PCB 74-47

ORDER OF THE BOARD (by Mr. Dumelle):

Petition filed January 28, 1974 is inadequate in that the location of the lot for which a sewer connection is desired is not given. Petitioner also should state whether his connection, if granted, would be to an overloaded sewer. Petitioner is asked to review the Board's recent order in PCB 73-134, North Shore Sanitary District v. EPA to determine whether he can now secure a permit for connection after July 1, 1974.

Petitioner is ordered to amend his petition within 35 days from date of this order to provide the information listed above. A waiver of the 90-day decision period for the period elapsing between the date of order and the filing of the amended petition shall be made.

Failure to timely file the information requested shall render the petition liable to dismissal as inadequate.

IT IS SO ORDERED.

I, Christan L. Moffett, Clerk of the Illinois Pollution Control Board, hereby certify the above Order was adopted on the 31st day of January, 1974 by a vote of 5-0.
