PROPOSED PLACEMENT OF LIMESTONE	)	(Rulemaking – Land)
RESIDUAL MATERIAL STANDARDS:	)	
PROPOSED 35 ILL. ADM. CODE 706	)	

**STATUS REPORT**

On August 13, 2025, there was a status call for this rulemaking. During this status call, the proponents of the rulemaking advised that they were working on revising the rulemaking language to address the Illinois Environmental Protection Agency's ("Agency") previous comments. Immediately after the status call, counsel for Amrize Cement Inc. ("Amrize") (f/k/a Holcim (US) Inc.) contacted the Agency to further discuss the status call and their approach moving forward.

After the status call on August 13, 2025, counsel for Amrize emailed the Agency on the same day to provide an overview of the approach going forward, and to inform the Agency that they are working on the revised language and will provide it soon.

On August 19, 2025, counsel for Amrize and the Agency briefly discussed the rulemaking, and the Agency followed up with an email to counsel for Amrize, confirming that proponents would be providing revised language.

As of the filing of this status report, the Illinois Environmental Protection Agency confirms it has not yet received revised rulemaking language from the proponents of the rulemaking.

Respectfully submitted,

ILLINOIS ENVIRONMENTAL  
PROTECTION AGENCY
