Petitioner, )  
 )  
v. ) PCB 78-115  
 )  
ENVIRONMENTAL PROTECTION AGENCY, )  
 )  
Respondent. )

ORDER OF THE BOARD (by Mr. Dumelle):

On April 24, 1978 Petitioner requested a variance from the Board's Air Pollution Control Regulations so that its foundry in Rockford could be allowed to continue operating. The Petition is insufficient in several respects. First it fails to specifically identify the Board regulations from which relief is sought as required by Procedural Rule 401(a)(1). Second it does not state the reasons why compliance was not achieved by the required date as required by Procedural Rule 401(a)(5). Third it fails to assess the environmental impact of the requested relief as required by Procedural Rule 401(a)(7). Fourth it fails to specifically request or waive a hearing as required by Procedural Rule 401(b). Additionally it fails to state any reason why the Board should extend ultimate compliance beyond July 1, 1979, the date mandated under Section 113 of the Clean Air Act. If these inadequacies are not corrected within 45 days of the date of this Order, this matter will be subject to dismissal.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 27<sup>th</sup> day of April, 1978 by a vote of 5-0.

  
Christan L. Moffett, Clerk  
Illinois Pollution Control Board
