INTERIM ORDER OF THE BOARD (by Mr. Goodman):

It is the opinion of the Pollution Control Board (Board) that Mason and Meents Construction Company's (Mason and Meents) compliance plan lacks the certainty required by Procedural Rule 401(viii). Before a compliance plan can be approved, Mason and Meents must select the method it intends to use to achieve compliance. This is especially important as one of the proposed compliance plans is to modify an existing wet scrubber. The Board feels that the plans for said modification, as set forth in Addendum A, would not result in compliance.

A waiver of Procedural Rule 408 having been filed, this matter is herewith continued until September 18, 1975, at which time Mason and Meents is ordered to file with the Board an amended variance petition which specifies the compliance plan it will pursue.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 4<sup>th</sup> day of September, 1975 by a vote of 4-0.

  
Christan L. Moffett, Clerk  
Illinois Pollution Control Board
