Dear Mr. Brown,

I'm submitting this comment in direct response to the comments submitted by the Illinois Environmental Protection Agency in regards to the Clean Vehicle Standards. I'm disappointed by the Illinois EPA 's comments against these standards and I'm disappointed that the Illinois EPA chose to oppose these rules. Also, that they didn't acknowledge the hundreds of community members who shared why and how these rules would make their lives better.

I strongly agree with the hundreds of people who submitted comments in support of these rules including teachers, students, public health professionals, parents, people with lung conditions like asthma and COPD, EV owners, and more.

I urge the Illinois Pollution Control Board to listen to the hundreds of concerned residents who've engaged in this process in hopes that Illinoisans can enjoy cleaner air. If adopted, these standards would lower climate pollution, clean up our air, increase clean jobs, and save lives.

Again, I urge the Pollution Control Board to adopt Clean Vehicle Standards and help make the air we breathe cleaner and environment healthier.

Sincerely,

Bob Barbieri
Winfield, IL
