CONCURRING OPINION (by J. Anderson):

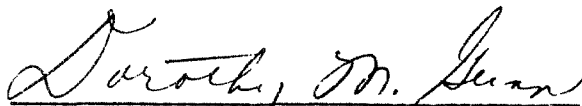

I support the Board's action regarding Special Condition No. 9, since it is appropriate for the Agency to require that it have "in hand" accurate plans and specifications.

However, I am concerned by what appears to be a "back-end" action, in that the Agency appears to have first enunciated its filing requirement by way of an add-on permit condition. In any event, this approach does not appear to be consistent with the permitting review process.

Therefore, I concur.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Concurring Opinion was filed on the 10th day of January, 1986.
