 ENVIRONMENTAL PROTECTION AGENCY, )  
 )  
 ) Respondent. )

ORDER (by Mr. Henss)

The City of Geneseo requests variance "for use of our refuse disposal site for as long as it lasts or as necessary". Petitioner also requests aid in preparing a proper variance petition.

The petition is inadequate at this time since it does not give the information required under our procedural rule 401. A copy of that procedural rule is being forwarded to Petitioner for use in preparing an amended petition. The amended petition shall be filed by April 8, 1974. In particular the amended petition for variance shall specify the location of the landfill, describe the surrounding community, specify what pollutional problems exist and the impact on the environment and the surrounding community, identify the statute or regulation from which variance is sought, and describe any control program which will be put into effect to bring the operation into compliance. The amended petition shall also describe any hardship which will be imposed on petitioner if compliance with the statute or regulation is required.

The amended petition shall specifically state that the 90 day period available for ruling on the variance petition shall commence with the filing of the amended petition.

If the amended petition is not filed within the time allowed this petition shall be subject to dismissal without prejudice.

It is so ordered.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board certify that the above order was adopted by the Board on the 7th day of March, 1974 by a vote of 5 to 0.
