ORDER

Respondent Aeroglide Corporation, although adjudged not guilty in the Opinion and Order of this Board, has filed a Motion for Clarification of the Opinion and Order. It appears that the Company's manure drier sales might be enhanced if we were to use different language in our Opinion. We have reviewed the issues raised by Aeroglide and deny the Motion. Aeroglide would of course like to place all of the blame for the odors on the operation of the incinerator rather than the manure drier. We express no opinion as to the value of the manure drier if properly installed and operated but the record does indicate that odors were emitted from the manure drier during the periods of investigation in this case. The operation of the manure drier was a part of the odor problem. Modification of the Opinion is not justified.

Motion denied.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted this 31st day of May, 1973 by a vote of 4 to 0 .
