

ILLINOIS POLLUTION CONTROL BOARD
September 11, 1986

IN THE MATTER OF:)
)
APPLICATION FOR LAKE MICHIGAN) PCB 86-139
PERMIT NO. 204LM FOR THE)
U.S. ARMY CORPS OF ENGINEERS,)
CHICAGO DISTRICT)

ORDER OF THE BOARD (by B. Forcade):

On September 10, 1986, the Illinois Department of Transportation ("IDOT") filed a request for permit concurrence. This concerns a permit application filed by the Army Corps of Engineers seeking to dredge material from the navigation channel at the entrance to Waukegan Harbor. It would appear the quantity of material involved is 50,000 cubic yards and the open water disposal location is near the City of North Chicago public water supply intake. On September 11, 1986, the Lake Michigan Federation filed an objection.

This matter will be set for hearing. Prior to hearing, the Army Corps or IDOT are ordered to file full and complete copies of all documents listed under reference in paragraph 6 of page 3 of the Report of Sampling and analysis of sediments collected in March, 1986. The Board specifically seeks all available historical sampling and analysis data for sediments at or near the area to be dredged. At hearing, the participants will be expected to address:

1. The amounts and concentrations of pollutants that may be made available for water column transport during the dredging operation and available methods to prevent their subsequent migration to the Waukegan water intake.
2. The amounts and concentrations of pollutants that may be made available for water column transport during the open water disposal operation and available methods to prevent their subsequent migration to the City of North Chicago water intake.

IT IS SO ORDERED.

I, Dorothy M. Gunn, Clerk of the Illinois Pollution Control Board, hereby certify that the above Order was adopted on the 11th day of September, 1986, by a vote of 6-0.

Dorothy M. Gunn
Dorothy M. Gunn, Clerk
Illinois Pollution Control Board
