RCRA SUBTITLE C UPDATE, USEPA   )   (Identical-in-Substance
AMENDMENTS (January 1, 2002 through   )   Rulemaking - Land)
June 30, 2002)   )

Adopted Rule. Final Opinion.

OPINION OF THE BOARD (by M.E. Tristano):

SUMMARY OF TODAY'S ACTION

The Board today adopts amendments to the Illinois regulations that are "identical in substance" to hazardous waste management regulations adopted by the United States Environmental Protection Agency (USEPA). The USEPA rules implement Subtitle C of the federal Resource Conservation and Recovery Act of 1976 (RCRA Subtitle C) (42 U.S.C. §§ 6921 *et seq*. (2000)). This docket includes federal RCRA Subtitle C amendments that USEPA adopted in the period January 1, 2002 through June 30, 2002.

Sections 7.2 and 22.4(a) provide for quick adoption of regulations that are identical in substance to federal regulations that USEPA adopts to implement Sections 3001 through 3005 of RCRA (42 U.S.C. §§ 6921-6925 (2000)). Section 22.4(a) also provides that Title VII of the Act and Section 5 of the Administrative Procedure Act (APA) (5 ILCS 100/5-35 and 5-40 (2000)) do not apply to the Board's adoption of identical-in-substance regulations. The federal RCRA Subtitle C regulations are found at 40 C.F.R. 260 through 266, 268, 270, 271, 273, and 279.

This opinion supports an order that the Board also adopts today. This opinion discusses various issues involved in this proceeding, and the order sets forth the text of the amendments. The Board will hold the present amendments for 30 days, specifically to give USEPA further opportunity to review the amendments and comment on them before they become effective. The adopted amendments will be filed with the Office of the Secretary of State no later than February 13, 2003.

FEDERAL ACTIONS CONSIDERED IN THIS RULEMAKING

The following listing briefly summarizes the federal actions considered in this RCRA Subtitle C update rulemaking:

Docket R03-7: January 1, 2002 through June 30, 2002, RCRA Subtitle C Amendments

USEPA amended the federal RCRA Subtitle regulations on nine occasions during the period January 1, 2002 through June 30, 2002. Each is summarized below:

67 Fed. Reg. 2962 (January 22, 2002)
USEPA amended the corrective action management unit (CAMU) rule to facilitate and remove disincentives to corrective action at RCRA facilities.

67 Fed. Reg. 6792 (February 13, 2002)
USEPA established interim emission standards for hazardous waste combustors in response to the judicial order in the case <u>Cement Kiln Recycling Coalition v. EPA</u>, 255 F.3d 855 (D.C. Cir. 2001). That case vacated segments of the September 30, 1999 hazardous waste combustor rule. The court ordered that USEPA issue final emission standards by June 14, 2005 and interim standards by February 14, 2002.

67 Fed. Reg. 6968 (February 14, 2002)
USEPA amended the provisions of the September 30, 1999 hazardous waste combustor rule to facilitate implementation of the rule. These are companion amendments to those of February 13, 2002, but they do not affect substantive emissions standards.

67 Fed. Reg. 11251 (March 13, 2002)
USEPA amended its Phase IV land disposal restriction (LDR) rule in response to the judicial vacatur in the case <u>Association of Battery Recyclers v. EPA</u>, 208 F.3d 1047 (D.C. Cir. 2000). The amendments related to two aspects of the Phase IV LDR rule vacated by the court. First, USEPA deleted language that classified mineral processing characteristic sludges and byproducts being reclaimed as solid waste. Second, USEPA included language that renders the toxicity characteristic leaching procedure (TCLP) test inapplicable to manufactured gas plant (MGP) waste.

67 Fed. Reg. 16262 (April 4, 2002)
USEPA determined not to list certain paint production wastes as hazardous and impose land disposal restrictions on them.

67 Fed. Reg. 17119 (April 9, 2002)
USEPA corrected a segment of its November 20, 2001 inorganic production waste rule.

67 Fed. Reg. 30811 (May 8, 2002)
USEPA announced its decision to reaffirm its regulatory interpretation that spent catalyst removed from a dual-purpose hydroprocessing reactor is a listed hazardous waste.

67 Fed. Reg. 30811 (May 8, 2002)
USEPA corrected segments of the consolidated permit rules of 40 C.F.R. 124 as they appeared in the 2001 edition of the *Code of Federal Regulations*, including a segment relating to RCRA permits.

67 Fed. Reg. 38418 (June 4, 2002)
USEPA granted interim authorization of various states' corrective action management unit rules, including Illinois.

No Later RCRA Subtitle C (Hazardous Waste) or UIC
Amendments of Interest to Date

The Board engages in ongoing monitoring of federal actions. As of the date of this opinion and accompanying order, the Board has identified no other USEPA actions since June 30, 2002, that further amend the RCRA Subtitle C hazardous waste rules.

When the Board observes an action outside the nominal timeframe of a docket that would require expedited consideration in the pending docket, the Board will expedite consideration of those amendments. Federal actions that could warrant expedited consideration include those that directly affect the amendments involved in this docket, those for which compelling reasons would warrant consideration as soon as possible, and those for which the Board has received a request for expedited consideration.

No Other Federal Actions Having a Direct Impact on the
Illinois RCRA Subtitle C Regulations

In addition to the amendments to the federal RCRA Subtitle C regulations, amendments to certain other federal regulations occasionally have an effect on the Illinois hazardous waste rules. Most notably, 35 Ill. Adm. Code 720.111 includes several incorporations of federal regulations by reference. The incorporated regulations include segments of various USEPA environmental regulations and United States Department of Transportation hazardous materials transportation regulations that USEPA has incorporated into the federal hazardous waste rules.

As of the date of this opinion and order, the Board has found only two sets of amendments to the incorporated materials. These were the February 13, 2002 and February 14, 2002 updates by USEPA of portions of the National Emission Standard for Hazardous Air Pollutants (NESHAP) for hazardous waste combustors, in 40 C.F.R. 63, as part of the amendments to the hazardous waste combustor rule. These amendments have required the Board to update the version of 40 C.F.R. 63 incorporated by reference in Section 720.111 to include the February 13, 2002 and February 14, 2002 actions.

> **67 Fed. Reg. 6792 (February 13, 2002)**
> Interim emission standards for hazardous waste combustors in response to the judicial order in the case Cement Kiln Recycling Coalition v. EPA, 255 F.3d 855 (D.C. Cir. 2001)

> **67 Fed. Reg. 6968 (February 14, 2002)**
> Amendments to the September 30, 1999 hazardous waste combustor rule to facilitate implementation of the rule.

Another body of federal regulations that have an impact on the RCRA Subtitle C regulations are the federal consolidated permit rules of 40 C.F.R. 124. In fact, major segments of 35 Ill. Adm. Code 703 are derived from the federal consolidated permit regulations.

USEPA corrected the consolidated permit rules of 40 C.F.R. 124 on May 8, 2002 (67 Fed. Reg. 30811). One of those corrections relates to RCRA permits. The Board included those corrections in the present update docket.

67 Fed. Reg. 30811 (May 8, 2002)
Corrections to segments of the consolidated permit rules of 40 C.F.R. 124, including a segment relating to RCRA permits.

RCRA Subtitle C (Hazardous Waste) and UIC Amendments on Which No Board Action Is Necessary

Among the listed federal RCRA Subtitle C and UIC amendments examined by the Board are six on which no Board action is necessary in this docket R03-7. Those actions were those of January 22, 2002, March 13, 2002, April 4, 2002, April 9, 2002, May 8, 2002, and June 4, 2002.

The amendments of January 22, 2002 were substantive amendments that the Board adopted on April 18, 2002 in RCRA Subtitle C Update, USEPA Amendments (January 1, 2001 through June 30, 2001), R02-1, RCRA Subtitle C Update, USEPA Amendments (July 1, 2001 through December 31, 2001, January 22, 2002, March 13, 2002, and April 9, 2002), R02-12, UIC Update, USEPA Amendments (July 1, 2001 through December 31, 2001), R02-17 (Apr. 18, 2002) (consolidated). The Board granted the request of the Illinois Environmental Protection Agency (Agency) for expedited consideration of those amendments.

The Board similarly expedited consideration of the federal amendments of March 13, 2002 and April 9, 2002 in RCRA Subtitle C Update, USEPA Amendments (January 1, 2001 through June 30, 2001), R02-1, RCRA Subtitle C Update, USEPA Amendments (July 1, 2001 through December 31, 2001, January 22, 2002, March 13, 2002, and April 9, 2002), R02-12, UIC Update, USEPA Amendments (July 1, 2001 through December 31, 2001), R02-17 (Apr. 18, 2002) (consolidated). The March 13, 2002 amendments related to the Phase IV land disposal restrictions, which were already involved in that docket, and the Board found it expedient to consider those amendments at that time. The April 9, 2002 amendments related to the inorganic production waste rule, which was also involved in that docket.

Finally, in the actions of April 4, 2002 and June 4, 2002, and in one of the actions of May 8, 2002, USEPA did not amend its regulations. The action of April 4, 2002 was a determination not to list paint production wastes as hazardous waste and impose land disposal restrictions on them. The May 8, 2002 action was an announcement that USEPA reaffirmed its earlier regulatory interpretation that spent catalyst removed from a dual-purpose hydroprocessing reactor is a listed hazardous waste. In the action of June 4, 2002, USEPA granted interim authorization to numerous states, including Illinois, for implementation of their corrective action management unit amendments based on the January 22, 2002 federal amendments.

No Board action is required on any of these three actions, but the Board takes note of them in this opinion for the benefit of the regulated community.

Summary Listing of the Federal Actions Forming the Basis of the Board's Actions in These Consolidated Dockets

Based on the foregoing, the federal actions that form the basis for Board action in this update docket are as follows, in chronological order:

February 13, 2002 (67 Fed. Reg. 6792)	Interim emission standards for hazardous waste combustors.
February 14, 2002 (67 Fed. Reg. 6968)	Amendments to the September 30, 1999 hazardous waste combustor rule to facilitate implementation of the rule.
May 8, 2002 (67 Fed. Reg. 30811)	Correction of segments of the consolidated permit rules of 40 C.F.R. 124 as printed in the 2001 edition of the *Code of Federal Regulations*.

PUBLIC COMMENTS

The Board adopted a proposal for public comment in this matter on September 5, 2002. Notices of Proposed Amendments appeared in the November 1, 2002 issue of the *Illinois Register*, at 26 Ill. Reg. 15541 (Part 703), 15677 (Part 705), 15721 (Part 720), 15737 (Part 724), 16112 (Part 725), and 16125 (Part 726). The Board received public comments on the proposal for 45 days after the date of publication, until December 16, 2002. During the public comment period, the Board a number of suggestions for revisions and corrections from the Joint Committee on Administrative Rules (JCAR). The Board further received the following public comment:

> PC 1   Susan Schroeder, Associate Counsel, Illinois Environmental Protection Agency (Agency), Division of Legal Counsel (dated December 9, 2002).

In PC 1, The Agency highlighted one inconsistency in the text of the proposed amendments and suggested two minor revisions to the text of the regulations to enhance clarity. The Board has incorporated the Agency suggestions into the text of the amendments as adopted. The Agency suggestions are considered in the substantive discussions of the amendments that begin on page 7 of this opinion.

TIMETABLE FOR COMPLETION OF THIS RULEMAKING

Under Section 7.2 of the Act (415 ILCS 5/7.2(b) (2000)), the Board must complete this rulemaking within one year of the date of the earliest set of federal amendments considered in this docket. USEPA adopted the earliest federal amendments that required Board attention on February 13, 2002, so that the deadline for Board adoption of these amendments is February 13, 2003. The Board scheduled adoption of the proposal for public comment for the Board meeting of October 3, 2002 to allow for timely adoption of these amendments on this date. This will allow filing of these amendments after February 9, 2003 and before the February 13, 2003 deadline.

DISCUSSION

The following discussion begins with a description of the types of deviations the Board makes from the literal text of federal regulations in adopting identical-in-substance rules. It is followed by a discussion of the amendments and actions undertaken in direct response to the federal actions involved in this proceeding. This first series of discussions is organized by federal subject matter, generally appearing in chronological order of the relevant *Federal Register* notices involved. Finally, this discussion closes with a description of the amendments and actions that are not directly derived from the federal actions.

General Revisions and Deviations from the Federal Text

In incorporating the federal rules into the Illinois system, some deviation from the federal text is unavoidable. This deviation arises primarily through differences between the federal and state regulatory structure and systems. Some deviation also arises through errors in and problems with the federal text itself. The Board conforms the federal text to the Illinois rules and regulatory scheme and corrects errors that we see in the text as we engage in these routine update rulemakings.

In addition to the amendments derived from federal amendments, the Board often finds it necessary to alter the text of various passages of the existing rules as provisions are opened for update in response to USEPA actions. This involves correcting deficiencies, clarifying provisions, and making other changes that are necessary to establish a clear set of rules that closely parallel the corresponding federal requirements within the codification scheme of the Illinois Administrative Code.

The Board updates the citations to the *Code of Federal Regulations* to the most recent version available. As of the date of this opinion, the most recent version of the *Code of Federal Regulations* available to the Board is the July 1, 2002 version. Thus, we have updated all citations to the 2002 version, adding references to later amendments using their appropriate *Federal Register* citation, where necessary.

The Board substituted "or" for "/" in most instances where this appeared in the federal base text, using "and" where more appropriate. The Board further used this opportunity to make a number of corrections to punctuation, grammar, spelling, and cross-reference format throughout the opened text. We changed "who" to "that" and "he" or "she" to "it," where the person to which the regulation referred was not necessarily a natural person, or to "he or she," where a natural person was evident; changed "which" to "that" for restrictive relative clauses; substituted "must" for "shall"; capitalized the section headings and corrected their format where necessary; and corrected punctuation within sentences.

In addition, the federal rules have been edited to establish a uniform usage throughout the Board's regulations. For example, with respect to "shall," "will," and "may," "must" is used when an action is required by the rule, without regard to whether the action is required of the subject of the sentence or not. "Shall" is no longer used, since it is not used in everyday language. Thus, where a federal rule uses "shall," the Board substitutes "must." This is a break

from our former practice where "shall" was used when the subject of a sentence has a duty to do something. "Will" is used when the Board obliges itself to do something. "May" is used when choice of a provision is optional. "Or" is used rather than "and/or," and denotes "one or both." "Either . . . or" denotes "one but not both." "And" denotes "both."

The Joint Committee on Administrative Rules (JCAR) has requested that the Board refer to the United States Environmental Protection Agency in the same manner throughout all of our bodies of regulations—*i.e.,* air, water, drinking water, RCRA Subtitle D (municipal solid waste landfill), RCRA Subtitle C (hazardous waste), underground injection control (UIC), etc. The Board has decided to refer to the United States Environmental Protection Agency as "USEPA." We will continue this conversion in future rulemakings as additional sections become open to amendment. We will further convert "EPA" used in federal text to "USEPA," where USEPA is clearly intended.

The Board has assembled tables to aid in the location of these alterations and to briefly outline their intended purpose. The tables set forth the miscellaneous deviations from the federal text and corrections to the pre-amended base text of the rules in detail. The tables are set forth and explained beginning at page 12 of this opinion. There is no further discussion of most of the deviations and revisions elsewhere in this opinion.

Discussion of the Particular Federal Actions Involved in This Docket

Amendments to the Hazardous Waste Combustor Rule and Hazardous Waste NESHAP— Sections 703.205, 703.208, 703.221, 703.232, 703.280, 703.335, 720.111, 724.440, 725.440, and 726.200

The USEPA action of February 13, 2002 (67 Fed. Reg. 6792) related to the National Emission Standards for Hazardous Air Pollutants (NESHAP) applicable to cement kilns, lightweight aggregate kilns, and incinerators burning hazardous waste. USEPA established interim emission standards for hazardous waste combustors in response to the judicial order in the case Cement Kiln Recycling Coalition v. EPA, 255 F.3d 855 (D.C. Cir. 2001). That order vacated segments of the September 30, 1999 hazardous waste combustor rule. The court ordered that USEPA issue final emission standards by June 14, 2005 and interim standards by February 14, 2002.

On February 14, 2002 (67 Fed. Reg. 6968), USEPA amended the provisions of the September 30, 1999 hazardous waste combustor rule relating to implementation of the rule. USEPA's stated intent was to facilitate implementation of the rule in response to a number of public comments that it had received. The amendments primarily relate to compliance and monitoring. The implementation amendments are companions to the substantive amendments of February 13, 2002, but they do not affect the substantive emission standards. Persons interested in the details of the federal amendments should consult the February 13, 2002 and February 14, 2002 *Federal Register* notices.

The Board adopted the original September 30, 1999 hazardous waste combustor NESHAPs in RCRA Subtitle C Update, USEPA Amendments (July 1, 1999 through Dec. 31,

1999) (May 18, 2000), R00-13. In this docket, the Board amends the Illinois hazardous waste regulations to correspond with the February 13, 2002 and February 14, 2002 federal amendments to the hazardous waste combustor NESHAP. The Board has done this with minimal deviation from the text of the corresponding federal regulations. These amendments have resulted in limited changes in the language of Sections 703.205(e); 703.208 preamble; 703.221; 703.232 preamble; 703.280(j)(1); 720.111; 724.440(b); 725.440(b); and 726.200(a), (b), and (d), and the addition of Section 703.320. Many segments of the federal amendments related to 40 C.F.R. 63, which is part of the federal NESHAP regulations. The Board has incorporated 40 C.F.R. 63 by reference in the Illinois rules at 35 Ill. Adm. Code 720.111. Thus, the federal amendments to 40 C.F.R. 63 required the Board to update the incorporation to include the amendments. The table that begins on page 12 of this opinion itemizes the various revisions made in the federal text in adapting it into the State regulations.

The Board requested public comment on our incorporation of the February 13, 2002 and February 14, 2002 federal amendments. Although the Board received suggestions for minor corrections, no one submitted substantive comments.

Correction to Consolidated Permit Rules, Procedure for Permit Issuance—Section 705.201

On May 8, 2002 (67 Fed. Reg. 30811), USEPA corrected 40 C.F.R. 124.15 as published in the 2001 edition of the *Code of Federal Regulations*. This is a segment of the consolidated permit rules. The amendment was a minor change in the wording of a single sentence. The Illinois provision that corresponds with 40 C.F.R. 124.15 is Section 705.201, and a single correction is required to subsection (c) of that Section.

The Board incorporates the May 8, 2002 correction into the Illinois regulations without deviation from the federal text. The Board requested public comment on the incorporation of the May 8, 2002 federal correction. Although the Board received suggestions for minor corrections, no one submitted substantive comments.

<div align="center">

Discussion of Corrective Amendments

</div>

The Board has traditionally used the occasion of these identical-in-substance updates to correct segments of the base text of the Illinois regulations. These corrections are almost always non-substantive in effect. The Board is including a significant number of non-substantive corrections in this docket. The inclusion of these corrections in this docket differs from previous dockets because of the numbers of corrections involved, and not to the nature of any of the corrections.

Most of the corrective amendments are the result of Board staff review of the text of the rules. However, some are the result of review by others, like JCAR, the Agency, or the regulated community. The corrections often result through a shift in style or preference on the part of the Board, JCAR, or the regulated community, such as changing usage or format. Thus, the Board routinely makes the following changes in the text of the open Sections: "shall" to "must", "subsection (a) above" to "subsection (a) of this Section", "35 Ill. Adm. Code 721.Subpart C" to

"Subpart C of 35 Ill. Adm. Code 721," etc. The Board also routinely corrects actual errors in the text, like the occasional misspelled word, improper punctuation, or a segment of missing text.

When a necessary minor correction comes to the attention of the Board, Board staff makes a note of the correction, and it is set aside until the next opportunity to make the correction. The next opportunity generally presents itself when the Section involved is next opened for amendment as a result of amendments to the corresponding federal text. Over the last few years, the Board has cataloged very many changes, but the pace of completing the corrections has been slow, since only a limited number of all the Sections involved in the hazardous waste regulations have been the subject of federal amendments. At the rate at which the Board has been able to make the corrections while restricting attention to opened Sections of the regulations, the Board might never be able to complete the corrections.

Thus, the Board has decided to try a different approach beginning in this docket. The Board will also begin including the corrections necessary to some Sections that are not already involved in this docket at a result of federal amendments. The Board believes that prompt completion of the corrections would benefit the Agency's implementation of the rules and the regulated community.

But, the Board cannot make all the corrections needed in this docket. The collective volume of the six parts involved is significant. If the Board were to make all the necessary corrections to the opened Parts in this proceeding, the amendments would total about 1100 printed pages of text.[1] The Board believes that this is an unreasonable volume of amendments to make in a single rulemaking, considering the needs of reviewing, reproducing, and publishing this volume of text.

For this initial step, the Board has decided to limit the volume of the amendments and corrections in this docket to about 650 pages. The Board is including all the necessary corrections to Parts 703, 705, and 724 of which the Board is aware at this time. The Board will include only those corrections to Parts 720, 725, and 726 that are in Sections already involved in this proceeding. That is, in Parts 720, 725, and 726, the Board is amending only Sections 720.111, 725.440, and 726.200 as necessary to include federal amendments. The Board will defer making the rest of the corrections to Parts 720, 725, and 726 until some future update docket. The Board will continue this process of making corrections to the text of open Parts at a reasonable rate in future RCRA Subtitle C update dockets until all of the corrections are complete to all of Parts 702 through 705, 720 through 726, 728, 733, and 739.

The Board will not discuss particular corrective amendments in this segment of this discussion. The corrections are each itemized in the table that begins on page 16 of this opinion. The Board requested that the Agency, JCAR, and the regulated community review the table and the text of the corrections. The Board requested comment on the corrections. The Board also asked for the assistance of the Agency, JCAR, and the regulated community in this process; the Board requests that they submit suggestions for correction of any errors of which they are aware.

---

[1] The approximate volume of the Parts is 167 pages for Part 703, 27 pages for Part 705, 45 pages for Part 720, 395 pages for Part 724, 338 pages for Part 725, and 124 pages for Part 726.

The Board will catalog any suggestions relating to Parts and Sections not already involved in this proceeding for future use.

As indicated above, the Board received a number of suggested clarifications and corrections from JCAR. The nature of the suggestions is indicated in the attached tables 3 and 4 that appear below beginning on page 141 and 156 of this opinion. The Board also received suggestions from the Agency that warrant specific discussion in this segment of the opinion.

In PC 1, the Agency pointed out the September 5, 2002 proposal for public comment removed references to Agency termination of a permit from Section 705.128(d), while adding a reference to Agency termination of a permit to Section 705.184(a). The Board has corrected the erroneous addition to Section 705.184(a), since the Agency lacks the authority to terminate a permit once issued.

The Agency further requested in PC 1 that the Board add a note to four specific segments of the amendments relating to the hazardous waste combustor rule. The Agency requested that the Board make explicit one implicit aspect of the federal regulations. The federal rules do not expressly provide for the continued applicability of conditions relating to waste treatment once the owner or operator has demonstrated compliance with the NESHAP of 40 CFR 63, subpart EEE. The Agency noted the continued applicability of such treatment standards as the land disposal restrictions notwithstanding the compliance demonstration. The Board has followed the Agency's suggestion and added explanatory language in Board notes appended to Sections 703.205(e), 703.320, 724.440(a), and 725.440(a) noting that the demonstration of compliance with the NESHAP doe not relieve the owner or operator from the obligation to comply with conditions relating to waste treatment.

Finally, the Agency in PC 1 asked the Board to clarify a second aspect of the applicability of the hazardous waste regulations *vis à vis* the hazardous waste combustor NESHAP. The Agency noted that some hazardous waste facilities are difficult to classify as a Subpart O unit (an incinerator), a Subpart X unit (a miscellaneous unit), or a Subpart J unit (tank system). The Agency then stated that it is unclear whether all hazardous waste combustors would be classified as a "major source," as such is defined under the NESHAP requirements. The Agency requested that the Board clarify whether a hazardous waste combustor that does not qualify as a major source would be subject to the hazardous waste combustor requirements of the RCRA Subtitle C regulations. In response, the Board notes that Sections 703.205, 703.208, 703.221, 703.232, 703.320, 724.440, 725.440, and 726.200 grant a partial exemption from the hazardous waste regulations to those hazardous waste combustors that demonstrate compliance with the hazardous waste NESHAP of 40 C.F.R. 63, subpart EEE. If a source is not a "major source" that is subject to the NESHAP requirements, there is no partial exemption from the hazardous waste combustor requirements of the RCRA Subtitle C regulations for a source that would otherwise be subject to those rules.

Agency or Board Action

Section 7.2(a)(5) of the Act requires the Board to specify those portions of the program over which USEPA will retain decision making authority. Based on the general division of

functions within the Act and other Illinois statutes, the Board is also to specify which State agency is to make decisions.

In situations in which the Board has determined that USEPA will retain decision-making authority, the Board has replaced "Regional Administrator" with USEPA, so as to avoid specifying which office within USEPA is to make a decision.

In some identical-in-substance rules, certain decisions pertaining to a permit application are not appropriate for the Agency to consider. In determining the general division of authority between the Agency and the Board, the following factors should be considered:

1.   Whether the entity making the decision is applying a Board regulation, or taking action contrary to ("waiving") a Board regulation. It generally takes some form of Board action to "waive" a Board regulation.

2.   Whether there is a clear standard for action such that the Board can give meaningful review to an Agency decision.

3.   Whether the action would result in exemption from the permit requirement itself. If so, Board action is generally required.

4.   Whether the decision amounts to "determining, defining or implementing environmental control standards" within the meaning of Section 5(b) of the Act. If so, it must be made by the Board.

There are four common classes of Board decisions: variance, adjusted standard, site-specific rulemaking, and enforcement. The first three are methods by which a regulation can be temporarily postponed (variance) or adjusted to meet specific situations (adjusted standard or site-specific rulemaking). There often are differences in the nomenclature for these decisions between the USEPA and Board regulations.

Tabulations of Deviations from the Federal text and
Corrections to and Clarifications of the Base Text

Table 1 below list numerous corrections and amendments that are not based on current federal amendments. Table 1 (beginning immediately below) includes deviations made in this final order from the verbatim text of the federal amendments. Table 2 (beginning on page 18 below) contains corrections and clarifications that the Board made in the base text involved in these amendments. The amendments listed in this table are housekeeping amendments not directly derived from the current federal amendments. Table 3 (beginning on page 141 below) is a listing of revisions made to the text of the amendments from that proposed and set forth in the Board's opinion and order of October 3, 2002. Table 3 indicates the changes made, as well as the source that suggested each of the changes. Table 4 (beginning on page 156 below) indicates suggested revisions that the Board has not made in adopting these amendments. Each entry gives a brief explanation why the Board did not incorporate the suggested change. Some of the

entries in these tables are discussed further in appropriate segments of the general discussion beginning at page 6 of this opinion.

Requested Revisions to the Text of the Proposed Amendments Not Made in Final
Adoption

Section Affected	Source(s) of Request: Requested Revision(s)	Explanation
703.185(h)(5)	JCAR: Delete the subsection heading and create a freestanding paragraph	1 Ill. Adm. Code 100.340 prohibits this structure
703.208 preamble	JCAR: Change "Sections 726.202(e)(1) and (e)(2)(c)" to "Section 726.202(e)(1) and (e)(2)(c)"	The appropriate correction is the following "35 Ill. Adm. Code 726.202(e)(1) and (e)(2)(C)"
703.223(b)(1)(C)	JCAR: Restore the comma after "35 Ill. Adm. Code 721"	The comma was never deleted or marked for deletion
703.232 preamble	JCAR: Change "Sections 726.202(e)(1) and (e)(2)(c)" to "Section 726.202(e)(1) and (e)(2)(c)"	The appropriate correction is the following "35 Ill. Adm. Code 726.202(e)(1) and (e)(2)(C)"
703.320(a)(1)(B)(iii)	JCAR: Delete the subsection heading and create a freestanding paragraph	1 Ill. Adm. Code 100.340 prohibits this structure
703.320(a)(2)(B)(iii)	JCAR: Delete the subsection heading and create a freestanding paragraph	1 Ill. Adm. Code 100.340 prohibits this structure
705.320(a)(4)(D)	JCAR: Delete the subsection heading and create a freestanding paragraph	1 Ill. Adm. Code 100.340 prohibits this structure
705.320 Board note	JCAR: Change the abbreviation "Feb." to "February"	This is unnecessary because the *Federal Register* citation in which this appeared has been removed

720.111(a) "USEPA" "Table 2.B . . ."	JCAR: Change "Final" to "FINAL" to agree with the foregoing three references	The word "Final" in this reference and "FINAL" in the preceding three references appear as they do in the original documents
724.176(a)	JCAR: Change "~~EPA~~ USEPA identification number" to "USEPA identification number"	The text on file with the Secretary of State appears as "EPA identification number"
724.176(c)	JCAR: Change "~~EPA~~ USEPA identification number" to "USEPA identification number"	The text on file with the Secretary of State appears as "EPA identification number"
724.213(e)(5)(A)(iii)	JCAR: Delete the subsection heading and create a freestanding paragraph	1 Ill. Adm. Code 100.340 prohibits this structure
724.213(e)(7)(C)	JCAR: Change the ending punctuation from a period to a semicolon and add the ending conjunction "or"	Rather than do this, the Board chose to change the ending punctuation of subsections (e)(7)(A) and (e)(7)(B) from a semicolon to a period
724.240(c)	JCAR: Change "the States" to lower-case "the state"	The chose instead to use the singular "the State"
724.277(b) Board note	JCAR: Change the indent level of the note	The chose instead to move the content of the note to the note attached to subsection (c), which also pertains to the entire Section
724.292(e)	JCAR: Move the comma after "Systems" outside the closing quotation marks to agree with the placement of semicolons in preceding text	The Board's drafting style calls for the placement of commas and periods inside closing quotation marks and semicolons outside
724.351(c)(5)	JCAR: Change "ground water" to "groundwater" (without underlining and overstrike)	The Board has made the change but using underlining and overstrike
724.984(c)(2)(E)	JCAR: Change "needs" to "need"	The subject "control device" is singular
724.984(g)(2)(C)	JCAR: Change "needs" to "need"	The subject "control device" is singular
724.984(g)(3)(C)	JCAR: Change "subsection (l) of this Section" to "subsection (i) of this Section"	The corresponding cross-reference in 40 C.F.R. 264.1084(g)(3)(iii) is to "subsection (l) of this section"

726.200(b) Board note	JCAR: Remove the brackets from "the approach adopted by USEPA as a"	Brackets are the standard method for indicating words added to or substituted in quoted material, and the Board could find no authority restricting their use to citation to the *Illinois Compiled Statutes*

HISTORY OF RCRA SUBTITLE C AND UIC ADOPTION
ILLINOIS ENVIRONMENTAL PROTECTION AGENCY OR BOARD ACTION
EDITORIAL CONVENTIONS

It has previously been the practice of the Board to include an historical discussion in its RCRA Subtitle C and UIC identical-in-substance rulemaking proposals. However, in the last RCRA Subtitle C update docket, <u>RCRA Subtitle C Update, USEPA Amendments (July 1, 1999 through Dec. 31, 1999)</u>, R00-13 (May 18, 2000), the Board indicated that it would cease this practice. Therefore, for a complete historical summary of the Board's RCRA Subtitle C and UIC rulemakings and programs, interested persons should refer back to the May 18, 2000 opinion and order in R00-13.

The historical summary contains all Board actions taken to adopt and maintain these programs since their inception and until May 18, 2000. It includes a listing of all site-specific rulemaking and adjusted standards proceedings filed that relate to these programs. It also lists all USEPA program authorizations issued during that time frame. As necessary the Board will continue to update the historical summary as a segment of the opinion in each RCRA Subtitle C and UIC update docket, but those opinions will not repeat the information contained in the opinion of May 18, 2000 in docket R00-13.

The following summarizes the history of the Illinois RCRA Subtitle C hazardous waste and UIC programs since May 18, 2000:

History of RCRA Subtitle C and State Hazardous Waste Rules Adoption
