Re: Call

Saturday was good. Erika Eckert (my office manager) was their on Friday. She measured the sound at 112dB. Sound above 85 are considered harmful. I still think you could have music if you did some sound mitigation and just had music at around 80dB.

I'm getting complaints from my renters about the people hanging out in the back. Their language is pretty vulgar. Would it be possible to put a bench in the alley behind your building for them. I'd be happy to get something for them.

Noise

#### Renae,

It's been a month since we talked about the noise from the bands and nothing has been done to resolve the problem. I'd like to set up a meeting with you and the Mayor's office to discuss the noise problem with bands and with employees hanging out in back talking and using vulgar language. There are also a lot of cigarette butts on the sidewalk in front and back that aren't getting cleaned up which was discussed on April 20.

I'm out of the office next week. The Mayor has time on **May 29 at 2pm**. I have reserved that time so please check your availability.

Thanks,

Geri E. Boyer, P.E.

Renae Eichholz Copper Fire Bar and Eatery 200 E. Main St. Belleville, IL 62220

RE: Geri Boyer v. MRB Development, LLC d/b/a Copper Fire

Dear Ms. Eichholz:

Please be advised that I have been retained to represent the interests of Geri Boyer related to her excessive noise complaints against Copper Fire Bar and Eatery. As you are aware, my client both lives and works next door to your establishment. The excessive noise emanating from Copper Fire endangers my client's physical and emotional health and well-being; interferes with legitimate business and recreational activities; depresses property values; offends the senses; creates a public nuisance; and reduces the overall quality of the area, which we believe to be in violation of local ordinances and Illinois law. My client has attempted to amicably resolve this matter with you on numerous occasions with no success. As such, we are hereby demanding that you IMMEDIATELY cease and desist playing all music, including but not limited to live and recorded, inside the premises of Copper Fire Bar and Eatery located at 200 E. Main St. in Belleville, until proper sound mitigation equipment is installed.

Should you fail to immediately cease and desist playing such music in violation of this letter, my client has authorized me to pursue any and all legal recourse on her behalf. Please consider this our good faith effort to amicably resolve this matter without the need for law enforcement and/or court intervention. If you have any questions, please do not hesitate to contact me. On behalf of my client, thank you for your courtesy and prompt attention to this matter.

Very truly yours.

Renae Eichholz Copper Fire Bar and Eatery 200 E. Main St. Belleville, IL 62220

RE: Geri Boyer v. MRB Development, LLC d/b/a Copper Fire

Dear Ms. Eichholz:

As I believe you are aware, my office has been retained to represent Geri Boyer related to her excessive noise complaints against Copper Fire Bar and Eatery. We previously served you with a Cease and Desist Letter on March 19, 2021. However, you intentionally failed to comply with the terms of our demand. It is our understanding that you are planning to have music again this weekend in direct violation of our previous letter. We are hereby reiterating our demand that you cease and desist playing all music, including but not limited to live and recorded music, inside the premises of Copper Fire until proper sound mitigation equipment is installed.

It is also our position that operating your business as advertised, without a functioning kitchen, is in direct violation of both your liquor and video gaming licenses from the City of Belleville. For your information, a copy of this letter is also being sent to Mayor Mark Eckert.

The excessive noise emanating from Copper Fire endangers my client's physical and emotional health and well-being; interferes with legitimate business and recreational activities; depresses property values; offends the senses; creates a public nuisance; and reduces the overall quality of the area. My client has attempted to amicably resolve this matter with you on numerous occasions with no success. As such, we are, once again, hereby demanding that you IMMEDIATELY cease and desist playing all music, including but not limited to live and recorded, inside the premises of Copper Fire Bar and Eatery located at 200 E. Main St. in Belleville, until proper sound mitigation equipment is installed.

Should you once again fail to immediately cease and desist playing such music in violation of this letter, I will be filing a lawsuit on my client's behalf at the St. Clair County Courthouse. Please consider this our final good faith effort to amicably resolve this matter without the need for law enforcement and/or court intervention. If you have any questions, please do not hesitate to

March 29, 2021

Daniel C. Katzman Katzman & Sugden, LLC 300 South Charles Street Belleville, IL 62220

Re: Geri Boyer v. MRB Development, LLC d/b/a Copper Fire

Dear Mr. Katzman:

I am the attorney for MRB Development, LLC d/b/a Copper Fire. I am acknowledging receipt of your March 19 and March 26 letters. My client is well aware that Mrs. Boyer has complaints, but your client has offered no clarity to the extent of the problem. My client has been asked to cease all music while your client has not provided any evidence there are any noise violations. If you want compliance with a specific ordinance, please identify with specificity which noise or gaming ordinance you believe my client is violating.

Your client serves on a commission dedicated to inviting business to downtown generally, and main street specifically. That committee approved my client's business three years ago. My client has had live music the entire time. Your client's decision to pursue her complaints now is questionable. My client, who spent a year fighting to survive under COVID-19 restrictions, and then suffered a property casualty when the restrictions eased, now has the additional trauma of dealing with your client's threats and accusations of depressing property values, creating a public nuisance and reducing the overall quality of the area with absolutely no facts.

My client is well aware of your client's special relationship with the Mayor. This is the Mayor that also serves at the Liquor and Gaming Commissioner. The fact that you carbon copied the Mayor on both letters cannot be interpreted in any way other than an intimidation tactic. If my client's liquor license is threatened in any way by the Mayor, we will know why.

If you want to talk about the exact ordinances my client is violating and present any facts your client may have, then I am willing to discuss a possible resolution to this dispute. Thank you.

Sincerely,

GREENSFELDER, HEMKER & GALE, P.C.

On Dec 13, 2021, at 8:34 PM, Renae Eichholz < reichholz@precisionpractice.com > wrote:

To everyone,

We are absolutely empathetic and sympathetic to the caregiving that is needed for Geri's Aunt. Both Mark and I have recently lost family too.

Copper Fire's live music has been instrumental in reviving the business post Covid and after sustaining water damage to 45% of the building and losing the kitchen for 4 months.

We are not trying to be difficult. We are simply trying to run a business and keep our employees employed.

We have been demanded to cease all sound and music. This is an unreasonable request especially since we have yet to know exactly the extent of sound levels in the Boyer's apartment or any of the other spaces in the Boyer's building. Meaning, in all this time, we have never heard for ourselves the noise levels in the Boyer's apartment during any live music events.

We have tried to cooperate, but besides text messages, complaints, rumors from other businesses and visits from the police, we've never been issued a violation. We have only received one report from the Boyer's expert that was conducted without us or the police present. And although this report contains quite a bit of incorrect information, we went ahead and implemented a maximum decibel limit in the bar for our live music to try and ensure sound levels remain below the State legal limits after 10:00 pm and 25 feet from the source of the music.

Please also be aware that we do not have bare, exposed brick on our wall and have not modified the wall in our bar adjoining the Boyer's building. Yet, we are being asked to modify our business so that zero noise penetrates the adjoining walls. The Boyer's demands are unreasonable.

We want this resolved as much as anyone, but do not feel we are doing anything wrong, breaking any laws nor that any noise mitigations demanded are our responsibility.

We will not be modifying our scheduled events or sound levels any further until we can hear the sound levels on the Boyer's side for ourselves. We want undeniable proof that we are violating sound/noise laws. We are happy to do so in the attendance of the police, EPA and/or attorneys if that is what will start bringing this to some type of resolution and conclusion.

Sincerely,

Renae S. Eichholz, CPC

**Subject:** Re: [EXTERNAL] RE: Music Levels

Paul,

Thank you for including me and my attorney on this email. My Aunt has terminal cancer. She has no children and could not go home. She will be living with us until she passes.

The music which started at 7pm this evening is too loud. She is trying to watch TV to take her mind off this terrible situation, and the music is competing with the TV.

While you have never cared about our discomfort, I would appreciate your cooperation during this difficult time.

This sucks. It is a set up. However, it is a good setup.

Is there any possibility in your mind that this is a lie? If yes, I think I should talk to the attorney and get specifics. However, if we get the specifics and it is true, we will need to make some change. I am not suggesting ending music. I am suggestion some lower level temporarily.

Geri,

I'm sorry about your Aunt. I can understand as I lost my mom last year after a year in Hospice.

I was here all night. Can you give me the time(s) you could hear music? I ask because the sound shouldn't have been constant as they were below our max but internal decibel all night.

EXHIBIT C-10

iMessage Nov 6, 2020, 11:58 PM

Please turn music off at Copper fire.

Fri, Jun 11, 9:41 PM

We can hear the music tonight.

How loud? What is you're reading?

We will ask them to turn it down but our reading is lower than last night

I'm just hearing it.

We heard it last night too but forgot I was suppose to text.

We asked them to turn it down. Better?

iMessage

EXHIBIT C-11

It's lower than last night

It must be a different frequency. Definitely sounds louder here.

Same as Friday and
Saturday. Everyone can
talk and hear freely in our
place. I called in and talked
to staff and one customer
while music was playing
and I couldn't hear the
music and we could hear
each other clearly.

I walked by and it could be heard to the other side of Main Street with doors closed. That's a lot louder than the music we tested and couldn't hear in loft. Just take it down a little more. You know everyone can hear it and it will be even more enjoyable.

It's probably the drums and bass.

We had drums and bass Friday and Saturday as well.

> Don't know what to tell you. It's not a perfect science that's why we're doing a trial. There's judgement that has to be used as well.

It's low and our customers are happy and saying it's not loud. What is your phone app decibel reading?

> I'm not measuring. I'm going on hearing. If your staff goes outside and closes the doors and they can still hear the music, it's too loud.

The decibels are lower than any of the last 3 days. We are using a consistent testing method. One person acoustic can be heard through the windows with the doors closed and it's not too loud. If you want to record and send it to me so I can hear how loud it is on your side, that might help me understand.

That doesn't work. We aren't going for loud. We are going for not hearing your music.

Mark is on his way up and would like access to hear it.

Tell him to come to front and text me when he gets here

I am out of town. He is

I am out of town. He is heading there but I don't know exactly when he will be there. Staff walked across the street and had to listen hard to hear anything. Noise on Patio can be barely heard. Decibels are reading lower than our house music. I will tell him to text you when he arrives.

# It's quieter now.

Going outside with the doors closed and seeing if it can be heard on the sidewalk is a good test. The music when we tested couldn't be heard outside. Frequency at a decibel reading takes an expert but hearing is mostly the same for everyone.

I thought you said you heard it across the street. My staff could hardly hear it. Are you saying you had the sound company, it couldn't be heard outside?

No. I'm saying that when you and I and the attorneys sound checked when we couldn't hear it in my building we also couldn't hardly hear it at your tables outside. That's a great easy check.

When I walked to the funeral home earlier it was loud at your outside tables.

When we put the house sound all the way on, we could hear it outside the closed doors.

But at a reasonable level.

This doesn't have to be so

But at a reasonable level. This doesn't have to be so hard.

Fri, Jun 18, 9:50 PM

Just getting home and putting grandkids to bed. Music is pretty loud.

It should be better now

Yes. Thanks

I can still hear it but we can live with it.

Paradise by the dashboard lights was too loud

Fri, Jun 25, 10:22 PM

Thank want you go on record - this is too loud.

Right now?

Renae >

We can still hear every word of the song.

We turned it down over 10 decibels

It's still clear over here. It's after 11 is it ending soon.

We have turned it down twice since 10:00 and I can't bring it down more. It's reasonable.

This shows that bands that size can't work inside. I've got a 5 year old up because it's not quiet enough for him to sleep. We can talk about it on Monday.

We are doing everything we can to comply with the law and that is 63 decibels and below on your side which I think we've been

We are doing everything we can to comply with the law and that is 63 decibels and below on your side which I think we've been doing.

I'm sorry. Noise isn't as simple as decibel readings.

I don't like this any more than you do.

Sun, Jun 27, 4:45 PM

Again, for the record, we can hear "Don't Stop Believing" playing. Just got home.

They are averaging 80 decibels. It can't go down lower.

Fri, Jul 2, 10:10 PM

Sun, Jul 11, 5:34 PM

I've been gone this weekend but came home to loud music. Doug said last night was loud here as well. Please get levels turned down.

It is not loud and was not loud yesterday or last night. What are your readings?

Renea, I'm not measuring sound. I'm telling you what we hear. Remember we agreed that you'd keep it to a level that we couldn't hear. That's why I was texting you to let you know when we could hear music.

### Geri

That is not what we agreed to. In fact we haven't agreed to anything. We are following sound level ordinances and the laws in place.

#### Renae

The law in place in the City and the county is no sound off the premises. What's going on? We agreed to weeks of a test. You're attorney agreed to that. Are you changing the terms of the test or saying test is over.

# That's not the law

Yes it is the police just aren't enforcing it.

## That is not true

Sun, Jul 18, 5:04 PM

We've been tolerant of loud music last night and all afternoon. Please end this

Mon, Aug 16, 10:16 AM

You staff are putting trash

You staff are putting trash in our dumpster. Can you let them know which one is yours?

Thu, Sep 2, 9:02 PM

Band volume needs to come down.

Fri, Oct 15, 9:34 PM

Please get the volume of this music turned down.

Sat, Dec 18, 2:38 PM

my Aunt is suffering.

I'm here and am happy to run up and hear it.

Renae >

down. We can hear it and my Aunt is suffering.

I'm here and am happy to run up and hear it.

Wed, Dec 22, 9:34 PM

We are caring for a dying woman. We are not dealing with you as well. Just do the right thing.

## Stop texting me

The nurse that sat with her on Friday is going to email the attorneys. She was appalled by the noise.

Stop disrupting our lives.

Stop harassing us. We've asked to hear it. We've never been sent even a recording.

Thu, Dec 23, 7:06 PM

Music is too loud.

They haven't started yet
Stop texting me

Thu, Dec 23, 9:07 PM

This is pushing it too far. Drums when you know we have a dying person here.

Stop texting me

Wed, Dec 29, 7:13 PM

I am once again documenting for the lawsuit that we can hear the music (3 piece band with amp). Please turn it down.

Stop texting

Fri, Jan 7, 7:59 PM

Music is too loud (Jan 7) at 8pm.

Fri, Jan 7, 10:51 PM

My grandsons can not get to sleep with the music so loud. Please turn it down.

Delivered

Sat, Jan 8, 8:25 PM

I just got home (Jan 8) at 8:30. The music is too loud and there is almost no one in the restaurant. Please turn music down.

Sent as Text Message

## **NOISE & Tabs**

Louder is not better. We have a decibel limit of 85-89 on Wednesday & Thursday and 88-92 Friday-Sunday afternoons. We monitor this and enforce because there are state ordinances we follow.

Set your sound and when it's perfect, do not change it! Do not go up or down on levels. If you are too low, we will tell you. If you are too high, we will ask you to bring it down. If we must ask you more than twice, you are at risk of being shut down, a reduced fee and asked not to return.

Copper Fire offers a \$30 tab for duos and \$50 for 3 or more musicians.

Please acknowledge our staff. We are always short staffed but they work their tails off for everyone. If someone needs something, they can go to one of the bars and someone will take care of them. Remind the customers to tip their bartenders and servers.

Interacting with the customers is encouraged. They will often buy you drinks and food and tip you well. We have awesome customers!

## NOISE & Tabs 2023

Louder is not better.

Exhibit 18-A

Decibel limits for 2023:

Wednesday, Thursday & Friday Evenings & Saturday Afternoons Friday & Saturday Evenings (preference is no higher than 90)

We realize there may instances when the decibel rises above 92, but we will not tolerate it to be above 92 for long and expect you to adjust immediately if asked. Please be respectful to our staff and managers if they make sound change requests.

- Set your sound and when it's perfect, do not change it!
- If it gets crowded, do not increase your sound levels unless we ask you to. If you are too low, we will tell you.
- If you are too high, we will ask you to bring it down. If we must ask you more than twice, you are at risk of being shut down, a reduced fee and asked not to return.

We monitor this and enforce because there are state ordinances we follow.

Copper Fire offers a \$30 tab for duos and \$50 for 3 or more musicians.

Diane Yarbrough Didoesn't recommend Copper Fire. December 4, 2021 - 8

We were there at 5 PM. Music was blaring. Food was not good. We had burgers, pastrami and Shrimp Po Boy. ALL of the food was bad. If you go. Bring cash as they charge extra to pay with a card. Our bill was over \$100. They need to not charge the customer with that large of a bill.

Disappointing food · Noisy

Diane, we appreciate your review but today was a charity pub crawl. We had music/DJ from 3-6 and try to make everyone aware prior to visits on all social media platforms. We rarely get complaints in the food and hope you brought any issues you had to someone's attention. There is a sign posted at the front entrance and it is posted on the receipt that there is a credit card service fee. We have an ATM and everyone has a choice to pay cash or credit. I'm sorry our place is not a good fit for you during a busy time. If you decide you'd like to try us again, please call in advance and avoid times there are scheduled events snd music, Renae, Co-Owner

Patty Kress ☑ doesn't recommend Copper Fire. November 24, 2021 - ②

Food, drinks service were lousy. Music way too loud. We won't be back.

3 comments

#### Renae Eichholz

If you visited tonight, you came on the night before Thanksgiving and we had a DJ. We were busy and are always short staffed with bar service if a server is not available. If it was too loud, you may have caught just the beginning as he fine tuned the volume. We would love to know what was lousy about the food. We're a bar and you are right...we are probably not a good fit for you if you were expecting a nice sit down experience with no music and a place that is not busy. Renae, Co-owner

9/18/2024

Not a good place for either food, drink or visiting with fellow diners. The atmosphere is poor with very high ceilings that have no noise damper. It is so loud you can't talk to the one sitting next to you. Food was meh....! had the chicken and turkey panini. It was just very average and dry. My friend had the avocado salmon salad. It was just ok: I would expect more from a 20.00 salad. Overall I do not recommend.

Comment from Renae E, of Copper Fire Bar & Eatery Business Owner

9/18/2024 - Hi Mark,

Thank you for sharing your thoughts with us. We're sorry to hear that your experience didn't meet your expectations, especially with our Chicken & Turkey Panini and Avocado Salmon Salad, which are favorites among many of our guests. It sounds like they may not have been what you were expecting, and we understand how that can affect your overall experience.

In terms of the atmosphere, we know our tall ceilings can sometimes contribute to a noisier environment when it's busy. While we've explored options for reducing sound, the unique architecture of our space limits what we can do. That said, we're always mindful of this and do what we can to create a comfortable atmosphere for

We truly value your feedback, and we'd love to have you back to experience Copper Fire again. Please feel free to reach out to us directly so we can ensure your next visit is more in line with what you're looking for!

#### YELP-2

I visit Copper Fire somewhat often, and I've had a pretty consistent experience every time. When they have live music playing on their indoor stage, the music is always unbearably **loud** and unpleasant inside the restaurant. I prefer to eat outside on their patio when the weather is warm.

The service can be a little slow when they are crowded, but I've never had any major issues with it. I really love their grilled chicken pesto panini, which is served on a warm, flaky croissant. They also have really delicious sweet potato fries.

Mar 18, 2023

Gracie, thank you for your great review. I'm happy to hear you still come for the food and avoid the live music times. We hope to see and serve you again soon! Renae, Co-Owner

#### YELP-3

Food was ok, music so loud we couldn't talk to our friends and we were in the back. My friend ordered a salad and chill and asked for "lots of crackers". When we got the bill crackers were 3.00. I also got a salad and it came with no crackers. . \$3.00,Really??? Not worth the ill will created. Hope that decision gets reviewed it wasn't the waitress. . .she was really nice.

Comment from Rehae E, of Copper Fire Bar & Eatery Business Owner

1/2/2023 Joan, we don't serve crackers with the salads anymore as they were getting wasted. I will see what we can do going forward. We have live music Wed & Thurs 6-9, Fri & Sat 8-11 and Sat & Sun 2-5. I hope you will give us another try on the hours we don't have live music! Renae. Co-Owner Read less

## **Copper Fire Google Reviews (Newest to Oldest)**

EXHIBIT C-21

#### **GOOGLE-1**

The food wasn't good at all, it all tasted like it just came out of microwave, the place is sood loud you couldn't even hear ppl at your table. And then the had a one person playing a guitar. Waitress ask do you want your check or will you be staying for the band... the band?!? no thank you this is why I'm trying to get out quick. This definitely wasn't the atmosphere I was looking for and definitely for me.

Food: 1 | Service: 1 | Atmosphere: 1

Chire, I know the breakfast slinger you received and ate did not come from a microwave. Our bartender/server is surprised by this as she said there were no complaints and everything was eaten. It's disappointing something wasn't said at the time so as not to receive a one star because we are still not sure if what was wrong with the slinger. You checked out at 2:06 and music started at 2:00 and was an acoustic solo. We were busy at the time and maybe it was loud due to a lot of people there? We realize not everyone likes live music and try to keep everyone informed as to when we have live music. Sorry we aren't the place for you. Repair Co-Owner

#### GOOGLE-2(A)

Food is good but overpriced. The menu does not reflect the actual price you are charged. They need to update their menu to reflect current menu prices.

They often have live music but the music is always way too loud to enjoy it. There's no reason for that kind of volume in the middle of the afternoon.

The service is generally slow, but the servers are usually nice.

UPDATE: While owner attempts to be responsive are nice in theory, the responses feel dismissive.

Cost discrepancy example: I ordered an "\$8" salad and was charged \$8.33. I thought it was the tax, but that was not the case as the tax was listed separately. Similar upcharges appeared on every item. —- I did not ask the server to explain because it had already taken so long for service, and I just wanted to leave.

Slow service: Apparently they make paper, pens, and water from scratch! Slowly! ... The food is slow to come out, but so is everything else. Slow to get drinks. Slow to get a check. Slow to receive my change or card back. Just slow.

#### GOOGLE-2(B)

Music: I've been to this restaurant numerous times (the food is good). Nearly every time they've had live music and the music is ALWAYS too loud. Not sometimes, ALWAYS. ... Owner response is not to come on Wednesday, Thursday, Friday, Saturday or Sunday because of the live music. Of course, they're closed Monday and Tuesday. I mean, honestly. I'm not the only person who thinks it's too loud.

#### GOOGLE-2(C)

Monday and Tuesday. I mean, honestly. I'm not the only person who thinks it's too loud.

Danica, please share with me any pricing problems with the menu. I agree that our food service may be slow. We aren't sure how to fix that. All orders are made to order and fresh. We do have live music on Saturday & Sunday afternoons, Wednesday & Thursdays 6-9pm & Friday & Saturday evenings 8-11. Sometimes the musicians, especially if new struggle to get the sound right. Watch the events and come at times we don't have music. I hope our server addressed any menu item pricing at your visit. Message me if not and I will take care of it. Renae, Co-Owner

Update: Danny, the menu states that all menu pricing listed at 3.99% cash discount rate. It also states on the receipt the price and also lists the cash discounted price. Copper Fire Bar & Eatery is just that...a bar with good food and live music. We are not a quiet restaurant with no noise. I am giving options of different times like brunch, lunch and dinners before 6:00 on weekdays and before 8:00 on weekends to visit without live music. But even then, when busy, is not quiet. Our business model is that we are a bar with good food and live music including weekend afternoons. I tried to resolve any issues with you but I can't fix your complaints.

#### **GOOGLE-3**

This place is definitely unique. It would be more pleasant if the band wasn't so loud. The only reason why I am rating this place is so low is due to seeing a server in real time take food from someone's order. Like WTH??? What do you expect when you order a bunch of kids.

Food: 2 | Service: 3 | Atmosphere: 2

Press and hold to react

Cece, I'm assuming this was from last night during the Shriner's Parade. We were absolutely slammed for a few hours. The band last night was a new one. Very good but we battled over the noise and they did finally get it in check and it was pleasant. I'm sorry you experienced a crazy night and hope you will try us again when there's not a festival or parade happening. Renae, Co-Owner

#### **GOOGLE-4(A)**

Food: 5 | Service: 4 | Atmosphere: 3

Recommended dishes: Sandwich, Fries

Parking space: Plenty of parking

Parking options: Free parking lot, Free

street parking

Kid-friendliness: It is very blatantly a bar primarily with both high & low tables scattered along the sides of the tall expansive open bar space, an obnoxiously loud bar even when few people are there, so not really a family-oriented environment by any means yet noisy children might not sound so obtrusive.

Kendra, thank you for the good review. You described our place well and we are definitely a bar with good food and lots of live music. We are kid friendly and quieter during the brunch, lunch and early dinner hours. The Patio is also a great choice. It's also helpful to sit on the slushee bar side or back of the restaurant for less noise. The two story room has been a beast to control sound. Your review is a reminder to me to post about the various sections and times to enjoy a quieter

#### **GOOGLE-5**

Not a bad place but the band was far too loud, even in the private room upstairs. My burger was just that. A burger. Nothing to rave about. Doubt I'd go again when in town. Was only there for a private party. I also forgot to mention that my food was just placed on a table no one was sitting at without me being told it was ready or even there. No sure how long it sat there before I noticed it.

Food: 1 | Service: 3 | Atmosphere: 1

 $\heartsuit \downarrow 1$ 

Please contact me so I can better understand what private party you were at upstairs so we can improve on the experience. The only thing I can think of is it was a private party of less than 25 people which we rarely do. And we rarely have order off the menu upstairs or serve burgers upstairs. I'm sorry you didn't love your experience and hope we can learn from this. Renae, Co-Owner

and the staff couldn't hear us. We asked for slightly lower volume and the band just got louder. It was OSHA-violation levels of sound. I pity the staff. Never going back.

Check the completely idiotic reply.

Marc, thanks for the review. We measure the decibels. If you were there for the Beatles Tribute tonight or while we have live music, we stay within the legal decibel limits and time frames. We are a bar that has live music Wed/Thurs 6-9, Fri/Sat 8-11, Sat/Sun 2-5 and very occasional Sundays 6-9 so you should try us around those hours if you're coming for the food and we open at 7 am for breakfast. Renae, co-owner

place was loud and food was mid, went tonight with my family it was just all around just a disappointment.

Everything I wanted was supposedly not on the menu.

Harry, I'm sorry you were disappointed. We are a busy bar with an extensive menu. We make our orders fresh daily, often sell out and do not over order so as not to waste. We hope you try us again for lunch or an early dinner to avoid live music and crowds. Renae, Co-Owner

Matt, thank you for the great review! We hope you will visit us again soon! Renae, Co-Owner

...

Good drinks. Loud bands. Fun times. Haven't tried their food. A little higher than I want to spend at these venues. Good place for a weekend date.

Husband and I went in to grab a bite. There was a **band** playing but it was too loud for the space. We were out at a table near the back but didn't get waited on, not even a beverage was offered. Folks that got there after us were given service we sat there for 30 minutes and left. Not impressed.

Response from the owner 2 years ago

Barbara, I am so sorry this happened and our servers didn't catch you. I hope you tried to get there attention and am sure it was an oversight. We and our staff always strive for great service.

We do have music 5 nights a week and on Saturday and Sunday afternoons. You can avoid music times Wednesday through Fridays before 8:00 pm, Saturday between 11-2 and 5-8 and Sundays between 11-2 and after 5 pm. You must have come between lunch and dinner hours or for a later bite. That is when we have live music.

Again, I am truly sorry for the oversight and hope you will give us another chance.

Renae, Co-Owner

Response from the owner 2 years ago

Joshua, thank you, sincerely for these comments. As much as we love the Live Music, we have a hard time controlling the musicians. The bar is two stories and the sound travels uncontrollably. We have a max decibel limit and are instilling a cancellation notice to the bands if they will not abide by our rules. Hang with us as we truly listen to our customers and continue to improve, Join us during the times we don't have live music until we get this under control. Ask for me next time you are there! I really appreciate your feedback. Renae, Co-Owner

Geri,

This report was revised on May 21, 2021 to update information from the Belleville Code of Ordinances and St Clair County Code.

Per the estimate dated April14, 2021, a sound study was performed to assess a perceived noise annoyance created by Copper Fire restaurant at 200 E Main St, Belleville, Il. The sound study included sound level measurements in the second story loft adjacent to the restaurant on Friday April 23, 2021 from 3:55-4:00pm and 7:30pm to Saturday 2:33am and on Saturday April 24 from 10:51am to Sunday 1:51am.

To characterize the measured sound levels, the following is a list of and type of music performed during the measurement period;

Friday April 23 night- Steel Creek- 6 member acoustic country band

Saturday April 24 Day, 11:00 am- Billy Barnett- solo acoustic guitarist;

3:00pm Moonbuzz Acoustic- two person acoustic band

Saturday April 24 night – DJ - 80s playlist

#### General Information-

The dividing wall between the restaurant and the loft is a brick wall consisting of brick on both sides with an airspace of 10-12 in. Neither side is plastered. It is estimated that this wall has an STC= 55 and a field or ASTC=48. Although the STC rating of a partition is to estimate blocking of speech, it can be used to estimate the sound blocking of music.

In order to ensure that sounds created for various purposes don't become noise annoyances for the community, ordinances and guidelines are in place that provide specifics limits for daytime and nighttime sound levels. Ordinances can be in place at the local, regional or state level. Guidelines are provided by the World Health Organization (WHO), federal agencies, the Acoustical Society of America, the Institute of Noise Control Engineering and others.

EXHIBIT C-22

#### Terms:

Noise – unwanted sound

SPL-Sound Pressure Level - This is usually stated as un-weighted unless specified.

SPL (A) – The A-weighted sound pressure level. This is the SPL with a weighting applied which corresponds with human hearing.

Leq, T – The equivalent sound level measured over the measurement period, T.

Leq, A, T- The A weighted sound level measured over the measurement period T.

LA, max – The A weighted max sound level.

#### Ordinances-

- The City of Belleville, IL. Code of Ordinances includes a restriction on noise under Title XI: Business Regulations, Chapter 110 General Licensing Provisions § 110.31 PROHIBITION AGAINST NUISANCES.
  - (A) No business, trade or occupation shall be carried on in any manner which will create a public or private nuisance, nor shall such operation be carried on in a manner which will produce noise, odor or other physical disturbances beyond the property line of the premises at which such operations take place, or otherwise threaten the public health, safety, morale or welfare.
- 2. The St Clair County Code, Chapter 40 Zoning Code, also addresses noise annoyance in Article VIII (p.170), General Requirements and Standards, Section 40-8-2
  - (B) Noise emanating from any use shall not be of such volume or frequency as to be unreasonably offensive at or beyond the property lines. Unreasonably offensive noises, due to intermittence, beat frequency, or shrillness shall be muffled so as not to become a nuisance to adjacent uses.
- 3. The State of Illinois provides a regulation governed by the Illinois EPA referred to as: Noise Free Regulation

Title 35: Environmental Protection

Subtitle H: Noise

Chapter 1: Pollution Control Board Part 900

General Provisions Part 901: Sound Emission Standard and Limitation for Property Line Noise Sources.

The regulation limits sound received in a Class A Land (residential) emitted by a Class B Land (restaurant/bar). The allowable un-weighted octave band frequency sound pressure levels (dB) are provided for daytime 7am to 10pm and nighttime 10pm to 7am as summarized in Fig. 1 below.

SPL (dB) Limits measured in Land Use A, Emitted by Land Use B		
Octave Band center frequency(Hz)	SPL (dB) Daytime	SPL (dB) Nighttime
32	72	63
63	71	61
125	65	55
250	57	47
500	51	40
1000	45	35
2000	39	30
4000	34	25
8000	32	25

Fig. 1

## **Community Guidelines**

The WHO provides guidelines for acceptable sound levels including for understanding speech and for sleep. The guideline provided for nighttime is an equivalent A-weighted sound level Leq A= 30dBA and a max sound level LAmax= 45dBA in order to provide a good environment for sleep.

In addition, Noise Criteria (NC) is provided as guidelines for different living spaces. The NC values are determined by comparing un-weighted measured octave band sound levels in a space and comparing them to a set of NC curves. For a bedroom, the NC rating should be between 25-35 and for a general living space between 30-40.

#### Sound Level Measurements of the Boyer Second Story Loft

The measurements were conducted over the time periods stated above capturing sound levels covering both daytime and nighttime hours. Although the equivalent sound level for the entire measurement period was measured, the sound level for any given time was also measured. In addition sound levels were measured by octave band for the entire measurement periods, and were also captured for a specific time period. This allowed for analysis of measurements for the daytime and nighttime periods of time.

In addition, per the EPA regulation the measurement microphone can be placed anywhere in the receiving room as long as it is no less than 25ft from the sound source. Due to the sound in the restaurant being spatially distributed, it was difficult to determine the actual 25ft distance from the source. It was assumed that the band or DJ was located on a stage on the outside glass wall adjacent to the brick dividing wall on the first floor. The distance from a source sound 3ft in front of the stage to the second story microphone placed 6 ft from the wall was estimated to be about 30ft. It should be noted that if the microphone was placed 3ft from the wall and still within 25 ft from the sound source, the measured sound levels would be expected to be 3-5 dB higher.

The Daytime ambient level measured Friday afternoon was about SPL (A) =30dBA.

The Nighttime ambient level measured both Friday and Saturday night at 1:00 am was SPL (A) =29dBA.

In order to determine if sound levels in the loft exceeded the levels shown in Fig 1, the measurements were separated between the daytime and nighttime hours. Although music was played during daytime hours on both Friday and Saturday, they did not exceed the daytime criteria. The measured levels during the nighttime, after 10pm, were captured and compared to the criteria as shown in Fig.2. The nighttime measurement periods were for 1 hour or more. The octave band sound levels shown occurred one or more times during the measurement period and were adjusted for octave band ambient levels.

Octave Band	EPA REG Nighttime	Loft -Friday night	Loft- Saturday night
Frequency (Hz)	not to exceed dB level	after 10pm (dB)	after 10pm (dB)
32	63	68	67
63	61	64	52
125	55	49	53
250	47	45	46
500	40	38	45
1000	35	34	42
2000	30	27	39
4000	25	22	34
8000	25	18	30

Fig. 2

The average sound levels during the 10pm - 11:30pm time periods on both Friday and Saturday are shown in Fig.3 below

WHO Recommended sound	Loft- Friday	Loft Saturday
level for sleep		
LeqA=30dBA	10:26-11:00pm(band on break 10-10:26)	10:00pm-11:25pm
		LeqA(1.5hr)=39dBA
	LeqA (.5hr)=38 dBA	

Fig. 3

### Analysis-

- 1. Unwanted sound, noise, is being created across the business property line, which does not meet both the Belleville or St.Clair County referenced codes.
- 2. As shown in Figure 2, the octave band sound level measurements exceed the Illinois EPA Noise Regulation.
  - An example of the measured octave band levels for a specific time is shown in Appendix A. (As noted, if the microphone is moved closer to the property line, but still within 25ft from the source, the levels would increase resulting in several more octave bands not meeting the criteria.)
- 3. Although the daytime measured sound levels did not exceed the EPA limits, given that they were continuous for a long duration, they can be perceived as a noise annoyance.
- 4. As shown in Fig.3, the average nighttime sound levels do not meet the WHO guidelines.
  - Given that the WHO recommendation for sleep in a quiet environment is LeqA=30dBA and LAmax=45, the measured LeqA=39dBA and LAmax=48 would not provide a good environment for sleep. For reference the sound level at 1 am was about LeqA=28dBA.
- 5. The NC rating of 45 does not meet the recommended NC ratings for a bedroom and for a living space.

- 6. The daytime and nighttime ambient sound levels are very low at 28-30dBA indicating that in general the loft is a very quiet living space when music is not being played in the restaurant.
- 7. A general estimate of the sound level in the loft from music in the restaurant can be calculated as follows. Live music or a DJ can create a sound level of about 94dBA. Assuming the sound is spatially distributed in the room, but may also decrease with distance, and the brick wall provides about 48dB of sound blocking, the expected sound level in the loft would be 94-9 ( for distance) 48(wall) = 37dBA. This correlates with the measured average sound level of LeqA=39dBA.
- 8. In order to reduce the sound levels in the loft and meet the local, county and state regulations, it is recommended that the sound levels in the restaurant be reduced by 10dB or more and managed to provide less of a noise annoyance during the daytime and provide a quiet environment for sleep during nighttime hours.
  - In addition sound blocking provided by the brick wall could be increased by adding mass to the inside of the restaurant brick wall. This could be a layer of gypsum drywall over the brick wall. An analysis would be needed to estimate the thickness of the drywall and the resulting transmission loss and field ASTC.
- 9. It should be noted that the measured sound levels corresponded with the types of music played during the measurement period.

The sound levels were-

Lowest during the Saturday morning and afternoon time periods when 1-2 person acoustic music was played.

Higher Friday night with an acoustic band.

Highest Saturday night with a DJ.

It is expected that when a larger member, amplified rock band plays in the restaurant, the measured sound levels in the loft would be much greater than those measured during this measurement period.

Please let me know if you have any questions about the above.

**Thanks** 

Mike Biffignani President Sondare Acoustics 3145688042

## Appendix A

#### Notes;

- 1. The solid red line is the un-weighted sound level measured over the time period. The sound level starts to increase at about 8pm and until about 11:25pm. There is also an increased sound level earlier in the day for about an hour.
- 2. The solid, wide blue bars are the average un-weighted sound levels for each octave band over the entire time period.
- 3. The black lines are the un-weighted octave band levels for the specific time selected by the cursor. In this example the cursor is at 10:38pm Saturday. The octave band levels are considerably higher at this time when the music is being played.

Electronic Filing: Received, Clerk's Office 09/30/2021 \*\*PCB 2022-009\*\*

Sondare Acoustics Nov. 26, 2021

Geri Boyer President Kaskaskia Engineering Group

Reference: Sound Study #2

Geri,

Per the estimate dated Nov.16, 2021, a second sound study was performed while a band with amplification was playing at the Copper Fire restaurant at 200 E Main St, Belleville, II. The sound study included sound level measurements in the second story loft adjacent to the restaurant on Nov.21, 2021 from 2:00pm-5:00pm.

To characterize the measured sound levels, the following is a list of and type of music performed during the April 23-24 measurement period and on Sunday Nov.21;

Friday April 23 night- Steel Creek- 6 member acoustic country band

Saturday April 24 Day, 11:00am-Billy Barnett-solo acoustic guitarist;

3:00pm Moonbuzz Acoustic- two person acoustic band

Saturday April 24 night – DJ - 80s playlist

Sunday Nov. 21, daytime- Saloonatics- Rock/Pop Band

#### **Summary-**

The average un-weighted sound level, Leq, was about 3dB higher for the 3hr daytime time period on Sunday, Nov. 21, 2021 than the nighttime 1.5 hour time period (10-11:30pm) on Apr.24, 2021. An increase of 3dB may be slightly perceivable.

The average A-weighted sound level, LeqA, was about 3dB lower for the respective day and time periods.

This can be explained in that the low and high frequencies were slightly higher (un-weighted) but the middle frequencies were slightly lower.

Structural vibration levels due to the sound levels were not significant.

EXHIBIT C-23

#### General Information-

Although this still needs to be verified by looking at architectural drawings, after viewing the loft and Copper Fire exterior walls, it appears that there is not a large airspace between the two walls. Assuming the two walls combine to be 8-12" brick, the transmission loss could be 51dB instead of 55dB. An STC of 51 would equate to about 44 in the field due to flanking.

#### Terms:

Noise – unwanted sound

SPL-Sound Pressure Level - This is usually stated as un-weighted unless specified.

SPL(A) – The A-weighted sound pressure level. This is the SPL with a weighting applied which corresponds with human hearing.

Leq, T (dB)— The equivalent sound level measured over the measurement period, T.

Leq, A, T (dBA) - The equivalent A-weighted sound level measured over the measurement period T.

LA, max – The A weighted max sound level.

#### **Ordinances-**

- 1. The City of Belleville, IL amended the Title XI: Business Regulations, Chapter 110 General Licensing Provisions § 110.31 PROHIBITION AGAINST NUISANCES. The new ordinance No.8996-2021 states;
  - (A) No business, trade or occupation shall be carried on in any manner which will create a public or private nuisance, nor shall such operation be carried on in a manner which will produce unreasonably offensive noise, odor or other physical disturbances at or beyond the property line of the premises at which such operations take place, or otherwise threaten the public health, safety, morale or welfare or quality of life. Unreasonably offensive noise may include noises due to intermittence, beat frequency, volume or shrillness so it does not become a nuisance to adjacent uses
- 2. The St Clair County Code, Chapter 40 Zoning Code, also addresses noise annoyance in Article VIII (p.170).
- 3. The Illinois EPA provides guidelines for noise annoyance but states that complaints can be made with and without measurements if the noise interferes with the enjoyment of life. They also state that since they do not have inspectors to investigate, complaints should be made with local governments. A complaint has been filed with the IPCB on 9/17/2021.

# Sound Level Measurements of the Boyer Second Story Loft

On Sunday 11/21/2021 sound measurements were taken from 2-5pm. The measurement process and procedure was the same as used on April 23-24, 2021. A 4 member rock/pop band was playing at Copper Fire. The band was setup in the front of the bar adjacent to the loft wall. The band was using large speakers and significant amplification. (see note below).

The Daytime ambient level measured in the loft before and after the band started playing was about 30dBA.

The maximum sound levels for octave bands measured on Sunday 2-5pm compared to Saturday night April 24 10-11:30 pm are shown in Fig 1 below.

Octave Band	Loft- Saturday	Loft – Sunday	Loft- Sunday	Loft 11/21
Frequency (Hz)	night 4/24 @10-	11/21 2-3pm	11/21 4-5pm	5:05-5:07
	11:30			(Last song
				played)
32	67dB	63dB	59dB	67dB
63	52	54	53	53
125	53	49	50	50
250	46	47	45	41
500	45	37	41	41
1000	42	32	40	36
2000	39	28	31	31
4000	34	22	31	26
8000	30	18	22	18

Fig. 1

The max levels were very similar between the DJ on 4/24 and the live band on 11/21.

The un-weighted AVERAGE sound levels (Leq) by octave band are shown in Fig. 2

Octave band Hz	Sat. 4/24	Sunday11/21	Sunday11/21	Sunday11/21 5:05-5:07pm
	10-11:30pm	2-3pm	4-5pm	•
32Hz	46dB	51dB	50dB	50dB
64	42	43	46	45
125	42	41	45	45
250	36	38	41	39
500	32	30	34	34
1k	29	24	30	30
2k	26	20	25	23
4k	19	16	19	18
8k	20	18	20	19
Leq (T)	54dB (1.5hr)	56dB (1hr)	57dB(1hr)	58dB(2min)
LeqA(T)	38dBA(1.5hr)	33dBA(1Hr)	37dBA(1hr)	36dBA(2min)

Fig.2

The average 2-5pm Leq level is approximately 3dB higher on Sunday 11/21 than on Saturday 4/24. A 3dB Leq difference may be slightly perceivable.

The average 2-5pm LeqA level is about 3dBA lower. The variability can be due to the weighting of the low and high frequencies (A weighting modeled after human hearing).

#### **Reference information:**

#### Additional measurements-

Measurements were also made using a second sound level meter (Svantek 977 Class 1) for both sound and vibration levels in multiple locations in the loft for short durations from 4-5pm as shown in Fig.3 (data is also available by octave band).

Measurement location	Leq	Leq A
Couch	57dB	34dBA
Table by wall	58	36
Dining room table	57	39
Kitchen island	57	37
Bedroom dresser	58	35
Average	57	36
Coffee table (ambient)	54	30

Fig. 3

#### Informal measurements-

During lunch at Copper Fire several informal sound measurements were taken using an iphone while the band was playing. Although measurements were made for octave bands; the overall Leq, LeqA and several max levels are provided below;

Middle of the room

Leq =96dB (this is understated due to limitations of the iphone internal microphones)

LeqA=94dBA

Peak levels- several at 106dB

Back of the room – 84dBA

Sidewalk outside of the glass window behind the band-70dBA (window STC=approx. 24)

Although these were informal measurements they are in line with assumptions provided in the April report.

# Vibrations-

Vibrations on walls and furniture were difficult to detect and measured levels were very low.

Please let me know if you have any questions about the above.

Thanks

Mike Biffignani President Sondare Acoustics 3145688042
