

ILLINOIS POLLUTION CONTROL BOARD

August 13, 2025

IN THE MATTER OF:)
)
PROPOSED AMENDMENTS TO) R22-18A
GROUNDWATER QUALITY) (Rulemaking – Public Water Supplies)
35 ILL. ADM. CODE 620)

HEARING OFFICER ORDER

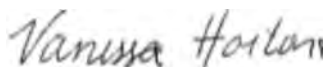

In this sub-docket, the pre-filed testimony, Board questions, and participants' responses have raised the subject of how the Part 620 groundwater quality standards will affect Part 807 landfills. In order to develop a more complete record and to attempt to include representatives from Part 807 landfills, the Board asks that the Illinois Environmental Protection Agency (Agency) for contact information of owners or operators of Part 807 landfills so that the Board may add them to the notice list of this sub-docket before the rescheduled hearing in this matter.

Participant Land and Lakes Company's witness, Brad Hunsberger, pre-filed testimony included Attachment A which is a list of 97 Part 807 permitted solid waste landfills of which 34 are closed but not certified as closed; and 63 are in post-closure. The list also includes three other Part 807 landfills and five Part 807 permitted landfills that were never developed.

The Agency is directed to file the following information with the Board by August 19, 2025.

1. Please provide any email addresses the Agency maintains for the listed contact, owner or operator of the 97 Part 807 permitted landfills, and 3 other Part 807 landfills listed in Attachment A.
2. Please provide the mailing addresses the Agency maintains for the listed contact, owner or operator of the 97 Part 807 permitted landfills, and 3 other Part 807 landfills listed in Attachment A.

IT IS SO ORDERED.

Vanessa Horton
Hearing Officer
Illinois Pollution Control Board
