his 90 days, but would discuss the photos with Mr. Brian Gift (Director of the Land Use Department) and go from there. Mr. Partridge explained that the trailers viewed were left on the property by the original owners. To dispose of the trailers, he pays an employee to demolish them. The scrap metal is separated from the waste (both scrap metal and waste were piled throughout the site).

After documenting our findings, Ms. Grumieaux stated that the next location we needed to view was Outback #2. Mr. Partridge stated that they had recently added wood, and charred materials from a recent fire to the area. He explained that he planned to have the fire department come out to perform a

controlled burn in that location. Mr. Partridge did not accompany us for the remainder of the inspection.

Once at Outback number 2, I noted that the pile on the hillside had grown in size since the previous inspection. I documented charred debris and a burned deck in the area. (Photo #10) Continuing east, I viewed paneling, demolition waste, carpeting, lattice, and other household items in the pile. (Photo #11- #15) After gathering our notes, we left the area.

Lastly, we viewed the ravine near the pond. After exiting the vehicle, I documented domicile waste near the creek. Further east, I viewed the ravine. Household items, trash, clothing, yard decor, and more domicile waste were viewed along the hillside and creek bank. (Photo #16-#18) After documenting our findings, Ms. Grumieaux and I concluded the inspection at 3:20 p.m.

Apparent violations noted:

Illinois Environmental Protection Act:

9(a), 9(c), 21(a), 21(d)(1), 21(e), 21(p)(1)(2)(7), and 55(a)(1)
