Dear Mr. Brown

My name is Laura Sychowski and I am a citizen of Illinois who is concerned about our environment. I understand that there is a decision being made as to whether clean vehicle standards should be adopted. I support the adoption of these rules for our own health and the health of our environment. With so many environmental protections being stripped away in our country at this time, I believe that Illinois should continue to do what is sensible in terms of preserving our environment and our future.

Laura Sychowski
