**MOTION FOR LEAVE TO FILE, *INSTANTER*,**

Respondent, the Illinois Environmental Protection Agency ("Illinois EPA"), requests that the Illinois Pollution Control Board ("Board") grant this Motion for Leave to File, *Instanter*, Its Amended Recommendation Regarding the Tax Certification of Water Pollution Control Facilities, pursuant to Sections 101.500 and 101.514 of the Illinois Pollution Control Board's ("Board") Procedural Rules. 35 Ill. Adm. Code 101.500(e), 101.514. In support of its motion seeking leave to file, *instanter*, Illinois EPA states:

1. On March 21, 2024, the Board issued an order requesting Illinois EPA file an Amended Recommendation Regarding the Tax Certification of Water Pollution Control Facilities due to apparent discrepancies in the engineering drawings of the structure labeled a different facility contained in the filed recommendation by April 22, 2024.
2. On May 23, 2024, Illinois EPA filed its Amended Recommendation Regarding the Tax Certification of Water Pollution Control Facilities outside the time period delineated by the Board's March 21, 2024, order.

WHEREFORE, Illinois EPA respectfully requests that the Board grant Respondent's Motion for Leave to File *Instanter*, as filed on this date.

ILLINOIS ENVIRONMENTAL PROTECTION AGENCY

Respectfully submitted,

By:

**RECOMMENDATION OF THE ILLINOIS**  
**ENVIRONMENTAL PROTECTION AGENCY**

The Illinois Environmental Protection Agency ("Illinois EPA") hereby files its Recommendation pursuant to Section 125.204 of the regulations of the Illinois Pollution Control Board ("Board"), 35 Ill. Adm. Code 125.204.

1. On September 6, 2023, the Illinois EPA received a request from Gleeson Farm (Log number TC-148281, Exhibit A) for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Ill. Adm. Code 125.204.
  
2. On March 7, 2024, the Illinois EPA filed a recommendation with the Board regarding the tax certification of water pollution control facilities at Gleeson Farm. On March 21, 2024, the Board entered an Order requesting the Illinois EPA to file an amended recommendation to address an apparent discrepancy with the engineering drawings of the livestock waste management structure labeled for a different facility "Wind 2," instead of Gleeson Farm. On May 8, 2024, the Illinois EPA received clarifying information from the applicant's engineering consultant that the consultant acknowledged that the drawing submitted for Gleeson Farm was labeled as Wind 2, but that the waste storage structures for both facilities are identical and therefore the submitted drawing accurately represents the waste storage structure that was constructed at Gleeson Farm.

3. The facility's address is: Gleeson Farm  
25473 N. 3300 E. Road  
Colfax, Illinois 61728

The proposed water pollution control facility in this request is located in the SE ¼ of Section 4, T25N, R5E of the 3rd P.M. in McLean County, at the above street address and consist of the following livestock waste management structures:

One (1) concrete livestock waste pit measuring 201 ft. (length) x 101.83 ft. (width) x 10 ft. (depth), six (6) 6 ft. (length) x 6 ft. (width) x 10 ft. (depth) deep pumpouts, and approximately 680 linear feet of 4 inch HDPE drain tile and the 20,000 sq. ft. of precast concrete slatted flooring over this manure pit.

These livestock waste management facilities are used to collect, transport and/or store livestock waste prior to cropland application.

4. Section 11-10 of the Property Tax Code, 35 ILCS 200/11-10 (2022), and Section 125.200(a) of the Board's regulations, 35 Ill. Adm. Code 125.200(a), define "pollution control facilities" as:

any system, method, construction, device or appliance appurtenant thereto or any portion of any building or equipment, that is designed, constructed, installed or operated for the primary purpose of: eliminating, preventing, or reducing air or water pollution ...or treating, pretreating, modifying or disposing of any potential solid, liquid or gaseous pollutant which if released without treatment, pretreatment modification or disposal might be harmful, detrimental or offensive to human, plant or animal life, or to property.

4. In order to receive preferential tax treatment as pursuant to 35 ILCS 200/11-5 (2022), pollution control facilities must be certified as such by the Board, 35 ILCS 200/11-20 (2022) and 35 Ill. Adm. Code 125.200(a).
5. Upon receipt of a tax certification application, the Illinois EPA must file a recommendation on the application with the Board, 35 Ill Adm. Code 125.204(a).

6. Based on the information in the application and the purpose of the facility, it is the Illinois EPA's engineering judgment that the described facilities may be considered "pollution control facilities," pursuant to 35 Ill. Adm. Code 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in 35 Ill. Adm. Code 125.200, and are eligible for tax certification from the Board.

WHEREFORE, the Illinois EPA recommends that the Board issue the requested tax certification.

### Memorandum

To: Mike Roubitchek, Division of Legal Counsel

From: Darin E. LeCrone, P.E., Manager, Permit Section, Division of Water Pollution Control, Illinois Environmental Protection Agency *DL*

Date: FEB 28 2024

Re: Gleeson Farm - Cropsey  
Recommendation of Tax Certification  
Log No.: TC-148281  
BOW ID No.: W1138080006  
Property Index Number: 10-04-400-001

The Bureau of Water received a request on September 6, 2023 from Gleeson Farm, having a principal place of business at 41583 E. 2300 N. Rd., Cropsey, IL 61731, for an Illinois EPA recommendation regarding the tax certification of water pollution control facilities pursuant to 35 Il. Adm. Code 125.204. We offer the following recommendation.

The water pollution control facilities in this request include the following:

Gleeson Farm  
25473 N 3300 E RD  
Colfax, IL 61728

SE 1/4 of Section 4, Township 25-North, Range 5-East of the 3rd P.M. in McLean County.

Livestock waste management facilities consisting of:

One (1) concrete livestock waste pit measuring 201 ft. (length) x 101.83 ft. (width) x 10 ft. (depth), six (6) 6 ft. (length) x 6 ft. (width) x 10 ft. (depth) deep pumpouts, and approximately 680 linear feet of 4-inch HDPE perimeter drain tile and the 20,000 sq. ft. of precast concrete slatted flooring over this manure pit.

These livestock waste management facilities are used to collect, transport and/or store livestock wastes prior to cropland application.

These facilities are further described in the enclosed applications and supporting documents.

Based on the information included in this submittal, it is our engineering judgment that the above proposed facilities may be considered "Pollution Control Facilities" under 35 IAC 125.200(a), with the primary purpose of eliminating, preventing, or reducing water pollution, or as otherwise provided in this section, and therefore eligible for tax certification from the Illinois Pollution Control Board. The Bureau of Water therefore recommends that the Board issue the requested tax certification for these facilities.

If you have any questions regarding the above, please contact Webert Deslien at 217/782-0610.

## Division of Water Pollution Control

### Tax Certification Form for Livestock Operations

This form's purpose is for the application for tax certification of water pollution control facilities at a livestock operation in accordance with 35 Ill. Admin. Code Part 125. For purposes of this form, a water pollution control facility ("facility") is designed, constructed, installed or operated for the primary purpose of eliminating, preventing or reducing water pollution. Multiple facilities may be submitted using this form; however, all facilities must be located on the same livestock operation site. Separate applications must be completed for separate livestock operations.

All other types of operations (e.g., industrial, agricultural, etc.) and air pollution control facilities must use form IL 532-0222.

Please follow the instructions found throughout this form. If you need additional assistance with filling out this form, please call the Bureau of Water at 217-782-3362. Additional information about the tax certification process and applicable regulations including definitions may be found at the Agency website: [www2.illinois.gov/epa/topics/forms/water-permits/tax-certification](http://www2.illinois.gov/epa/topics/forms/water-permits/tax-certification)

#### I. Applicant Information

Company Gleeson Farm

##### Person Authorized to Receive Certification

City Cropsey State IL ZIP 61731

Phone 217-249-9557 ext. \_\_\_\_\_

Email forwardfinishllc@gmail.com

##### Person to Contact for Additional Details

Name Same

Street Address \_\_\_\_\_

City \_\_\_\_\_ State \_\_\_\_\_ ZIP \_\_\_\_\_

Phone \_\_\_\_\_ ext. \_\_\_\_\_

Email \_\_\_\_\_

#### II. Livestock Operation Information

##### Site Location

The location of the parcel of land where the facilities are located and given by quarter section, township, range and county must be provided. The Public Land Survey System information is available on county plat maps or at [www.isgs.illinois.edu/plss](http://www.isgs.illinois.edu/plss)

Quarter Section: SE Township: 25N Range: 5E Prime Meridian: 3rd County: McLean

Municipality Name: Section 4

Township Name: \_\_\_\_\_

Street Address: \_\_\_\_\_

City \_\_\_\_\_ State IL ZIP \_\_\_\_\_

Property Index Number(s): 10-04-400-001

A property index number (PIN) for the parcel of land where pollution control facilities are located is required. If multiple PINs are applicable to the requested facilities, you must identify all applicable PINs in the above line and in Section III below. If you do not know your PIN you may obtain it from your records or your County's tax assessors website which may be found on the Illinois Department of Revenue website at [www2.illinois.gov/rev/Individuals/Pages/IllinoisCounties.aspx](http://www2.illinois.gov/rev/Individuals/Pages/IllinoisCounties.aspx)

**Livestock Activities:** Provide descriptions of the livestock operations including type of animals at the site. (Text box will expand.)

The proposed structure consists of one swine finisher building where swine are housed on concrete slats with a below ground concrete pit used as waste storage.

**Pollutant Sources:** Identify potential sources of water pollution that are being controlled (i.e., beef feedlot runoff, swine manure, silage leachate, etc.). Provide estimated quantities of each pollutant that is produced in gallons per year. (Text box will expand.)

Approximately 950,000 gallons of swine manure will be stored in each concrete pit per year.

Are the pollutants collected by the facility and applied?

☒ Yes ☐ No

If No, provide a description of the final disposition of the pollutants which are collected by the facility.

### III. Pollution Control Facility Information

Applicant must ensure each requested pollution control facility is represented accurately in both Part A and Part B of this Section.

#### Part A. Operational Diagram

Using the space provided below or on a separate sheet of paper, provide a plan sketch or map of the livestock operation scaled to show the location and layout of all the requested facilities. All requested facilities must be clearly identified on this diagram. Each facility should be labeled with the pollution control facility number identified in Part B of this Section and primary dimensions to help distinguish between other requested facilities. Please include labels of roadways, downstream waterways, other important landmarks and a north seeking arrow.

☒ Check this box if the required diagram was completed on a separate sheet and attached to this application.

#### Part B. Pollution Control Facility Data

For each separate requested pollution control facility in this application, provide written or typed responses to all of the following questions. Use the button below the questions to add blank questions for each additional requested facility.

##### Pollution Control Facility Number 1

Name of pollution control facility: Finishing Building

Provide a physical description including all pertinent dimensions (length, width, depth, diameter), construction materials (e.g. steel, HDPE, concrete block, etc.), and rating (e.g. 10 HP centrifugal pump). (Text box will expand.)

A reinforced concrete pit with dimensions of 201' x 101'10" x 10' deep is used to store livestock waste until the appropriate time to apply the manure to agricultural fields at agronomic rates. The building has six (6) 6' x 6' x 10' deep pumpouts, 680' of 4" HDPE perimeter tile, and 20,000 ft<sup>2</sup> of precast concrete slats

Is the requested facility used 100 percent for elimination, prevention, or reduction of water pollution? ☒ Yes ☐ No

If No, list all other uses of the facility and provide a use-percentage estimate for each of those other uses.

Original cost of the pollution control facility: \$ 750,000

Date of installation or status of installation: May 11 2022

Property Index Number (PIN): 10-04-400-001

Applicable Illinois EPA permit number(s):

Are supplemental diagrams or construction drawings for this pollution control facility attached to the application? ☐ Yes ☒ No

If Yes, please label the diagram with the specific pollution control facility number identified above.

Click "Add a Facility" to add another set of facility questions for each requested facility. A number will automatically be assigned to the additional facility. Please use this number when labeling facilities in the diagram required in Part A of this Section. Handwritten submittals must also include one set of questions per requested pollution control facility. Use the "Delete last Facility" button to remove excess questions.

Add a facility

Delete last facility

### IV. Discharge Point Locations and Receiving Waters

Provide a written description of the surface water drainage characteristics of the operation which may convey wastewater or polluted stormwater runoff from the facility to downstream waterways. Identify the location(s) on the property at which runoff or surface discharge leaves the property

Surface water flows southeast away from the building site into a ditch

Identify local ditches, streams, rivers, ponds or lakes that may receive wastewater or polluted stormwater runoff from the operation. Also identify any named waterways that are immediately downstream from the local waterway.

A stream flows 2,800 south of the building site. A map has been provided that shows the location of the stream relative to the building site.

#### V. Approvals of Application and Signature

The information on this form and attachments is submitted in accordance with the Illinois Property Tax Code, as amended, and to the best of my knowledge is true and correct.

Any person who knowingly makes a false, fictitious, or fraudulent material statement, orally or in writing, to the Illinois EPA commits a Class 4 felony. A second or subsequent offense after conviction is a Class 3 felony. (415 ILCS 5/44(h))

#### VI. Submittal of Your Application

**Completing this Form:** The absence of information requested in this form may result in denial of your application for tax certification. If information is omitted, Agency staff will determine when and if such information or data is essential and may contact you to obtain this information to complete its review. This application form may be completed and stored locally in electronic form for future printing. Electronic submittal or email submittal of this form is not authorized. If handwritten, the form must be legibly completed.

**Attachments:** Please only send attachments on 8.5" x 11" paper, do not send 11" x 17" sheets.

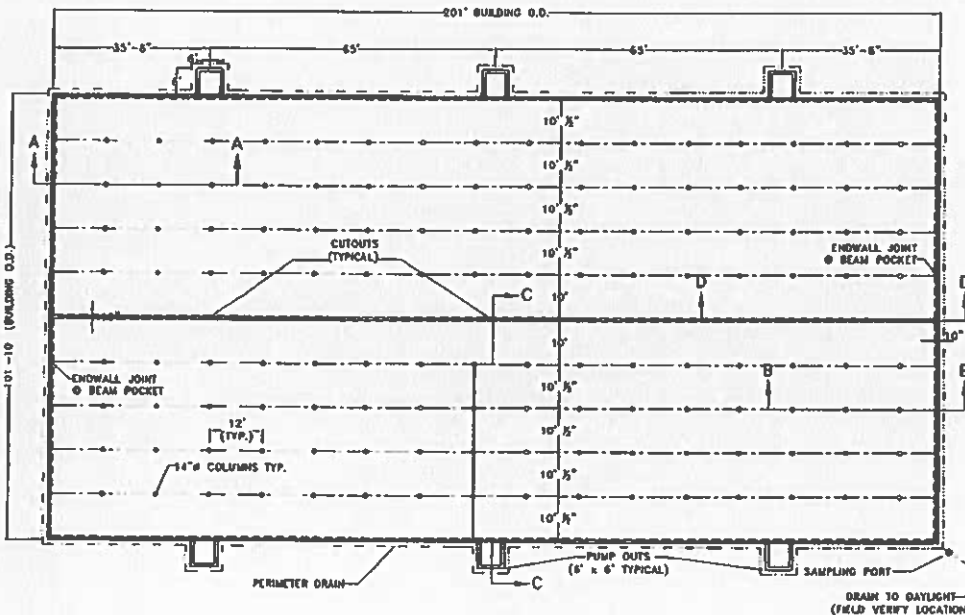

Please mail the completed and signed form and necessary attachments to:

## GENERAL NOTES

- 1.) ANY REVISIONS TO THESE DRAWINGS MUST BE APPROVED BY THE PROJECT ENGINEER OF THE COMPANY LISTED IN THE TITLE BLOCK.
- 2.) CONCRETE CONSTRUCTION SHALL MEET WITH MIDWEST PLAN SERVICE-38, CONCRETE MANURE STORAGES UNLESS NOTED OTHERWISE.
- 3.) NO CONCRETE SHALL BE PLACED ON ICE, SNOW OR FROZEN FOUNDATION MATERIAL. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ALL CONCRETE DAMAGED BY LOW TEMPERATURES AND SHALL REMOVE AND REPLACE ANY CONCRETE SO DAMAGED AT HIS/HER EXPENSE.
- 4.) THE METHOD AND MANNER OF PLACING CONCRETE SHALL BE SUCH AS TO AVOID SEGREGATION OR SEPARATION OF THE AGGREGATES OR THE DISPLACEMENT OF THE REINFORCEMENT.
- 5.) THE FOOTINGS ARE TO BE CONSTRUCTED WITH A MINIMUM OF 5,000 PSI CONCRETE.
- 6.) ALL WALLS, COLUMNS, AND FLOORS ARE TO BE CONSTRUCTED OF 4,000 PSI CONCRETE.
- 7.) CONCRETE SLATS WILL BE UTILIZED FOR FLOORING.
- 8.) THE CONCRETE PAD WILL BE A CONTINUOUS POUR.
- 9.) EXTERIOR WALL CONSTRUCTION JOINTS WILL BE INSTALLED AT 100' O.C. MAXIMUM, UNLESS OTHERWISE NOTED.
- 10.) NO VEHICLE LOADS ALLOWED WITHIN 5' OF PT/CUTTER WALLS.
- 11.) ALL BEAMS SHALL BE BUTTED TIGHT AND/OR GROUTED RIGHT THE FULL WIDTH AND HEIGHT OF THE BEAM. GROUT WILL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 5,500 PSI.
- 12.) ALL SLATS SHALL BE BUTTED TIGHT AND/OR GROUTED RIGHT THE FULL LENGTH AND DEPTH OF THE SLAT. GROUT WILL HAVE A MINIMUM COMPRESSIVE STRENGTH OF 5,500 PSI.
- 13.) NO PIPE PENETRATIONS OTHER THAN THE TYPES IDENTIFIED ON THESE DRAWINGS ARE ALLOWED. ALL WALL AND FLOOR PENETRATIONS, INCLUDING PIPE PENETRATIONS MUST BE APPROVED BY THE PROJECT ENGINEER.
- 14.) THE PRESUMED SOIL BEARING CAPACITY IS 2,000 LBS./SQ. FT., BASED ON MRC CODE S13-3 TABLE 2.
- 15.) THE DESIGN OF THIS BUILDING IS BASED ON THE 2,000 LBS./SQ. FT. SOIL BEARING.
- 16.) WATERSTOP SHALL BE INSTALLED IN ACCORDANCE WITH MANUFACTURER INSTRUCTIONS.

**Subject:** [External] Gleeson/Wind 2 Tax Certification

Good morning Darren,

I am emailing in response to your phone call earlier. We acknowledge that the copy of the construction drawing submitted for the Gleeson Tax Certification was labeled as Wind 2. These waste storage structures are identical, and are represented as such in the descriptions on the tax certification forms. Please accept this email as acknowledgment that the drawing labeled Wind 2 submitted with the Gleeson Tax Certification does correctly represent the waste storage structure that was constructed at the Gleeson site. If you need any additional information please let me know.

Thanks
