

ILLINOIS POLLUTION CONTROL BOARD

May 10, 1979

IN THE MATTER OF THE MODINE)
)
MANUFACTURING COMPANY PETITION) R79-8
)
TO AMEND CHAPTER 3 REGULATIONS)

ORDER OF THE BOARD (by Mr. Young):

The Agency has proposed and the Board has acknowledged in R79-6 a series of regulatory hearings which are expected to culminate in the establishment of specific numerical water quality standards for all of the stream segments in Illinois based upon the actual and anticipated uses of such segments.

The State is required by Section 303 of the Federal Water Pollution Control Act as amended by the Clean Water Act of 1977 to periodically review applicable water quality standards and make appropriate modifications. The review will begin with R79-6 hearings on June 13, 1979, and are expected to provide a detailed and comprehensive consideration of water quality standards in Illinois. It is the opinion of the Board that the proposal set forth in R79-8 will be better addressed as an integral part of the final action in R79-6 and that the proceedings should be consolidated.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 10th day of May, 1979, by a vote of 5-0.

Christan L. Moffett, Clerk
Illinois Pollution Control Board
