  )   )  
ENVIRONMENTAL PROTECTION AGENCY,         )  
  Respondent.                             )

INTERIM ORDER OF THE BOARD (by Mr. Goodman):

Mason & Meents Construction Company (Mason) filed its petition for an air variance on April 28, 1975.

Mason's petition is insufficient in that it fails to adequately state: 1) the hardship encountered as provided in rule 401(a)(2); and 2) type of emissions; and 3) a showing by Petitioner as to whether the ambient air quality of the area effected by the variance meets the national ambient air quality standards as adopted by the Board; and 4) if the ambient air quality does not meet those standards, whether the granting of the variance would contribute to the area's failure to meet such standards; and 5) if ambient air quality does meet said standards, whether the variance would cause the ambient air quality to fail to meet said standards.

It is the order of the Board that Petitioner shall amend its petition within 45 days of this order to provide the above described information. Failure to timely file the amended petition shall cause the petition to be dismissed for inadequacy. The 90-day decision period set by statute shall run from the date of filing the amended petition.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 8<sup>th</sup> day of May, 1975 by a vote of 5-0.
