CONCURRING OPINION (by Mr. Goodman):

I fully concur with the analysis and decision made by the Board in the April 14, 1977 Opinion by Mr. Zeitlin. I disagree, however, with the Board's determination not to review our decision in Sherwin Williams Company v. EPA, December 18, 1975. Although abstaining in that specific case, I disagree with the Board's legal conclusion in Sherwin Williams and feel that the time is ripe for the Board to reconsider its position concerning the applicability of Rule 205(g)(1)(c), i.e. the waste gas stream from any petroleum or petrochemical manufacturing process, to an operation which utilizes petrochemicals as feedstock.

  
Irvin G. Goodman

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above concurring Opinion was submitted on the 26<sup>th</sup> day of April, 1977.
