Hello Don Brown,

Please docket this email as a public comment for R2024-017 in the Matter of Proposed Clean Car and Truck Standards: Proposed Section 35 III. Admin Code 242.

Thank you for receiving my public comment. I am a Chicago resident and have lived in Little Village for 27 years. I support the Illinois Pollution Control Board adopting the Proposed Clean Car and Truck Standards! These standards are important because they affect thousands of people in my neighborhood, including my friends and family.

My neighborhood has fought against many environmental injustices throughout the years (HILCO, lack of public parks and more) and will continue to push for a healthier and safer environment. As a person with mild asthma, I believe that my exposure to the neighborhood's polluted air throughout the years has affected me, at least a bit. I love La Villita and its people and hope that we can keep making positive changes to better our community.

Thank you.
