ORDER OF THE BOARD (by Mr. Dumelle):

On August 4, 1977 the Board ordered Petitioner to provide more information in its variance petition or be subject to dismissal. Specifically the Board ordered Petitioner to request or waive a hearing and to assess the environmental impact of the requested relief.

On October 17, 1977 the petition was amended in two respects. A hearing was requested and the amount of reductions in sulphuric acid mist contemplated in the variance was projected.

The Board has still not been apprised of the effects of Petitioner's emissions on human, plant, and animal life. There is no data describing the existing air quality which this discharge affects. Consequently this petition still fails to meet the requirements of Procedural Rule 401(a)(7). If this deficiency is not corrected within 45 days of the date of this Order, this petition will be subject to dismissal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 10th day of November, 1977 by a vote of 50.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
