Respondent.)

ORDER OF THE BOARD (by Mr. Young):

On June 21, 1976 Petitioner filed a petition for variance with the Board. The petition is inadequate in that it fails to comply with the requirements of our Procedural Rule 401.

It is the Order of the Board that Petitioner shall amend its petition within 45 days of this Order. Petitioner is directed to supply information, including, but not limited to the following data: the average dry weather flow of the treatment plant; the designed dry weather flow of the treatment plant; the maximum hydraulic capacity of the treatment plant; the BOD and suspended solids concentration of the effluent and of the receiving stream; the design and construction grant status of the treatment plant improvements; and the estimated construction completion date of the housing project.

Failure to timely file an amended petition shall cause the petition to be denied without prejudice for inadequacy. The 90-day decision period set by Section 38 of the Environmental Protection Act shall run from the date of the filing of the amended petition.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 8th day of July, 1976 by a vote of 5-0.

Christan L. Moffett
Christan L. Moffett, Clerk
Illinois Pollution Control Board
