

ILLINOIS POLLUTION CONTROL BOARD  
March 15, 1973

VILLAGE OF CATLIN )  
 )  
 v. ) PCB73-110  
 )  
 ENVIRONMENTAL PROTECTION AGENCY )

INTERIM ORDER (by Mr. Dumelle):

The petition filed with the Board on March 12, 1973 does not state the specific rule or regulation from which relief is sought. It is not clear whether the sewers themselves are overloaded or whether the sewage plant is inadequate. In addition, no facts are given as to the damage to the environment that will result from the grant of this variance. The Board is also aware of a slowdown in the availability of Federal grant funds for sewage plant construction but the petition is not clear as to whether any Federal grant funds (as opposed to loan funds) are involved in the sewage plant construction.

Petitioner is ordered to file an amended petition within 15 days answering these points. If no additional information is received by the Board within this time then the petition is subject to dismissal as being inadequate.

The 90 day period which the Board has in which to decide a variance shall run from the time of the submission of the amended petition.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, certify that the above Interim Order was adopted by the Board on the 10<sup>th</sup> day of March, 1973, by a vote of 4 to 3.
